Catalogue of
**ROSES SHRUBS
FRUIT TREES
SEEDS & PLANTS**

HARRIS, SCARFE, LIMITED.
GRENFELL STREET. ADELAIDE

A large, ornate decorative border made of intricate floral and scrollwork patterns, framing the central text.

Superior Floral Work

ORDERS for all types of Floral Work can be executed at shortest notice. Prices are moderate, whilst the quality of the work is guaranteed. The successes we have consistently achieved at the Royal Agricultural Society Show is, in itself, sufficient evidence of the superiority of our work.

Floral Price List

WREATHS of exquisite fresh flowers delivered at shortest notice. Prices range from 5/- each upwards.

BRIDAL FLOWERS. Orders for the all important "Day of Days" may be confidently entrusted to us, and will be delivered as fresh and dainty as though hands had never touched them. Only the choicest blooms being used—most tastefully arranged.

BRIDAL SHEAVES range in price from 10/-

MAIDS' SHEAVES range in price from 7/6

MATRONS' POSIES range in price from 3/6

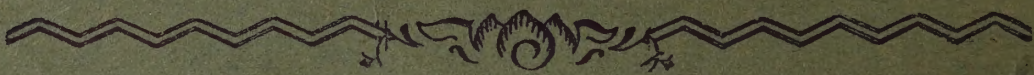

SHOWER BOUQUETS for Wedding or Presentation,
range from 10/6 each

SHOULDER POSIES from 1/6

FRESH CUT FLOWERS

The freshness and quality of our cut flowers is unexcelled. Our prices are exceptionally low. A trial will mean another satisfied customer to our list. All Floral work and Cut Flowers delivered.
Phone C 3300.

HARRIS, SCARFE, LIMITED, ADELAIDE

A decorative horizontal line with a wavy, zigzag pattern, accented with small floral motifs in the center.

CATALOGUE for 1941

IN this Catalogue for the 1941 season will be found many new introductions which it is hoped will meet with the approval of our many friends and garden lovers.

Novelties.—For Novelties, Recent Introductions, and Special Lines, see Colored Pages in centre of catalogue.

Index.—For the convenience of our Clients a Complete Index of Seeds, Ornamental Trees, Shrubs, Plants, Fruit Trees, etc., has been compiled, and will be found on Pages 2 and 3.

Terms of Business.—We believe that all Seeds, Bulbs, Rose Trees, Fruit Trees, Roots, etc., sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this we give no undertaking that Seeds, Bulbs, Roots, Trees, etc., will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, expressed or implied, as to their growth, description, quality or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us and any money paid to us will be refunded.

Ordering Name and Address.—Customers when ordering are requested to give their full name and address, together with full directions as to how they wish the goods to be sent, whether by carrier, rail, or boat, and to whose care the goods must be consigned.

We deliver all goods free on rail, or wharf, after which our responsibility ceases, but we take special care in packing, so that our goods will carry well.

Substituting.—On account of the difficulty in obtaining full supplies of many lines, and the failures of crops of others, we may, if unable to supply the exact variety ordered, substitute for it some other variety of a similar nature, which will, in our opinion, give satisfactory results.

Should customers wish us not to follow this plan with their orders, it is only necessary to state on the order, "Do not substitute."

We Want Your Business.—No order is too large, and none too small to receive prompt and personal attention.

Remittance.—For ordinary payments, customers may remit Bank Draft, Cheque, or Post Office Order. Small amounts should be remitted by Postal Notes, payable Adelaide.

Packing.—Cases, Bags and Straw Bundles, used in packing will be charged at actual cost price. The greatest care is taken in the packing of all plants and trees, so as to ensure their arrival in good condition.

Storekeepers and the Trade supplied at wholesale rates.

Note.—Should there be any seeds, plants, etc., required that are not mentioned in this Catalogue we will be only too pleased to endeavor to supply them.

All Prices in this Catalogue are subject to market fluctuations.

The Snail Problem Solved With "INSTANT 265"

Reliable Slug and Snail Exterminator

There is no more sure destructive agent for Snails and Slugs than "Instant 265." It kills instantly. It needs no messy preparation, but is ready for use in the tin. Its effectiveness lies in its irresistible attraction for all garden pests—none are proof against it. It is pleasant to handle, simple to use, and the most efficient and economical exterminator that has ever been marketed. Sold in tins containing 1½ lbs. for 1/9, 2½ lbs. for 2/9, and 5 lbs. for 5/-.

HARRIS SCARFE'S

"INVINCIBLE" HIGH-GRADE SEEDS NOW OBTAINABLE IN THREEPENNY PACKETS

In order to meet the growing demand of our customers for smaller quantities of flower seeds, we now offer practically all of the lines in general demand at threepence per packet. We sincerely trust that this advantage will be of great assistance to those who do not require the larger packet. Our High-Grade vegetable seed will still be issued in threepenny packets as before.

SPECIAL NOTE!

We wish to intimate that in offering our "Invincible" Flower Seeds in threepenny packets the same High-Grade Seed will be used as contained in the sixpenny packets.

Since the inauguration of our Seed and Florists' Department, 15 years ago, it has been our definite policy to supply only the best at all times, and we are very pleased to announce that in pursuing this course the department has grown beyond our most sanguine expectations.

All Retail orders for our "Invincible" Seeds in packets to the value of 1/- and over are sent post free, excepting Peas, Beans, and Sweet Corn.

"Australian Gardener"

AN encyclopaedia of Australian Gardening Knowledge. 560 Pages filled with sound, practical advice, and up-to-date hints on the growing of Flowers, Vegetables and Fruits. Complete with Planting-out Tables, Seed-Sowing Calendars, Lists of Flowering Shrubs and Trees.

Cactus Culture, Pruning, Diseases, 230 Illustrations. Send to-day for your Copy.

Price, 8/-. Postage 9d.

HARRIS, SCARFE, LIMITED

Grenfell Street ————— Adelaide, S.A.

Select List of Flower Seeds

6d. and 3d. per Packet, except where otherwise priced.

The Flower and Vegetable Seeds offered in this list are of high standard and quality, always associated with Harris, Scarfe's strains, and suitable to our climate. Our seeds are fresh and clean, and purchased from the most reliable growers throughout the world, and we definitely state there is nothing better procurable. The greatest of care is taken to supply everything true to name, but on account of the many adverse influences which affect the growth of seeds and their germination, it is impossible to give any warranty or take an responsibility for the crop. Also included in the following list are **SUTTON'S RELIABLE SEEDS**, in their own sealed packets.

ACROCLINIUM.—Charming Annual "Everlasting Flowers." Double Rose, 6d. pkt.

AGERATUM.—Hardy Annual.

Little Dorrit.—A splendid variety. 12 in., azure blue. 3d. packet.

Fairy Pink (New).—Compact, salmon-rose. 1/- pkt.

Mexicanum.—Blue, 3d. and 6d. pkt.

Blue Cap.—The best dwarf Ageratum yet offered. A deep, rich blue, and very compact in growth. An ideal variety for edgings to flower borders. 6d. pkt.

Sutton's Dwarf Blue (H.H.A.).—Sweet-scented bedding plant; excellent also for edgings. 6d. pkt.

Mauve Beauty.—3d. and 6d. packet.

ALONSOA.—These very beautiful Annuals are becoming deservedly more popular.

Grandiflora.—Scarlet. 3d. packet.

Miniata.—One of the brightest scarlet annuals. Fine compact habit and very free-flowering. 3d. packet.

Mutisi.—Delicate pink, crimson centre, a very pretty variety. 3d. packet.

Warszewiczii.—Scarlet. 3d. packet.

ALYSSUM.—Hardy Annual. A splendid little plant for edgings, beds, or rock work; sweet scented.

Maritimum nanum, Violet Queen.—See Novelty page.

Dwarf Carpet (Carpet of Snow).—Compact dwarf habit, growing about 2 inches high. Literally forming a carpet. 3d. and 6d. pkt.

Lilac Queen.—Dwarf and compact. 3d. pkt.

Procumbens.—Creeping carpet Alyssum. Specially select stock. 3d. packet.

Saxatile compactum.—Yellow Perennial, 6d. pkt.

Sutton's Sweet White.—Indispensable hardy annual, remaining in bloom the whole season. 6d. pkt.

AMARANTHUS.—Half-Hardy Annual.

Molten Fire.—Dark foliage with vivid Poinsettia-like tips. 3d. pkt.

Tricolor splendens.—Very rich coloring. 3d. pkt.

Salicifolius.—Variegated willow-leaved red and yellow. 3d. pkt.

ANCHUSA (Cape Forget-Me-Not).—Hardy Biennial and free-flowering.

italica, Dropmore Variety, lovely gentian blue, grand improvement. 6d. pkt.

ANEMONE.—Hardy Perennial. Beautiful spring-flowering bulbs, easily grown from seed.

coronaria (Windflower), finest mixed Poppy Anemones. 3d. and 6d. pkt.

Monarch Double Gem.—This new strain resembles St. Brigid, but has nearly twice the number of petals. The mixture is rich in scarlet, cerise, and deep rose shades, blues and salmons. 9d. pkt.

St. Brigid.—Choicest Mixed. 3d. and 6d. pkt.

Sutton's Brilliant Mixed. 6d. pkt.

**BEAUTIFUL NEW ANTIRRHINUMS
MAJESTIC STRAIN.**

NANUM MAJESTIC ANTIRRHINUMS.

Avalanche.—Pure white. 3d. pkt.

Delight.—Salmon-pink and apricot. 3d. pkt.

Eldorado.—Deep golden yellow. 3d. pkt.

Evensong.—Chamois pink. 3d. pkt.

Fair Lady.—Delicate flesh pink. 3d. pkt.

Fire Dragon.—Brilliant cerise-scarlet merging to gold at centre. 3d. pkt.

Golden Dawn.—Golden-chamois overlaid salmon. 3d. pkt.

Orange King.—Bright terra-cotta merging to deep orange at base. 3d. pkt.

Red Chief.—Rich deep scarlet. 3d. pkt.

Rose Beauty.—Rose-pink self. 3d. pkt.

Rose Marie.—Light salmon-rose, golden centre. 3d. pkt.

Royal Gold.—Glowing golden orange. 3d. pkt.

Rosella.—Rich glowing rose. 3d. pkt.

Sunset.—Bright terra-cotta, shaded rosy-salmon. 3d. pkt.

Twilight.—Delicate rosy-salmon. 3d. pkt.

Majestic Mixed.—From all the above colors. 3d. and 6d. pkt.

ANTIRRHINUM (Snapdragon).

Majus grandiflora.—Tall Mixed, 3d. and 6d. pkt.

Sutton's Tall Mixed.—A choice strain. 6d. pkt.

ANTIRRHINUM NANUM (Medium Tall).

Black Prince.—The deepest maroon crimson, dark foliage. 3d. pkt.

Fascination.—Deep flesh pink, no shadings. 3d. pkt.

Goliath (new), massive spikes, immense individual flowers, salmon rose, shading to pale apricot. 6d. pkt.

Mixed.—From named varieties. 3d. and 6d. pkt.

ANTIRRHINUM (Tom Thumb), Mixed.—A mixture of good colors, very dwarf. 3d. pkt.

AQUILEGIA (Columbine).—Hardy Perennial.

Mrs. Scott Elliott's Strain of Long-spurred Hybrids.—Extra fine mixture of delicate shades. 6d. pkt.

Sutton's Selected.—All the best and brightest colors. 6d. pkt.

ARMERIA gigantea (Plataginea), glistening pink (Thrift). 6d. pkt.

ARCTOTIS.—A beautiful Daisy-like flower from South Africa.
grandis.—Blue-eyed Daisy. 6d. pkt.

ASTERS.—Half-Hardy Annual.—Very beautiful free-flowering annuals.

Gargantuan.—This wonderful Aster is of a glorified Crego type, the blooms are very full, beautifully formed, but very much larger, mixed colors, specially selected seed. 6d. per pkt.

Giant Crego.—The best class for general cultivation, handsome flowers, borne on long stems. Can be supplied separate in following colors—**CRIMSON, AZURE BLUE, DEEP ROSE, DARK VIOLET, PEACH BLOSSOM, WHITE, SHELL PINK.** 6d. pkt.

Giant Crego.—Mixed. 3d. and 6d. pkt.

Betteridge's Quilled.—Very attractive, various colors. 3d. and 6d. pkt.

Giants of California.—Very fine, large-flowered type of branching Aster, strong growth, mixed colors. 3d. and 6d. pkt.

Sutton's Ostrich Plume, mixed.—Extremely graceful Aster, with large, loose, feathery heads; unrivalled for table decoration. 6d. pkt.

Sutton's Comet, mixed.—Charming flowers with long twisted and curled petals. 6d. pkt.

AUBRIETIA, Sutton's Deep Mauve. (H.P.)—Cushion-like plants covered with violet-mauve flowers. Suitable for the rockery or borders. 6d. pkt.

AURICULA, Sutton's Border, mixed. (H.P.)—Free-flowering, handsome varieties of the finest form and richest colors. 6d. pkt.

BALSAM (H.A.A.)—Camelia-flowered, Double, mixed. 3d. pkt.

Sutton's Double, mixed.—Very large double flowers of brilliant colors and perfect form. 6d. pkt.

BEGONIA, Semperflorens (Bedding Begonia).—Choicest hybrids; dwarf and compact. 6d. pkt.

semperflorens "Vernon" compacta.—Bronze foliage, with red blooms. 6d. pkt.

semperflorens "gracilis luminosa."—Fine fiery scarlet, reddish brown foliage, very fine variety. 6d. pkt.

BEGONIA (Tuberous Rooted).

Double Monarch Strain.—The finest strain of Double Begonia ever offered. 2/- pkt.

BELLIS PERENNIS (Double Daisy).—Hardy Perennial.

monstrosa rosea.—Pink. 6d. pkt.

monstrosa alba.—White. 6d. pkt.

monstrosa rubra.—Good dark red. 6d. pkt.

Sutton's Giant Double, mixed. (H.P.)—A greatly improved strain of this ever popular flower. Admirable for edgings and beds. 6d. pkt.

BRACHYCOME iberidifolia.—Blue (Swan River Daisy). 3d. pkt.

CALCEOLARIA (for Pot Culture only).

James' Prize Strain.—Mixed varieties; unsurpassed for richness and variety of color, perfection of form, and elegance of habit. 1/6 pkt.

CALENDULA.—Hardy Annual. Well-known old garden Marigold. The large double flowers are very attractive in beds and cut.

Chrysantha.—An entirely new break in Calendulas. It is remarkable for its great length of stem and most striking resemblance the flowers bear to a chrysanthemum. The petals are long, wide and drooping. The color a clear buttercup yellow. 3d. pkt.

Double Art Shades.—Contains many tones not previously obtainable—delicate apricots, beautiful picotees, orange shades, cream tones, almost pure white, yellow and deep orange. 3d. pkt.

Meteor.—Lemon, with orange stripe. 3d. pkt.

Orange King Improved.—Very large, with long stems. 3d. pkt.

Orange Sunshine.—Bright orange, similar in form of flower to Chrysantha. 3d. pkt.

Radio.—Orange quilled petals, flowers globular shape. 3d. pkt.

Radio Golden Beam.—A golden counterpart of Radio. 3d. pkt.

Sensation or Campfire.—Enormous flowers of deep orange. 3d. pkt.

Sulphur Queen. Good sulphur shade. 3d. pkt.

Sutton's Double Orange.—Enormous double orange flowers. 6d. pkt.

Mixed Varieties.—3d. pkt.

CALLIOPSIS tinctoria.—Mixed varieties specially blended. 3d. pkt.

CAMPANULA carpatica, Blue.—Very useful perennial for rock gardens. 6d. pkt.
carpatica alba.—6d. pkt.

CANDYTUFT.—Hardy, well-known showy annuals.

Giant Hyacinth-Flowered White.—Immense pure white spikes, specially selected. 3d. pkt.

Dobbie's Spiral.—Pure white. 3d. pkt.

Dwarf Large-Flowered Hybrids.—Mixed. 3d. pkt.

Dwarf Large-Flowered, Rose, Crimson, White, Lilac. Each 3d. pkt.

Sutton's Crimson and Sutton's Mixed, each 6d. pkt.

CANNA.—A magnificent plant, with charming foliage, and large brilliant flowers.

Crozy's Choicest Mixed. 6d. pkt.

CARNATION.—Hardy Perennial.

New Giant Double Chabaud.—Very free flowering, clove scented. Mixed colors. 6d. pkt.

Fire Queen.—Brilliant scarlet. 6d. pkt.

Salmon Queen.—Pale salmon-pink. 6d. pkt.

Rose Queen.—Deep rose. 6d. pkt.

New Giant-Flowered Malmaison Strain, Choice Mixed, a greatly improved strain for size of flowers. 3d. and 6d. pkt.

Sutton's Double Marguerite, mixed. (H.A.).—Beautiful, sweet-scented, large flowers. 6d. pkt.

Australian Show and Decorative Perpetuals (Australian saved).—These are from the best types and will give a very good proportion of the finest double flowers. In packets of 50 seeds. 2/6 pkt.

CANTERBURY BELLS, Sutton's Large-Flowered, mixed.—Showy varieties of this favorite Old English flower. 6d. pkt.

Annual Mixed (New).—This type flowers from seed within six months from sowing and reaches a height of 2½ feet. 6d. pkt.

Dean's Hybrids, choice mixture of double, single and Cup and Saucer varieties. 3d. pkt

Single Mixed.—Contains white, rose, and blue varieties. 3d. pkt.

Sutton's.—Cup and Saucer varieties. 6d. pkt.

CELOSIA (Feathered Cockscomb).—Half-Hardy Annual.

Thompsoni magnifica.—Improved feather cockscomb. 3d. and 6d. pkt.

Sutton's Mixed.—A mixture of the graceful feather Celosia, producing striking plumes of red, yellow, purple, etc. 6d. pkt.

FLAME OF FIRE—See novelty page.

CENTAUREA (Sweet Sultan).—Hardy Annual. **imperialis.**—Giant flowered hybrids, choice mixture. 3d. and 6d. pkt.

Separate Colors.—White, Rose, Purple, Lavender, Yellow. Each 3d. pkt.

CHEIRANTHUS (Allionii).—A re-selected bright deep orange-colored and large-flowered winter blooming Wallflower. 6d. pkt.

CHRYSANTHEMUM ANNUAL.—Hardy Annual. Showy annual for mixed borders. Easy of culture and good for cutting.

Tricolor.—Single, very showy. Special mixture. 3d. and 6d. pkt.

Leucanthemum, Shasta Daisy, (H.P.).—Splendid type of Marguerite or Ox-eye Daisy. This strain has particularly long petals, and blooms the first season if sown early. 6d. pkt.

Sutton's Mixed Annual.—Most beautiful varieties. 6d. pkt.

Sutton's Mixed Perennial.—If sown early the large-flowered Japanese and incurved varieties flower within the year. 6d. pkt.

CLARKIA elegans, Sutton's Brilliant, Mixed. (H.A.).—Flowers produced in long, loose sprays. All the dull colors are excluded from this strain. 6d. pkt.

Sutton's Pink.—Bright, showy variety, with broad petals. 6d. pkt.

Elegans.—Double mixed. 3d. and 6d. pkt.

CINERARIA.—Excellent for pot culture or sheltered beds and borders.

hybrida.—Single flowers; sweet, charming flowers. 3d. and 6d. pkt.

hybrida grandiflora.—Large-flowered dwarf compact prize varieties, extra choice, in splendid mixture. 1/6 pkt.

Stellata (Cruenta), New Hybrids.—Quite distinct class, very handsome, tall growing, star-shaped flowers, very free blooming. 6d. pkt.
hybrida multiflora nana.—Smallest Dwarf and most compact strain, mixture of many colors. 9d. pkt.

CLIANTHUS DAMPIERI (Sturt Pea).—Scarlet and black. Beautiful hardy plants, worthy of a place in any garden. They all do best if sown where intended to grow. 6d. pkt.

COBOEA SCANDENS.—Rapid-growing; large bell flowers and elegant foliage; H.P., 6 ft., purple. 6d. pkt.

CLEMATIS FLAMMULA (H.P.).—A favorite white Clematis, easily raised from seed. 6d. pkt.

COCKSCOMB.—Half-Hardy Annual.

Glasgow Prize (President Thiers), crimson. 3d.
Sutton's Crimson.—6d. pkt.

CONVOLVULUS (Morning Glory), Sutton's Mixed Climbing (H.H.A.).—Indispensable for covering trellises, arbors, and verandahs. Large showy flowers. 6d. pkt.

COREOPSIS.—Sutton's Large-Flowered Yellow.—Bold golden yellow flowers, produced in abundance. 6d. packet.

Sutton's Tall Mixed.—6d. packet.

grandiflora.—Yellow; fine for cutting. 3d. pkt.

Sunburst.—Double, golden-yellow. 3d. pkt.

COLEUS.—Greenhouse perennial.

Choicest and Newest Varieties.—Saved from a choice collection. 6d. pkt.

Large Leaved Dwarf, Mixed.—1/- packet.

COSMOS.—

Early Klondyke.—Orange Flare, vivid orange shade. 3d. packet.

New Giant Hybrids.—Very large flowers in beautiful mixture. 3d. and 6d. pkt.

Double Mixed.—6d. pkt.

Lady Lennox.—6 ft., lovely shell pink. Of extraordinary size. 3d. pkt.

Sutton's Mixed.—6d. pkt.

CORNFLOWER.—Hardy Annual.

Mixed Colors.—Double. 3d. pkt.

Deep Blue and Rose.—Double. Each 3d. pkt.

Sutton's Single Mixed.—6d. pkt.

Sutton's Blue.—6d. pkt.

CYCLAMEN.—Greenhouse Perennial. One of the most beautiful winter and spring flowering plants.

Persicum. Giganteum.—Special finest named varieties; mixed, 1/- pkt.

Butterfly (Papilio).—The petals are very broad across the top, the edges being gracefully waved and curled, and more brilliantly colored than Persicum. 1/6 pkt.

CYNOGLOSSUM, amabile (Chinese Hound's Tongue).—Beautiful rich blue. 6d. pkt.

DAHLIA.

Charm Dahlias.—Saved from a very fine collection, excellent for cutting. 1/- and 6d. packet.

Coltness Hybrids.—A dwarf-growing class, suitable for edging beds of the tall varieties. All shades. Single. 6d. pkt.

Decorative.—Finest mixed, Harris, Scarfe's Special. 1/- and 6d. pkt.

Garden Cactus.—A splendid stiff-stemmed strain, saved from the best named varieties. 6d. and 1/- pkt.

Sutton's Double, Mixed.—Beautiful double flowers. 6d. pkt.

Unwin's Dwarf Hybrids, Mixed, Re-Selected.—The flowers are single and semi-double with a wide range of exquisite colorings. The plants require no stakes, the average height being 18 to 24 inches, and their freedom of flowering is remarkable. Will flower three months from sowing. 6d. packet.

DELPHINIUM (Perennial Larkspur).—

Blackmore & Langdon's Prize Strain.—The plants produce spikes up to 6 feet in height. Highly recommended. 1/- per pkt.

Reinelt Giants.—See novelty page.

Large-Flowered Hybrids.—Splendid garden strain. 3d. and 6d. pkt.

Smith's Special Large Flowered Strain.—Saved from an extra fine collection; splendid colors; finest mixed. 1/- pkt.

Blue Butterfly Improved.—Annual. Large flowers. 3d. pkt.

Belladonna.—A beautiful pale blue, borne on long spikes. 9d. pkt.

Sutton's Large-Flowered, mixed.—6d. pkt.

DIANTHUS.—Hardy Annual.

Heddewigii.—Choice mixed, extra select. 3d.

Heddewigii.—Double mixed, extra select. 3d. packet.

Sutton's Brilliant Single Mixed.—6d. pkt.

Sutton's Brilliant Double, Mixed.—6d. pkt.

DIDISCUS.—

Coerulea.—Blue lace flowers. 6d. pkt.

DIGITALIS (Foxglove).—Hardy Perennial.
monstrosa.—Splendid mixed; very large flowers. 3d. pkt.

Sutton's Mixed.—6d. pkt.

DIMORPHOTHECA (African Daisy).—Hardy Annual.

aurantiaca.—Glossy orange gold. 3d. pkt.

Hybrids.—Assorted colors. 3d. pkt.

DOLICHOS.—Climbing Hardy Perennial.

lignosus.—Small lilac flowers. 6d. pkt.

ESCHSCHOLTZIA (Californian Poppy). Hardy Annual. Very profuse blooming, of extremely rich and beautiful colors.

Finest Mixed.—3d. and 6d. pkt.

Double Monarch Art Shades, Mixed.—The blooms which are semi-double range in color from pink, yellow, orange, and scarlet, 6d.

FELICIA BERGERIANA.—Dwarf blue, star-shaped flowers. 6d. pkt.

FORGET-ME-NOT.—(See *Myosotis*).

FREESIA Hybrids.—Choice mixed. 6d. pkt.

Bartley Hybrids.—This strain represents a vast improvement in Hybrid Freesias, both as regards brilliance of color and variety of tint. They flower in all shades of yellow, orange, pink, rose, mauve, and cream. Seeds sown in the autumn will give a few quite good flowers in the Spring, but will be at their best the following season. 1/- pkt.

GAILLARDIA.—Perennial varieties.

hybrida grandiflora, Monarch Strain, Mixed.—A robust strain, very varied in coloring and with flowers of giant size and perfect form. 6d. packet.

Grandiflora, Dazzler.—Large flowers up to 5 in. across, bright golden yellow, with rich maroon red centre, fine for cutting. 6d. pkt.

Sutton's Large-flowered Single, mixed.—6d. pkt.

Sutton's Double, mixed.—6d. pkt.

ANNUAL TYPE.

These varieties bloom quickly from seed.

Lorenziana.—Large, handsome double-quilled flowers of red and yellow shades. 3d. pkt.

Picta, Single.—Mixed colors. 3d. pkt.

GERBERA (Barborton Daisy).—Hardy Perennial.

Jamesoni hybrida.—Very fine mixture. 1/- pkt.

strumosa—Sutton's Dwarf Compact, mixed.—6d. pkt.

Dwarf Compacta Blue Gem.—6d. pkt.
Nana Compacta, mixed. 3d. packet.

NEMOPHILA.—Hardy Annual.
Mixed.—Various colors. 6d. pkt.
Insignis.—Blue. 3d. and 6d. pkt.

NEPETA, Mussini.—Fine edging plants (Cat-mint). 6d. pkt.

NICOTIANA (H.H.A.).—Exceedingly free and continuous blooming variety; the flowers are especially fragrant in the morning and evening.

Sanderae Hybrid, mixed (H.A.).—3 ft. 3d. pkt.

NIEREMBERGIA HIPPOMANICA.—We can thoroughly recommend this beautiful little Salanaceous plant as an admirable subject for garden borders. Not more than 6 to 8 inches high, it forms a cushion of elegant light green foliage from which emerge corymbs of salver-shaped flowers of a delicate lavender hue, 1 to 1½ inches across, adorned with a clear yellow eye. 6d. pkt.

NIGELLA Hispanica (Dark Blue).—This is the result of an intense selection. 3d. pkt.

Miss Jekyll.—Bright cornflower blue. 3d. and 6d. pkt.

PANSY.—We offer the choicest strains procurable.
HARRIS, SCARFE'S "INVINCIBLE" SCOTCH EXHIBITION PANSY.—No Pansy has yet been introduced to surpass this wonderfully improved strain. 2/6 pkt.

Celestial Queen.—Winter flowering, producing masses of sky blue flowers. The best bedding blue pansy. 3d. and 6d. pkt.

Coronation Gold (New).—See Novelty Pages.

Giant Roggli.—Very large blooms on long stems of varied coloring. Extra fine for bedding display. 9d. pkt.

Giant Roggli Alpenglöw.—Large flowered red. 9d. pkt.

Giant Roggli Berna.—Velvety violet blue. 9d. pkt.

Giant Roggli Golden Yellow.—Pure yellow self. 9d. pkt.

Giant Trimardeau Choice Mixed.—Improved stock. 3d. and 6d. pkt.

Winter Sun.—Winter flowering, bright yellow flowers with black blotches. 3d. pkt.

Giant Lord Beaconsfield.—Large, deep purple violet, shading off in upper petals to a white hue. 3d. pkt.

Giant Cardinal.—Large-flowered cardinal red. 3d. pkt.

Helios.—Winter flowering, pure bright yellow. 3d. and 6d. pkt.

Masterpiece.—Very fine blooms, beautifully blotched and curled, rich colors. 6d. pkt.

Orchid Flowered.—See Novelty Pages.

Oregon Giants.—See Novelty Pages.

Sutton's Ullswater.—A new variety plant which has created the widest interest. The coloring is unusual and attractive—a solid blue flower with a blue-black centre. 6d. pkt.

Sutton's Bedding Mixed.—6d. pkt.

Sutton's Perfection, Mixed.—Consists entirely of the newest, best shaped, and most handsome flowers; including an immense variety of brilliant colors. 6d. pkt.

PHACELIA campanularia, Sutton's Royal Blue.—Very showy hardy annual with bell-shaped flowers of a rich gentian blue, especially striking in masses or as an edging. 6d. pkt.
campanularia.—Rich blue. 6d. pkt.

PENTSTEMON.—Hardy Perennial.
Mixed, Large-flowered Hybrids.—Extra choice, grand collection. 6d. pkt.

PETUNIA.—Nothing excels the Petunja as a summer bedding plant.

Triumph Pink.—The largest and most beautiful bedding Petunia yet introduced, beautifully frilled, of a brilliant carmine-pink color, with yellow throat, which sets off the flowers to great advantage. The plants do not straggle, and produce flowers very freely on sturdy, upright growths. 1/6 pkt.

Giants of California.—Exquisitely fringed and of large dimensions, sometimes measuring 5 in. across. A splendid variety of color and good deep throats. 1/- pkt.

Grandiflora Superbissima.—Choicest mixed, very large flowers, beautifully veined in the throats. 1/- pkt.

All Double, Choice Mixed.—Wide range of brilliant colors, large fringed flowers. 2/6 pkt.

Finest Double Fringed.—Mixed, large flowering, extra choice. 2/6 pkt.

Finest Single Fringed.—Mixed; very choice. 1/6 pkt.

Setting Sun, nana fimbriata.—As a dwarf fringed bedding Petunia, Setting Sun has no equal. Its beautiful rose pink blooms are about 4 inches across and very full, produced on compact plants. 1/- pkt.

General Dodds.—Dark crimson. 3d. pkt.

Blue Bedder.—A beautiful deep blue. 6d. pkt.

Lavender Queen.—(Silver Lilac). A compact grower, of a beautiful silvery lilac shade. 6d. pkt.

Rosy Morn.—Bright rosy pink, with white throat. 3d. and 6d. pkt.

Purple Prince.—Well-known purple variety. 3d. and 6d. pkt.

Ruby Red.—An entirely new shade, rich Ruby crimson. 6d. pkt.

Rose Queen.—A most brilliant Bedding Petunia of the compact habit similar to Rosy Morn, but far more brilliant in color. 6d. pkt.

Choice Mixed Bedding.—3d. and 6d. pkt.

Sutton's Single Mixed.—Flowers varied in color. 6d. pkt.

PHLOX DRUMMONDI GRANDIFLORA.—

Hardy Annual. One of the prettiest and most showy annuals.

Gigantea, Art Shades.—See Novelty Pages.

Extra Fine Quality.—Mixed. 3d. and 6d. pkt.

Harris, Scarfe's Special Mixture of named varieties. This is a wonderful strain, and unsurpassed by any other in existence. 1/- pkt.

coccinea.—True scarlet. 6d. pkt.

Chamois Rose.—6d. pkt.

Dazzler.—Vermilion red. A glorious shade. 6d.

Isabellina.—Yellow or primrose. 6d. pkt.

kermesina albo-oculata.—Crimson, white eye. 6d. pkt.

Leopoldi.—Deep rose, white eye. 6d. pkt.

Lilac, White Centre.—6d. pkt.

stellata splendens.—Crimson scarlet, a much improved *splendens*, large white centre. 6d. pkt.

Sutton's Large-flowered, Scarlet.—Brilliant free-flowering, and effective. 6d. pkt.

Sutton's Large-flowered, mixed.—Indispensable for bedding. 6d. pkt.

POLYANTHUS-PRIMROSE, mixed.—Fine large-flowered varieties, very effective for spring bedding. 6d. pkt.

Sutton's Giant, mixed.—(H.P.). Very large heads of showy flowers in beautiful shades. 6d. pkt.

POPPY.—Very brilliant and showy hardy annuals, useful for cut flowers.

Flanders Field Poppy.—3d. pkt.

Sutton's Giant Double, mixed.—Immense flowers, strikingly brilliant in color. 6d. pkt.

Sutton's Selected Shirley.—Singularly graceful flower. 6d. pkt.

The Shirley.—Extra selected; charming mixture of colors. 3d. and 6d. pkt.

SHIRLEY DOUBLE VARIETIES.

Begonia Flowered Double Mixed.—Extremely double. 3d. pkt.

ICELAND POPPY.—Hardy Perennials. Beautiful colored flowers on long slender stems. Sown early will bloom in winter.

Darlington Tints.—See Novelty Page.

Sunbeam Giant (Orange King).—A splendid orange colored variety with long stems. 3d. pkt.

Sunbeam.—Large flowering, finest mixed. 3d. and 6d. pkt.

Coonara Pinks.—Beautiful shades, from the deepest pink to pale blush; also some almost orange. 3d. pkt.

Giant Tangerine.—Enormous blooms of an intense orange scarlet. 3d. and 6d. pkt.

Sutton's, Mixed.—6d. pkt.

GARTFORD GIANTS.—See Novelty Page.

ORIENTAL POPPIES.

Excelsior Mixture.—Colors ranging from delicate salmon to deep crimson. 6d. pkt.

PORTULACA.—Half-Hardy Annuals.

grandiflora.—Single, choice mixed. 3d. and 6d. pkt.

Choicest Double.—Mixed various colors. 3d. and 6d. pkt.

Sutton's Large-flowered, mixed.—6d. pkt.

PRIMROSE, Sutton's Brilliant, mixed.—(H.P.) Splendid strain of true British Primrose, easily raised from seed. 6d. pkt.

Finest mixed hybrids. Very choice, from a prize collection. 6d. pkt.

vulgaris.—A well-known English favorite flower, primrose yellow. 6d. pkt.

PRIMULA SINENSIS FIMBRIATA (Chinese Primrose).

Giant Mixed Hybrids.—Very choice blend; large flowered. 1/6 pkt.

PRIMULA OBCONICA.

Chenies Giant Hybrids.—Unique strain for size of flowers and brilliant colorings. 1/6 pkt.

PRIMULA MALACOIDES.—A beautiful bedding plant.

Brillancy (New).—Rich, brighter red. See Novelty Page.

Sutton's Dwarf Eclipse.—This new variety of *Primula Malacoides* provides a distinct break in the development of this popular flower. The blooms, which are of a pleasing shade of deep lavender-pink, are very much larger than those of any other variety. 6d. pkt.

Giant Rose.—A fine pink variety of large size. 6d. pkt.

PYRETHRUM.—A beautiful class of hardy perennials. Sow in light soil in the autumn or spring.

aureum (Golden Feather).—Splendid bedding plant, golden yellow foliage, unrivalled for borders; 6 in. high. 6d. pkt.

hybridum grandiflorum.—Marguerite-like flowers. Excellent for cutting when grown in cool, moist climates. All shades of rose, lilac, white and reds. 6d. pkt.

RANUNCULUS.—Hardy perennial.

Asiaticus superbissimus.—Semi-Double, double, and single. Mixed colors. 3d. pkt.

"CLAREMONT" SUPER HYBRID, No. 9 (New).—Splendid New Giant Double Flowering Strain. 2/6 pkt.

"Claremont".—AA. strain, splendid, mixed. 6d. pkt.

Giant Camelia Flowered, mixed.—Large double flowers on 2-ft. stems, brilliant mixture. 6d. pkt.

Sutton's Giant, French.—Double and semi-double flowers in abundance. 6d. pkt.

RHODANTHE, Sutton's Large-flowered, mixed.—Bright everlasting flowers, much prized for bouquets and pot culture. 6d. pkt.

RUDBECKIA, Sutton's Golden Sunset.—A very attractive annual. The plants are covered with deep yellow flowers, having chestnut markings. Excellent for cutting. 6d. pkt.

SALPIGLOSSIS, Sutton's Giant, mixed.—(H.A.) Highly ornamental, with large veined funnel-shaped flowers of great beauty. 6d. pkt.

Emperor, mixed.—An improved strain of the large-flowered varieties; sturdy growth and the finest colors. 3d. and 6d. pkt.

SALVIA.—Half-Hardy Perennial.

splendens "Bonfire".—Fine spikes of brilliant scarlet flowers, very effective in borders or for bedding. 3d. and 6d. pkt.

patens.—Intense bright blue. 6d. pkt.

Sutton's Scarlet.—6d. pkt.

farinacea.—2 ft., lovely sky blue. 3d. pkt.

GEUM—Hardy Perennial.

Mrs. Bradshaw.—Fine double scarlet. 6d. pkt.

Lady Stratheden.—Pure yellow; fine double flowers. 6d. pkt.

GILIA coronopifolia.—Biennial, growing to a height of 4 ft., with a striking spike of scarlet flowers about 1 ft. long. 6d. pkt.**GLADIOLUS**, *Gandavensis*.—Newest Hybrids, choicest mixed. 6d. pkt.**GLOBE AMARANTHUS**.—Half-Hardy Annual. One of the best hardy everlastings.

Rosea, Rubra, Purple, White, and Mixed.—6d. pkt.

GLOXINIA, Erect Varieties.—Extra choice mixed, saved only from a prize collection. 1/6 pkt.**GODETIA**.—Hardy Annual. A fine class of free flowering Annuals, worthy of extensive cultivation. Very effective.

Kelvedon Glory.—A glowing salmon orange. 6d. pkt.

grandiflora fl. pl.—Mixed double. 3d. and 6d. pkt.

Sutton's Double Pink.—6d. pkt.

Sutton's Large-Flowered, Mixed.—6d. pkt.

"Sybil Sherwood."—The color is a glorious shade of bright salmon pink, softened by an undefined edging of white. 6d. pkt.

GYPSOPHILA.—Graceful plants of light, feathery growth.*elegans grandiflora alba*.—White, annual. 3d. pkt.*elegans rosea*.—Pink; annual. 3d. and 6d. pkt.*Paniculata compacta*.—Perennial; large panicles of double white flowers. 6d. pkt.**HEUCHERA**.—An extremely hardy perennial, producing elegant spikes of flowers, particularly adapted for cutting.*sanguinea*.—Beautiful coral red. 6d. pkt.

Choice Hybrids (New).—Embraces every shade from white to glowing crimson. 6d. pkt.

HELICHRYSUM, Sutton's Giant, mixed.—Large everlasting flowers of various colors. 6d. pkt.**HELIOTROPE**, Sutton's Large-flowered, mixed. (H.H.P.).—Sweetly scented pot and bedding plant, easily raised from seed. 6d. pkt.**HOLLYHOCK.**

Annual Indian Spring (Novelty).—See novelty pages.

Annual, single mixed. 3d. pkt.

Annual, double mixed. 3d. pkt.

Dwarf "Art Shades."—Exceptionally large single flowers of beautiful art shades. The plants are of dwarf habit, producing huge flowers on slender stems without any crowding. Good annual variety. 6d. pkt.

Sutton's Single, Mixed.—Free flowering type of richly colored single flowers. 6d. pkt.

Sutton's Double, mixed. (H.P.) A much improved strain with large double flowers, many charming shades. 6d. pkt.

Extra Choice Double (Chater's).—Superb strain mixed colors. 6d. pkt.

HONESTY.—Hardy biennials, splendid for cut blooms. 6d. pkt.**HUMULUS JAPONICUS VARIEGATUS** (Variegated Japanese Hop).—The leaves are beautifully blotched and variegated. 6d. pkt.**HUNNEMANNIA**.—Hardy Perennial.*fumariaefolia*.—Bright yellow, resembling a Poppy with crinkled petals. 6d. pkt.**IPOMOEA**.—Half-Hardy Annual. Beautiful hardy climbers, with *Convolvulus*-like flowers. Rapid growing, covering a large space quickly.**Cardinalis**.—A beautiful climber, with fern-like lacinated foliage, and fiery cardinal red flowers; borne in clusters. 6d. pkt.

Heavenly Blue Improved.—Deep sky-blue. 6d. pkt.

Leari.—Rich dark blue, perennial. 6d. pkt.

IPOMOPSIS.—Half-Hardy Annual.

Mixed.—Very showy. 6d. pkt.

JACOBEEA.—Splendid rich-colored free-flowering plants; very double and beautiful; very effective. Double mixed. 6d. pkt.**KOCHIA**.—Half-Hardy Annual.*trichophylla* (Summer Cypress).—Pyramidal habit, small feather-like green foliage, turning a lovely crimson hue in March. 3d. and 6d. pkt.**LARKSPUR**.—Hardy Annual.

La France.—Of outstanding merit, this variety, belonging to the stock-flowered branching type, will prove popular on account of the striking color—a pleasing salmon pink. 6d. pkt.

Miss California.—A deep salmon rose, quite distinct. It comes into flower ten days later than La France. 6d. pkt.

Stock Flowered.—Choicest double; mixed. 3d. and 6d. pkt.

Rosy Scarlet.—Double; beautiful rosy red. 3d. pkt.

Stock-Flowered, in separate colors.—Azure Blue, Dark Blue, Bright Rose, Flesh Colored, White, Lilac, Light Blue. Each 3d. pkt.

Sutton's Tall.—Mixed. 6d. pkt.

LATHYRUS PUBESCENS.—Climbing Hardy Perennial.

Blue Argentine Everlasting Pea.—Forms a dense mass, with long spikes of lovely powder blue flowers. 6d. pkt.

LEPTOSYNE.—Bushy and compact plant, flowers bright golden yellow; useful for cutting.*maritima*.—Yellow. 3d. and 6d. pkt.**LINARIA**.—Hardy Annual. Charming free-flowering, useful for cutting. Flowers resemble a miniature Snapdragon.

Ruby King.—Rich Ruby Crimson, a glorious variety. 3d. pkt.

maroccana Hybrida Excelsior, Re-selected.—Choice mixed; improved. 3d. and 6d. pkt.*maroccana "Fairy Bouquet"*.—A new type; the plants not being more than eight inches high. A large range of colors on dwarf compact plants. 3d. pkt.*maroccana Fairy Rose*.—See novelty page.**LINUM, grandiflorum rubrum** (Scarlet Flax).—Brilliant scarlet. 3d. pkt.**LOBELIA**.—Hardy Annual. Beautiful for edging borders or small beds. Most brilliant in color, and very effective.*compacta Crystal Palace*.—Dark foliage, dark blue flowers. 3d. and 6d. pkt.*hybrida pendula*.—Light blue, trailing, suitable for hanging baskets. 6d. pkt.

Sutton's Compact Blue.—H.H.P. Beautiful bright blue compact Lobelia. 6d. pkt.

LUPINS.

Russell Lupins.—The long, closely furnished spikes flower in a great variety of rich colors—deep yellows, oranges, reds and brilliant bi-colors never seen in Lupins before. The florets are large with flat fan-like back-standards, and unlike all other Lupins, most of the spikes retain their florets throughout the whole period of development. Average height, 2 ft. 6 in. to 3 ft. 6 in. 6d. pkt.

Annual Varieties.—Good colors; dwarf mixed. 3d. and 6d. pkt.

Sutton's Annual, mixed.—Free blooming. 6d. pkt.

Pink Pearl.—A bushy growing type, free-flowering. 6d. pkt.

Blue Pearl.—6d. pkt.

polyphyllus, Harkness and Downer's.—New Hybrids, sweet scented. The colors run from the palest mauve to deep violet; from sulphur yellow through varying sunset shades to deep apricot; and from pale flesh to deep rose pink. The second year spikes are magnificent. 6d. pkt.

MARIGOLD.—Half-Hardy Annual.

Guinea Gold.—The most beautiful and decorative marigold we have yet seen, producing fully double long petalled flowers having none of the stiffness and formality of the old type. The color is a beautiful deep rich gold. 3d.

Sunset Giants.—Bear immense flowers, averaging from 5 inches across. The flowers have a definitely sweet fragrance. They are loosely formed, very full centred, with broad, heavy petals. The mixture ranges from deep orange through golden orange, deep golden, light yellow, and primrose. 3d. pkt.

African, Lemon.—Selected prize strain. 6d. pkt.

African, Orange.—Selected prize strain. 6d. pkt.

African, Mixed.—Selected strain. 3d. pkt.

Sutton's Giant Double African.—Magnificent orange or lemon-colored flowers; very effective in the garden. 6d. pkt.

Sutton's Tall French.—Immense double flowers. 6d. pkt.

French Tall Double Royal Scot.—Large well-formed double flowers of mahogany and gold in symmetrical stripes which radiate from the centre. 6d. pkt.

Dwarf French Double Monarch.—As a box or bedding plant it is ideal. 3d. packet.

MATHIOLA bicornis.—Evening-scented Stock. Light lilac. 6d. pkt.

MESEMBRYANTHEMUM tricolor.—A pretty dwarf annual well adapted for sunny situations; flowers crimson and white with a dark centre. 6d. pkt.

criniflorum.—Brilliant early flowering annual, gorgeous colours, good for bedding. 6d. pkt.

MIGNONETTE.—Hardy Annual. Well known, deliciously fragrant garden plant.

Red Monarch.—The Deepest Red Mignonette of all. The foliage is strong and of good substance. The flower spikes are broad and of perfect form. Its perfume is exceptionally strong. 6d. pkt.

Machet Giant.—3d. and 6d. pkt.

Sutton's Giant.—One of the finest Mignonettes. 6d. pkt.

Sutton's Sweet-Scented.—Indispensable in every garden. 6d. pkt.

MIMULUS.

Queen's Prize.—Flowers like Gloxinias. 6d. pkt.

Sutton's Giant, mixed.—Flowers of fine form. 6d. pkt.

tigrinus.—Fine spotted varieties. Mixed. 3d. and 6d. pkt.

MINA LOBATA.—Climbing Half-Hardy Annual. Bright red flowers, changing to orange and cream. 6d. pkt.

MYOSOTIS (Forget-Me-Not).—Hardy Annual.

Ruth Fischer.—Dwarf, extra large flowered. 6d. pkt.

oblongata perfecta.—Flowers borne on long stalks, very suitable for winter blooming. 6d. pkt.

Royal Blue.—Intense rich dark blue, with long stalks. 3d. and 6d. pkt.

Sutton's Royal Blue.—6d. pkt.

NASTURTIUM.—Hardy Annual.

Dwarf Double Gem Mixture.—Colors ranging from salmon, yellow, cerise, cream, maroon, crimson and other striking shades. 3d. and 6d. per packet.

Dwarf Mixed, Tom Thumb.—Fine mixture of all colors. 3d. pkt.

Gleam Hybrids.—A mixture of the new double and semi-double type, comprising many new shades, such as crimson, orange, yellow, salmon, scarlet. Rather variable in type. 3d. pkt.

Orange Gleam.—Deep orange. Double flowers. 3d. pkt.

Golden Gleam.—The large golden yellow flowers, which are 2½ to 3 inches across. The plant is of semi-trailing habit. 3d. and 6d. per pkt.

Golden Globe.—Vivid, golden-yellow flowers, all double, very compact and free flowering. Grows only 10 inches high. 3d. pkt.

Mahogany Gem.—Mahogany red; dark foliage. Double flowers. Dwarf variety. 3d. pkt.

Scarlet Gleam. The flowers are a dazzling scarlet, delightfully sweet scented, mostly double on semi-dwarf plant. 3d. pkt.

Scarlet Globe.—Bright scarlet. Double flowers. Dwarf variety. 3d. pkt.

Tall Mixed.—Very special mixture, containing the best-named varieties. 3d. pkt.

Sutton's King of Tom Thumb.—Deep scarlet flowers; rich dark-colored foliage. 6d. pkt.

Sutton's Tall Fairy Queen.—The most beautiful of the tall varieties; the color varies from pale pink to primrose. 6d. pkt.

Sutton's Tall Crimson.—Excellent for covering trellises, arbors, etc. 6d. pkt.

Sutton's Tall, mixed.—A combination of the most showy varieties. 6d. pkt.

NEMESIA.—Hardy Annual.

strumosa Suttoni Grandiflora.—Special strain, extra fine quality; large flowers, mixed colors. 3d. and 6d. pkt.

strumosa Sutton's Mixed.—Richly colored flowers. 6d. pkt.

strumosa Suttoni Grandiflora.—Blue. 6d. pkt.

Nana Compacta Grandiflora, mixed (Triumph).—Large-flowered strain. 6d. pkt.

SCABIOUS, Sutton's Large-flowered, mixed.—Immense heads of handsome flowers. 6d. pkt.

Double, Finest Mixed.—3d. and 6d. pkt.

Scabious Blue Cockade.—Fully double o, deep azure blue flowers, long stems. 6d. pkt.

Azure Fairy.—A lovely rich pale blue. 3d. pkt.

Columbaria.—This is a Perennial South African form of this handsome species, and is a charming shade of pink. The flowers are beautifully formed and are from two to two-and-a-half inches across. The foliage is decorative. 6d. pkt.

SCHIZANTHUS.—Hardy Annual. Very beautiful and elegant in growth; handsome butterfly-shaped flowers of various colors.

Wisetonensis Hybrids, Monarch, Re-selected Strain.—See Novelty Pages.

Sutton's Large-flowered, mixed.—6d. pkt.

hybridus grandiflorus.—Mixed; suitable for beds and borders. Dwarf Pyramidal habit. 3d. and 6d. pkt.

SHASTA DAISY.—See *Chrysanthemum Leucanthemum*.

STATICE.—Market Gardener Blue.—Deep blue shade of considerable value as a cut flower. 6d. pkt.

Caspia.—Very fine silvery blue flowers. 6d. pkt.

Suworowi.—Bright rose, very handsome, annual. 3d. pkt.

STOCKS, "Beauty" or "Giant of Nice."—Early Winter Flowering varieties.

Abundance.—Large carmine rose. 6d. pkt.

Almond Blossom.—White, shaded carmine. 6d. pkt.

Antique Copper.—Large cream pink flowers of very high quality. 6d. pkt.

Aurora.—Buff suffused rose. 6d. pkt.

Sutton's Large-Flowered Double, in following colors: Scarlet, Yellow, White, Rose, and Mixed. Each, 6d. pkt.

Linearis.—Dwarf single; deep golden, striped lemon with dark centre. 6d. pkt.

Pumila Flore Pleno, Double (Cut and Come Again).—A splendid strain of small double blooms, good colors. 3d. pkt.

Our "Invincible" Strain

OF WINTER FLOWERING SWEET PEAS REGISTERED

The Finest Sweet Peas in Cultivation

12 SEEDS PER PACKET.

AFTERGLOW.—The largest Sweet Pea in cultivation. The color is a rich, rosy violet. See colored page for full description. 1/- pkt.

GAWLER FASCINATION.—A beautiful light pink on a white ground. The flowers, which are produced on very long stems, are nearly all four-sprayed. 6d. pkt.

GAWLER SHADED PINK IMPROVED.—The coloring is a delightful shade of pink, shading to pale cream at the base.

GAWLER WHITE.—One of the best whites; long stems and plenty of fours; good for garden or exhibition. 6d. pkt.

GAWLER VIOLET ROSE.—The color is a beautiful blending of soft violet and rose. The large blooms are produced on long stems, which are nearly all four-sprayed. 6d. pkt.

GLADYS HARKNESS.—The color of this wonderful variety is a luminous, bright glowing rose; it is also very highly perfumed. The blooms are the largest ever seen, mostly fours, which are exquisitely waved and frilled. 6d. pkt.

INVINCIBLE LAVENDER.—A glorious variety of perfect form, which supersedes all other Lavenders. 9d. pkt.

INVINCIBLE MAUVE PINK.—One of the best varieties ever raised. The color is soft Mauve Pink. 9d. pkt.

INVINCIBLE PLUM.—A distinctive rich glistening plum with a subtle undercurrent of ruby and satin finish. The flowers, which are produced on extra long stems, are all four-sprayed and beautifully waved. 6d. pkt.

INVINCIBLE VIOLET.—There is a brilliance in the toning of Invincible Violet which seems to hover between shades of Violet, Blue, and Lavender, the Violet shade predominating. 9d. pkt.

MURIEL HARKNESS.—One of the six best varieties ever introduced. Densely waved and frilled, great in size, and a model of perfection in form of flower. The crowning glory of this truly magnificent Sweet Pea is its color, which is pink with lavender toning, shading to ivory white at the base of the petals. 6d. pkt.

One Packet each of the 11 varieties, 6/-, Post Free.

OTHER VARIETIES OF MERIT, 6d. PACKET (except where otherwise priced)

A. BUSING.—Dark red flowers, very large. All fours.

APOLLO.—A vigorous grower producing all 4-sprayed blooms on exceptionally long stems, the color is a bright salmon.

AMERICAN BEAUTY.—The color is a rich crimson rose of striking brightness.

BOON (Novelty).—A particularly attractive variety. The color is a deep glowing salmon pink. 1/- pkt.

BIG BEN.—The color is a bright purple.

COLUMBIA IMPROVED.—The ground color is a beautiful salmon rose, the color is enhanced by the rich cream ground which emerges in a band round the margin.

DAPHNE.—A lovely soft salmon pink; quite a distinct shade which simply compels admiration. The large four-sprayed blooms are carried on extra long wiry stems.

DARK RED IMPROVED.—A robust grower, producing long stems and plenty of fours.

DARK SEEDED CREAM IMPROVED.—A splendid cream variety, plenty of fours.

EARLY CHIME.—Light salmon pink on cream ground.

EARLY GIANT ROSE.—A bright rose pink, most attractive.

EARLY SUNRAY.—An outstanding variety of glowing soft salmon cerise shade.

EARLY MARINER.—Mid-blue, the best blue yet introduced.

IMPERIAL PINK.—A beautiful pink, tinted at the base with orange and cream shadings.

MID-BLUE IMPROVED.—A very pretty sky-blue; four-spray blooms; splendid garden variety.

MOTHER MACHREE.—Coral and golden rose, beautifully blended.

MOTTE'S CREAM PINK.—Splendid variety; long stems of four-spray blossoms.

MOTTE'S PLUM.—Plum color, with a fine sheen; vigorous grower.

RAWHITI.—A brilliant vermilion red.

SHIRLEY TEMPLE.—A bright waxy rose pink, well waved.

STRADBROKE.—A very pleasing shade of lavender, producing plenty of fours.

ZYRIS CREAM PINK.—Beautiful cream pink; long stems; plenty of fours.

ZYRIS PICOTEE.—White ground, with red edge; a real exhibition variety.

ZYRIS CERISE.—A good doer; plenty of fours.

"INVINCIBLE" MIXTURE.—This is the finest general mixture ever offered. It includes all the elegant flowered named varieties mentioned in this Catalogue, and also many of our Seedlings which are not yet in commerce. 60 seeds, 1/- 200 seeds, 2/6.

CHOICE MIXED SEED, including only named varieties. 3d. and 6d. per pkt.

Vegetable Seed

FOR PRICES PER POUND ASK FOR OUR SPECIAL LIST.

BROAD BEANS.—Sow at intervals during Autumn and Winter.

Early Long Pod.—6d. pkt.

Broad Windsor.—Large, broad pods; very prolific. 6d. pkt.

Cole's Dwarf Prolific.—Height, 18 in. 6d. pkt.

Sutton's Prolific Longpod.—An excellent Bean. 9d. pkt.

BEANS.—Dwarf, French or Kidney.

Acme.—The new "Acme" is acclaimed to be a real winner and the leading commercial Seed Bean of the future. It bears two weeks earlier; has a bigger yield, and is more disease resistant. The beans are ten inches long, tender, fleshy, and of good flavor. 6d. and 1/- pkt.

Canadian Wonder.—The best for general use. 6d. pkt.

Champion.—A very long slender podded variety, rather inclined to curl. A heavy cropper, and for home use, as well as for market, has considerable merit. 6d. pkt.

Emperor William.—Long podded, very prolific. 6d. pkt.

Startler (Wax Pod Butterbean).—Very prolific. 6d. pkt.

Sutton's Selected Canadian Wonder.—9d. pkt

RUNNER BEANS.

Epicure (Ever-bearing Stringless).—Stands hot climates well, perhaps better than any other Runner Beans. The pods are fleshy and stringless, grow in clusters, a heavy cropper. 6d. pkt.

Kentucky Wonder.—A marvel of productiveness: thick stringless pods. 6d. pkt.

LIMA BEANS.

Bush.—Very large Beans. 6d. pkt. The seeds, both green and ripe, are highly esteemed.

Runner.—Tall growing variety. 6d. pkt.

TONGAN BEAN.—Produces immense quantities of large flat Beans, which make good eating. 6d. pkt.

BEETROOT.—Sow in succession in rows, nine in. apart; thin out to 4 or 5 in. between the plants.

Crimson Globe.—Turnip-rooted. 3d. pkt.

Dell's Crimson.—A fine long Crimson Beet. 3d. pkt.

Detroit.—Dark red, good quality. 3d. pkt.

Early Improved Egyptian.—Turnip-rooted, dark red, flat, smooth; extra quality. 3d.

Obelisk.—The color and flavor of the roots are excellent. 3d. pkt.

Sutton's Turnip-rooted.—On light soils for an early crop, this beet will be found of the greatest value. The roots are round in shape and of first-rate quality. 6d. pkt.

Sutton's Silver Beet.—An improved form of Sea Kale Beet. 6d. pkt.

Giant Lucullus.—Very fine, curled, 3d. pkt.

BORECOLE OR KALE.

Thousand-headed Kale.—3d. pkt.

Sutton's Extra Curled Scotch.—An extremely handsome Kale. 6d. pkt.

Chou Moellier (Marrow Stem).—When cut young make a very palatable vegetable. 3d. pkt.

BROCCOLI.

Veitch's Self-Protecting.—A distinct sort, with leaves which shade the white head. 3d. pkt.

BRUSSELS SPROUTS.—Sow in autumn. Plant 2 ft. apart. Cultivate as for Cabbages.

Scrymgour's Giant.—3d. pkt.

Sutton's Exhibition.—Produces a very early crop of large, solid sprouts, delicious. 6d. pkt.

CABBAGE.—Sow from January in succession until July in beds. Transplant when large enough to good, well-worked soil, well manured

Early Drumhead Special (Garden Variety).—A useful sort of general crop, large, solid heads. An improved stock. 3d. pkt.

Enfield Market.—Fine, large and early. 3d. pkt.

Extra Early Express.—The earliest of all; may be planted very close. 3d. pkt.

Henderson's Succession.—Fine cabbage; one of the best for general use. Stands heat well, and hearts in regularly. 3d. pkt.

John's Favorite.—This is an excellent large drumhead variety, splendid flavor, also one of the best for market purposes, grows 12 to 16 lb. in weight. 3d. pkt.

Pe-Tsai (Chinese Cabbage).—3d. pkt.

Surehead.—Large firm heads. 3d. pkt.

Sugarloaf.—A good old variety, very early. 3d. pkt.

Spring Gem.—See Novelty Pages.

St. John's Day (Early).—Small Dwarf Flat Drumhead Cabbage; head very hard. 3d. pkt.

Sutton's Earliest.—Hearts large, tender, and of excellent flavor. 6d. pkt.

Sutton's Red Pickling.—Good color; first-rate for cooking or pickling. 6d. pkt.

SAVOY CABBAGE.

Sutton's Dwarf Green Curled.—Good solid heads and finely curled leaves; extremely hardy, yet of delicious flavor. A favorite Savoy for main crop. 6d. pkt. Local—3d. pkt.

CAPSICUM.

Long Red.—Most extensively grown. 3d. pkt.

Large Bell or Bullock's Heart.—Large, early, and mild. 3d. pkt.

Sutton's Mixed.—6d. pkt.

CAPE GOOSEBERRY.—3d. per packet. Sow in August and plant out in September and October, 3 ft. apart. Useful for jams and jellies.

CARROT.—Sow in rows 9 in. apart; thin plants out to 4 in. apart.

Altringham.—Fine, long, scarlet, large, good flavor; very productive. 3d. pkt.

Early French Forcing.—This is a delicious little table Carrot, tender and sweet-flavored, and very early. It is almost globe shaped, and is recommended for the home garden. 3d. pkt.

Early Scarlet Nantes.—Early half-long, fine scarlet color, large, stump-rooted.

James' Intermediate.—Not so long as Altringham, but thicker at the top; red; good variety. 3d. pkt.

Champion Scarlet Horn.—Distinct; a variety of prime quality and color; longer than the old Horn type by about 2 in.; coreless; fine. 3d. pkt.

St. Valery or Long Red Intermediate.—A large pointed variety of the finest quality. Splendid for main crop. 3d. pkt.

Manchester Table.—Red; a nice well-shaped root, good color and quality. 3d. pkt.

Guerande or Ox-Heart.—A short stump-rooted Carrot producing fairly large roots. 3d. pkt.

Sutton's Early Short Horn.—A popular and very useful Carrot for the early border and general crop. Roots tender and delicate in flavor. 6d. pkt.

Sutton's Favorite.—A stump-rooted form of Sutton's Scarlet Intermediate. Strongly recommended for general use. Excellent in flavor and quality. 6d. pkt.

Sutton's New Red Intermediate.—Skin is clear and bright in color, and the flesh close in texture. Very small core. 6d. pkt.

Sutton's Long Red.—A superior long Carrot. 6d. pkt.

CAULIFLOWER.

Veitch's Autumn Giant.—Large white, beautifully compact heads. 3d. pkt.

Early Green Leaf.—Fine early blight-proof, bright green, shiny leaves. Favorite type for market, where it realises high prices, particularly when blight is prevalent on the other kinds. 6d. packet.

Eclipse Early.—Early type; splendid heads of unsurpassed quality. 3d. pkt.

Early London.—Very early, dwarf, large compact heads. 3d. pkt.

Sutton's Autumn Mammoth.—Heads large, close and excellent. 6d. pkt.

CELERY.—Sow in succession from November to February in boxes, prick out the small plants a few inches apart; when strong enough, plant into trenches. Must be well watered while growing, with rich cultivation.

White Plume.—Self-branching; a crisp, solid, and fine-flavored variety. 3d. pkt.

Sutton's Ivory White.—Very sweet. 6d. pkt.

Celeriac, or Turnip-rooted Celery.—3d. pkt.

Soup Celery (Seeds).—Used for flavoring soups, etc.; it is also an excellent remedy for rheumatism. 6d. per ounce.

CHOKO.—Any good soil in a warm situation will do, for the Choko vine is a vigorous climber. 9d. each.

CRESS.—Sow thickly in drills or beds, for succession, every 10 days. 3d. pkt.

Finest Curled.—3d. pkt.

CUCUMBER.—Sow in succession from August until January; plenty of water and heavy mulching; pinch back runners when 2 or 3 ft. in length.

Crystal Apple.—A remarkably fine new strain, similar in shape to the ordinary Apple Shaped, but the skin is a pure white when mature. 3d. pkt.

Paris Cluster.—Very quick fruiter, excellent flavor. Ideal for table. 3d. pkt.

Apple Shaped.—Small round variety, very prolific and fine flavored. 3d. pkt.

Short Prickly.—3d. pkt.

Long Prickly.—3d. pkt.

Long Green.—Smooth. 3d. pkt.

Early White Spine.—An excellent cucumber for market and an abundant yielder. The flesh is crisp and of fine flavor. 3d. pkt.

Sutton's prolific.—Very hardy; unsurpassed in flavor. 3d. pkt.

EGG PLANT.—Sow in August and September.

Giant Purple.—3d. pkt.

WEST INDIA GHERKIN.—Small for pickling. 3d. pkt.

GHERKIN (Russian).—For pickles. 3d. pkt.

KOHL RABI.—Purple, large Goliath. 3d. pkt.

LEEK.—Sow in autumn and spring in prepared beds of rich soil.

Musselburgh.—Good and hardy. 3d. pkt.

LETTUCE.—Sow in succession throughout the year in beds.

Continuity.—Brownish, of excellent quality. When cut open the color is rich, creamy, white. Stands hot and dry weather. 3d. pkt.

Excelsior.—See Novelty Page.

Iceberg.—A quick grower, with hard, handsome heads. 3d. pkt.

New York.—Grows large size; solid, tender, and crisp. The best Drumhead Lettuce. 3d. pkt.

Neapolitan.—Large size; very distinct, dark green curled leaves; keeps the head well. 3d. pkt.

Drumhead or Malta.—One of the best for general use, large crisp, and compact. 3d. pkt.

Sutton's A1.—Comes in quickly and does not readily run to seed; sweet and tender. 6d. pkt.

Sutton's All-the-Year-Round.—Stands a long time without running to seed. 6d. pkt.

COS LETTUCE.

Sutton's All Heart.—Large hearts, self-folding, very crisp and sweet. 6d. pkt.

MUSTARD.—Sow thickly in beds or rows.

Finest White.—3d. pkt.

MELON (Water).—Sandy loam is the most reliable, but in fair seasons they do well in any good garden soil. Sow five or six seeds in prepared hills 5 or 6 ft. apart each way, eventually leaving two of the best plants in each hill.

Black Spanish.—Flesh scarlet, seeds black; sweet and delicious. 3d. pkt.

Cannonball.—Round, nearly white, flesh crimson. 3d. pkt.

Cole's Early.—The earliest, beautiful bright red, crisp and luscious. 3d. pkt.

Cuban Queen.—Luscious, crisp, and sugary; bright red. 3d. pkt.

Halbert Honey.—Oblong, 18 inches long, dark glossy green, beautiful crimson luscious flesh. 3d. pkt.

Ice Cream.—Dark green with a thin rind; sweet and delicious flavor. 3d. pkt.

Kleckley's Sweet.—Oblong shape, dark green skin; flesh brightest red. 3d. pkt.

Rattlesnake (Gypsy).—Oblong, light green, beautifully striped, deep scarlet, solid, and deliciously sweet. 3d. pkt.

"Sugar Stick."—Handsome, 20 to 25 inches long by 10 to 14 inches in diameter. Light green mottled skin, bright red flesh, solid; very fine flavor. 3d. pkt.

Mixed Varieties.—3d. pkt.

SWEET MELON OR ROCK MELON.

Early Hackensack.—Green skin, thickly netted, green flesh; delicate flavor. 3d. pkt.

Rocky Ford.—One of the very best; prolific; very early, green flesh; delicious flavor. 3d. pkt.

Emerald Gem.—Very early and prolific, small, deep emerald green skin, thick flesh, suffused, salmon flesh, rich delicious flavor. 3d. pkt.

Banana.—Gets its name from its aroma and shape. 3d. pkt.

Honey Dew.—Fruit medium sized, about 6 in. in diameter; slightly oblong; skin smooth, with an occasional net; color, creamy yellow, light emerald green flesh, thick, delicious. 3d. pkt.

PIE MELON (Preserving).

Green Seeded.—Usual variety fruit oblong, light green. 3d. pkt.

Citron, Red-Seeded.—Fruit round and dark green, marbled lighter. 3d. pkt.

MUSHROOM SPAWN ("Mas" Brand).—This new brand is a great improvement on the old kinds, being far more prolific and reliable. Up to 30 lbs. of Mushrooms can be grown from a 3/6 packet of "Mas" Brand Mushroom Spawn. 3/6 packet. See Novelty Pages.

ONION.—Sow in March, April, May, and June.

Brown Spanish.—Long-keeping, special stock. an early and exceedingly productive variety. The best Onion for general purposes. 3d. pkt.

Odourless Onion.—A variety distinctive for its mildness of flavor and freedom from "taint." The variety is medium in season and produces large bulbs of very excellent flavor. A variety which can be eaten raw without hesitation is sure of a welcome. 6d. pkt.

Silver Skin (Pickling).—One of the earliest; best for pickling. 3d. pkt.

White Globe.—Globe shaped, about 3 in. in diameter, very fine neck, keeps well, pure white. 3d. pkt.

White Spanish.—Medium size; very mild. 3d. pkt.

Early White Queen.—Very early, pure white, excellent flavor. 3d. pkt.

Brown Globe Improved.—An improved and selected type. 3d. pkt.

Sutton's Long-keeping.—Unsurpassed by any other Onion for its long-keeping quality. 6d. pkt.

Sutton's White Spanish.—An old-established favorite; grows to a good size and keeps extremely well. 6d. pkt.

Sutton's Brown Spanish.—6d. pkt.

PARSLEY.—Sow in Autumn in fine soil, in rows 1 ft. apart.

Extra Triple Curled.—3d. pkt.

PARSNIP.—Sow in Autumn or Spring.

Hollow Crown.—Select, long roots. 3d. pkt.

Turnip-rooted.—Distinct and excellent; recommended for shallow soils. 3d. pkt.

Sutton's Hollow Crown.—6d. pkt.

PEAS.—Sow every few weeks during Autumn, Winter, and Spring, in rows 2 ft. apart for dwarf early sorts, and 3 ft. to 4 ft. for late tall varieties.

FIRST EARLY VARIETIES—

Greenfeast.—Very early dwarf Pea; abundant cropper; height 15 in. 6d. pkt.

Richard Seddon.—An early dwarf Pea, with well-filled pods; of fine color and flavor; very prolific. 6d. pkt.

William Hurst.—An early variety; abundant bearer; height, 1 ft. 6d. pkt.

Sutton's Earliest Marrowfat.—Excellent Marrowfat Pea. Handsome pods and delicious Peas. Height, 3 to 4 ft. 9d. pkt.

MAIN CROP VARIETIES—

Yorkshire Hero.—Good flavor and abundant bearer; the most popular variety, 2½ ft. high. 6d. pkt.

Duke of Albany.—Fine and abundant bearer—each pod contains about 9 peas; 4 to 5 ft. 6d. pkt.

Sutton's Productive Marrowfat.—One of the finest wrinkled Peas in the second-early class. Height, 5 to 6 ft. 9d. pkt.

SKINLESS, SUGAR PEAS, TALL & DWARF.

Giant Sugar.—Very large pods, fleshy and tender. 6d. pkt.

PUMPKIN.—Culture as for Melons, but holes 3 ft. or 4 ft. further apart.

Iron Bark.—Well-known variety; medium. 3d. pkt.

Turk's Cap.—A handsome early variety; ornamental and useful. 3d. pkt.

Triamble.—Distinct shape, three-cornered, with few seeds; dry; best quality; keeps well. 3d. pkt.

Crown.—Fine quality; dry; keeps well. 3d. pkt.

RADISH.—Sow frequently in small beds or drills, then thin out to 2 in. apart.

Chinese.—Long solid white. 3d. pkt.

French Breakfast.—Oval, scarlet, tipped with white; excellent flavor. 3d. pkt.

Long Scarlet.—Well-known popular variety. 3d. pkt.

Mixed Turnip.—Red and white; very early. 3d. pkt.

White Icicle.—Very early, long pure white, mild and tender; excellent. 3d. pkt.

Sutton's Mixed.—A mixture of really good Turnip-shaped varieties. 6d. pkt.

Sutton's French Breakfast.—Flesh white. 6d. pkt.

Sutton's Long Scarlet.—Carefully selected strain, tender and sweet. 6d. pkt.

Sutton's Long White.—Roots of excellent shape and quality. 6d. pkt.

RAPE.

Broad-leaved Essex.—Leaves used as Spinach. Sow in drills, 1 ft. apart. 3d. pkt.

RHUBARB.—Sow in Spring. Plant out in rows a few inches apart; afterwards plant 3 to 4 ft. apart in permanent bed.

Topp's Winter.—Very prolific, fine flavor, long stalks. In perfection during Winter, when other varieties are at rest. 3d. pkt.

SPINACH.—Sow in succession during Autumn and Winter in drills 18 in. apart, thin out to 9 in. rows.

Prickly or Winter.—3d. pkt.

New Zealand Spinach.—A valuable Summer vegetable. Sow in September and October. 3d. pkt.

Round or Summer.—Thick, round leaves. 3d. pkt.

SWEET CORN.—Sow in Spring.

Golden Bantam.—Very productive and luscious; a great favorite. 6d. pkt.

Country Gentleman.—The finest for the private table. The quality is delicious; sweetest and most tender. 6d. pkt.

SQUASH.

Hubbard.—Large, olive shape, dark green skin, very rich, dry flesh of fine grain and good flavor; an excellent keeper. 3d. pkt.

Early White Scalloped Bush.—A splendid early maturing Bush Squash, often sold under the name of Custard Marrow. The fruit is flat, scalloped-shaped with a skin of a light creamy white and of a very delicious flavor. 3d. pkt.

TROMBONE.—Sow in August, September, and October, in the same manner as Melons.

Large Green.—Flesh orange, excellent flavor; keeps well. 3d. pkt.

TOMATO.—For early plants, sow in May.

Australian Large Red.—Heavy cropper, fine large fruits of excellent flavor. 3d. pkt.

Burwood Prize.—Vigorous and hardy, second early; smooth and solid, potato leaved. 3d. pkt.

Chalk's Early Jewel.—A popular smooth-skinned second-early variety, producing large, solid, handsome fruit of the brightest scarlet. The flesh is thick and of fine flavor. A very heavy yielder. 3d. pkt.

Earliana.—Very productive, early and large, smooth red fruits; very few seeds. 3d. pkt.

Excelsior Prize Tomato.—This is one of the most vigorous and hardiest varieties, and will give an enormous crop of smooth oval fruit. They are very solid and splendid carriers. The fruit is of a good size, juicy, and well flavored. One of the best market types. 3d. pkt.

Kondine Red.—A tremendous cropper, producing fine, medium-sized, rich scarlet, smooth-skinned fruit of excellent flavor. 3d. pkt.

Marglobe.—A very productive variety. Second early in season. Plants medium large and erect, shading the fruit well. Fruit large, red, smooth, and globular. Excellent both for early and late crops. 3d. pkt.

"Morning Glory."—This (New) Tomato will no doubt become a great favorite. The plants are practically disease proof, strong, tall growing, and bear large crops of medium sized fruit, which are perfectly round and smooth. The fruits, which are deep scarlet in color, set very freely and are of excellent flavor. 6d. pkt.

Ponderosa.—One of the largest Tomatoes; handsome, smooth, and very solid. 3d. pkt.

South Australian Earliest Dwarf Red.—The best and largest fruited of all the Dwarf varieties. 3d. pkt.

TURNIP.

Early Stone.—One of the best for general use; white flesh, and of good flavor. 3d. pkt.

Snowball.—Quick grower, fine flavor; one of the best; early. 3d. pkt.

Early Purple-top Munich.—Very early, handsome snow-white flesh, delicious flavor. 3d. pkt.

Sutton's Early Snowball.—The earliest and most perfectly formed round white Turnip. Flesh snowy white, solid, and mild in flavor. 6d. pkt.

Sutton's Improved Orange Jelly.—Superior to the ordinary stock; rich color. 6d. pkt.

Sutton's White Stone.—Comes into use in a short time. 6d. pkt.

Sutton's Early White Milan.—One of the earliest Turnips in cultivation; roots flat, of medium size, quite smooth. 6d. pkt.

SWEDE TURNIPS.

Sutton's Garden Swede.—Short top, root clean and well-shaped. An excellent variety in every way. 3d. and 6d. pkt.

Swede (Laing's Garden).—Good quality; small Swedes for cooking. 3d. pkt.

Skirving's Improved Purple Top.—3d. pkt.

VEGETABLE MARROW

Bush Green.—Excellent quality, prolific, and early does not require much space, as they do not trail. 3d. pkt.

Bush White.—Very distinct, skin smooth, dark green marbled yellow. 3d. pkt.

Long White Runner.—An abundant and certain bearer. 3d. pkt.

Long Green.—Trailing growth. 3d. pkt.

Ornamental Grasses

AGROSTIS nebulosa (cloud grass).—One of the highest, most graceful; beautiful for bouquets. 1½ ft. 6d. pkt.

HORDEUM jubatum (Squirrel Tail Grass).—A hardy annual of a purplish color. Fine for bouquets. 1½ ft. 6d. pkt.

TRICHOLAENA rosea.—Very pretty (summer); fluffy coppery heads; the loveliest of all the ornamental grasses for cutting. 6d. pkt.

ZEA, japonica variegata (Maize).—Leaves superbly striped with broad bands of crimson, yellow, rose, white, and bronze, 5 ft. 3d. and 6d. pkt.

Aquatic and Marsh Plants

For Aquariums, Ponds, Muddy Places, Creeks, etc., more especially where fish are kept. Some of these Plants should be used as they have a cool appearance, pleasing to the eye, and also act as a preservation of the health of the fish.

ACORUS (Calamus), 2 ft. 2/6

ALISMA (Water Plantain)—plantago, white, 1 ft. 2/-

APONOGETON (distachyon)—White, beautifully scented 1/6

AZOLLA (Rubra)—A floating aquatic . . . 1/6

BUTOMUS (umbellatus).—Pink, 1 ft. . . 2/6

JUNCUS (Zebrina) 1/6

LIMNOCHARIS (Humboldtii) (Water Poppy), Price 2/-

An interesting and pretty aquatic which in summer covers the surface of the water with broad heart-shaped leaves of a beautiful glistening green, and soft yellow flowers which continue for several months.

NELUMBIUM (Lotus) *speciosum roseum*.—Pink 5/-

Magnificent aquatics with large leaves 1½ to 2 ft. across, standing up above the surface of the water and beautiful large flowers, 8 to 10 inches across, delightfully fragrant and quite hardy.

NYMPHAEA (Waterlily)—

alba (British Waterlily)—White 3/6

albo plenissima—White 5/-

Caroliniana—White, faintly tinged rose . . 5/-

Collossea—Delicate flesh pink, large flowers 5/-

Flava—Yellow 3/6

Fulva—Orange red, tinted golden 5/-

Gladstoniana.—A very handsome variety with enormous snow-white flowers, measuring 6 to 8 inches in diameter 5/-

Gloriosa.—A superb variety with large glowing red flowers, measuring 7 inches across, deliciously scented 5/-

Gracilis.—White with yellow stamens, star-shaped flowers standing well above the water 5/-

Gracilis.—Blue, starry-shaped flowers, stand well out of water 5/-

James Brydon.—Large rosy crimson flowers, very double and quite distinct 5/-

Laydekeri (lilacea).—Flowers of medium size, opening a soft blush pink, passing off to bright rosy crimson 3/6

Lucida.—Large vermilion red flower, marbled dark red 5/-

Marliacea (albida).—Very large flowers of beautiful ivory white, delightfully fragrant . . 3/6

Marliacea (Chromatella).—Beautiful soft primrose suffused rose 3/6

Marliacea Rosea.—Very large flowers, opening a soft rose pink, changing to blush, delicately scented 3/6

Moorei.—A very fine variety, with deep primrose yellow flowers 5/-

Robinsonii.—Large flowers of a rich claret color, very strongly scented 5/-

Stellata.—A very pretty variety with blue flowers, very strongly scented 5/-

PAPYRUS (Antiquorum)—Egyptian paper grass, Price 3/6

Hardy and Ornamental Trees, Shrubs and Plants

FOR THE OPEN GARDEN.

Abbreviations used:—

- E.T. signifies Evergreen Tree.
D.T. signifies Deciduous Tree.
D.S. signifies Deciduous Shrub.
E.S. signifies Evergreen Shrub.

Those marked * signify those varieties which grow best in cool districts.

The height of Shrubs and Trees given is approximate when fully developed in favorable soils and situations, and varies.

Most Shrubs, however, may be kept to any required size by judicious pruning.

ABELIA.—Dwarf, free flowering shrubs, suitable for front of shrubberies.

E.S. Hendersonii—White, flushed pale pink; 3 ft. 1 0

ABUTILON (Chinese Lantern)—Desirable flowering shrubs.

E.S. Anna Crozy—Deep pink, shaded lilac, veined white; 5 ft. 1 6

E.S. Duc de Malakoff—Orange striped; 8 ft. 1 6

E.S. Golden Bells—Rich golden yellow; 4 ft. 1 6

E.S. Sou de Bon—Green foliage, margined white; 5 ft. 1 6

E.S. Sou de Prince Albert—Beautiful golden, variegated foliage; 5 ft. 1 6

E.S. Sydney Belle—Large bright golden yellow; 6 ft. 1 6

E.S. Thompsonianum—Fl. pl. leaves beautifully variegated; 5 ft. 1 6

E.S. Violet Queen—Bright violet 1 6

ACACIA (Wattle).

E.S. Baileyana (Cootamundra Wattle)—A beautiful variety, with glaucous foliage; flowers pale yellow, produced in great profusion. One of the earliest varieties 1 6

E.T. dealbata (Silver Wattle)—20 ft. 1 6

E.T. decurrens (Black Wattle)—20 ft. 1 6

E.T. discolor (Sunshine Wattle)—15 ft. 1 6

E.T. elata (Cedar Wattle)—20 ft. 1 6

E.T. floribunda—A very fine variety, resembling Longiflora; 15 ft. 1 6

E.S. linifolia—Canary yellow, 8 ft. 1 6

E.T. longifolia—Yellow; 15 ft. 1 6

E.T. normalis (Queen Wattle)—Very attractive; 20 ft. 1 6

E.S. podalyriaefolia (Queensland Wattle)—Very fine; 12 ft. 2 0

E.S. prominens (Golden Rain)—10 ft. 1 6

E.T. pycnantha (Common Golden Wattle)—20 ft. 1 6

E.T. saligna (Willow Wattle)—Golden yellow; 15 ft., spring flowering 1 6

*ACER (Maple).

D.T. campestre—English Maple; 30 ft. 3 6

D.T. negundo—The green-leaved Maple 2 6

D.T. negundo aurea variegata—Green and golden variegated foliage. An ideal small tree for a lawn specimen, from 3 6

D.T. negundo folii variegata—Green, white, and yellow; very handsome. One of the most effective and beautiful of all variegated trees. This variety does well on the plains, and holds its color well; 20 ft. to 30 ft., from 3 6

D.T. platanoides—Norway Maple 3 6

D.T. platanoides Schwedlerii From 5 0

D.T. pseudo-platanus (Sycamore) 3 6

D.T. pseudo-platanus Leopoldi—Beautiful foliage variety 5 0

D.T. pseudo-platanus purpurea—A variety of the Sycamore with the purplish red foliage 3 6

D.S. polymorphum varieties—These are the beautiful Japanese varieties, grown for their highly colored and beautiful foliage 5 0

D.T. rubrum (Scarlet Maple)—Foliage turns dark red in Autumn 3 6

*AESCULUS.

D.T. hippocastanum (Horse Chestnut)—White; 40 ft. from 2 6

D.T. rubicunda—Scarlet flowers in very fine racemes. A distinct and beautiful tree; 20 ft. from 5 0

AGATHAEA (Blue Marguerite)—Very free flowering, neat little shrub, bearing bright blue flowers with yellow disc.

E.S. coelestis—Blue; 3 ft. 1 6

AGERATUM—Very free flowering bushy shrub. Always in bloom.

S.E. mexicanum—Blue; 2 ft. 1 6

AILANTHUS.

D.T. glandulosa (Tree of Heaven)—20 ft. 2 0

*ALNUS (The Alder).

D.T. glutinosus—An ornamental deciduous tree for cool districts; 50 ft. 2 6

ALOYSIA.

D.T. citriodora (Lemon-scented Verbena)—Very hardy shrub, with sweetly-scented foliage, 6 ft. 2 0

ALYXIA.

E.S. daphnoides—A pretty little 3 ft. shrub, with glossy leaves, white flowers, followed by orange berries 2 6

***AMELANCHIER.**

D.S. Canadensis.—A beautiful shrub, covered with masses of small white flowers in Spring before the leaves burst; 12 ft. from 3 6

AMYGDALUS (Double-flowering Peach).

—The flowers of the different varieties are exceedingly beautiful and rank amongst the handsomest flowering deciduous trees.

D.S. Persica—Double crimson; 12 ft. . . 2 0
D.S. Persica—Double pink; 12 ft. . . . 2 0
D.S. Persica—Double white; 12 ft. . . . 2 0
D.S. Persica—Double bright crimson; 12 ft. 2 0
D.S. Persica versicolor—Double pink and white, on same tree; 12 ft. . . . 2 0
D.S. Pollardi.—Single pink flowers, like almond bloom; very handsome; 12 ft. 2 0
D.S. Early Winter Red.—Very early flowering varieties, double 2 0
D.S. Early Winter Pink.—Very early flowering varieties, double 2 0

***ANDROMEDA.**

E.S. Catesbaei—Handsome autumn foliage, white flowers; 5 ft. 3 6
E.S. Japonica.—A charming shrub, producing panicles of snow-white Lily of-the-Valley-like flowers; 6 ft. . . . 3 6

ARBUTUS.

E.T. unedo (Irish Strawberry).—A very handsome evergreen tree, with Lily-of-the-Valley-like flowers and ornamental red fruit. Suitable for hot or cool districts; 20 ft. 2 6

ARDUINA.

E.S. bispinosa grandiflora (Cape Plum).—One of the best hardy shrubs; glossy green foliage; well-shaped bush, and sweet-scented Jasmine-like flowers; 8 ft. 2 0

ARGYRANTHEMUM (Marguerite or Paris Daisy).—See Marguerite.

ARUNDO (Variegated Bamboo).

Donax aurea variegata.—Very handsome broad variegated foliage in Summer; 6 ft. 2 0
Donax variegata.—Silver variegated foliage in winter; 8 ft. 2 0

ATRIPLEX (Salt Bush).

E.S. nummularia—Makes a handsome silvery-leaved shrub; 8 ft. 1 6

***AUCUBA.**

E.S. Japonica variegata—Suitable only for cool district; 4 ft. 2 6
 And many other varieties from 2/6.

***AZALEA.**

Indica—We have a choice collection of both Double and Single-flowered varieties of these desirable plants in their many and varied colors . . 2 6

BAY TREE (See Laurus Nobilis).

***BAECKIA.**

E.S. plicata—Red and white. Pretty Heath-like plant 2 6

BAMBUSA.

Argentia variegata 2 6
aurea—The Golden Bamboo. Very handsome 3 6
Fortunei aurea—A dwarf variety; the foliage at certain times of the year is bright golden yellow; 1 ft. . . . 2 6
Fortunei nivea vittata—Leaves striped white and green. Very pretty; 1 ft. 2 6
nigra (The Black Bamboo) 3 6

***BANKSIA.**

E.S. grandis—Yellow; 20 ft. 2 6

***Menziesia.**—Introduced from Western Australia, this grows into a large shrub, about 20 ft. high, with long, serrated leaves, green on the upper surface, silvery grey underneath, with large reddish colored flowers, cone-shaped, six to nine inches in length 2 6

Occidentalis.—A very rare shrub which is secured from Western Australia, growing about 6 ft. high, with long, narrow, undulated leaves, and producing large bright, mauve-colored flowers; a handsome plant when in bloom; very scarce 2 6

prionotes.—A distinct variety of great beauty, with very large golden yellow flowers, lasting a long time when cut; foliage somewhat pubescent, silvery grey on the under surface; bright green on the upper surface; growing from 15 to 20 ft. high; very attractive 2 6

BARLERIA.

E.S. cristata.—Light mauve; 2 ft. . . . 2 0

BAUHINIA.

E.S. alba—White 2 6
E.S. Purpurea—12 ft. 2 6
E.S. Galpinni—Red, 6 ft. 2 6

BENTHAMIA.

E.S. fragifera—White; 12 ft. 2 6
 A fine, quick-growing shrub, very ornamental when covered with its beautiful scarlet fruit.

BERBERIS (The Barberry).

E.S. Bealii—Very handsome, large-leaved variety 3 6
E.S. Darwinii—One of the best; covered in Spring with deep orange flowers. From 2 0

- E.S. *illicifolia*. — Handsome holly-like foliage, yellow flowers, 4 ft. . . . 2 0
- E.S. *Japonica* 2 0
- D.S. *Regale*.—Ornamental foliage, with bright coral-red berries. 6 ft. . . . 2 0
- E.S. *subcauliata* — Graceful arching branches, with pink berries in Autumn 2 0
- D.S. *Thunbergii*—Yellow flowers, Spring; foliage and berries are crimson in Autumn 2 0
- D.S. *Thunbergii atro-purpurea*.—An attractive new variety. Foliage in spring, rich bronze red, and color retained until late autumn, when it takes on the brilliant tints like the ordinary *Berberis*; 4 ft., from . . . 2 6
- D.S. *vulgaris purpurea* — A conspicuous variety, with deep purple foliage, turning crimson in Autumn. We recommend this as one of the most distinct foliage shrubs we have . . 2 0
- E.S. *Wilsonae*—Pale yellow blooms; graceful drooping branches with bright coral berries 2 0
- E.S. *Wilsonae* "Sparkler." — Prostrate compact habit. Bright berries . . 2 0

BEAUFORTIA.

- *E.S. *sparsa*.—Orange red; 4 ft., from . . . 2 6

*BETULA.

- D.T. *alba* (The Silver Birch)—An ornamental and graceful hardy deciduous tree, of 30 ft. Small Poplar-like foliage, which turns golden yellow in Autumn. From 2 6
- D.T. *alba folia atro-purpurea* (The Purple-leaved Birch).—A magnificent tree; habit similar to the Silver Birch, but with purple foliage, 20 ft. . . . from 5 0

*BORONIA.

- E.S. *elator*.—Rose color, slightly scented; 2 ft. 2 6
- E.S. *megastigma*.—A beautiful little shrub, coppery flowers, with a most powerful scent. A great favorite; 2 ft. . . 2 6

BOUGAINVILLEA.

- E.S. *glabra Cypheri*.—Magenta, very large flowers 2 0
- E.S. *glabra Sanderiana*.—Magenta, very hardy 2 0
- These varieties of the *Bougainvillea* make magnificent shrubs if planted against a 6-ft. or 8-ft. stake, and the long shoots trimmed in.

BRACHYCHITON.

- E.T. *acerifolia* (Flame Tree—Scarlet); one of the most effective trees when in flower; 30 ft. 1 6
- E.T. *populneum* (Kurrajong)—10 ft. A splendid tree for planting in hot, dry climates 1 6

BROWALLA.

- E.S. *Jamesoni*.—A handsome shrub, producing an abundance of orange flowers in drooping panicles; 6 ft. 1 6

BRUGMANSIA (Trumpet Flower).

- E.S. *Knighti*.—A handsome shrub, producing numerous large, trumpet-shaped, pendulous white flowers, strongly scented; 8 ft. 2 6
- E.S. *sanguinea*.—Red and orange; 6 ft. . . 2 6

BRAZILIAN GLORY PEA—(See *Sesbania*).

BUDDLEIA.

- E.S. *alternifolia*.—A fine vigorous shrub, of distinct, bushy habit, growing about 6 ft. high, and producing its delicate, sweet-scented, rosy-mauve flowers in Spring, clustered on the upper side of the branches, and not in panicles at the end of the branches 1 6
- E.S. *globosa*.—Globular orange-colored flowers; 8 ft. 2 6
- E.S. *Madagascariensis* — Orange; very rapid grower, and hardy; 15 ft. . . 1 6
- E.S. *officinalis*.—A dwarf variety; panicles of pale blue flowers, with orange eye 1 6
- E.S. *salvifolia*.—A new variety that promises to become one of our most conspicuous Winter-flowering shrubs. Very rapid grower. Dense heads of pale lilac highly scented. Flowers freely during the dull Winter months; 5 to 6 ft. 1 6
- E.S. *variabilis rosea*.—Vigorous growth, bearing large trusses of deep mauve pink flowers 1 6
- E.S. *Veitchiana*.—A splendid, hardy shrub, bearing masses of velvet-colored flowers, sweetly scented. 8 ft. . . . 1 6

BUXUS (Box).

- E.S. *pyramidalis variegata* 2 0
- E.S. *sempervirens* (Box Tree)—8 ft. . . 2 0
- E.S. *sempervirens argentea variegata*.—8 ft., from 2 0
- E.S. *suffruticosa* (True Dutch Box) . . . 2 0

CALCEOLARIA (The Slipper Wort).—

Hardy, shrubby plants, with attractive flowers. Cut back after flowering.

- Yellow 2 0
- Bronze 2 0

CALLISTEMON (Native Bottle Brush).

- Coccineus*.—Dazzling scarlet 2 0
- lanceolatum*.—Crimson 2 0
- Blooms during the months of October, November and December.

CALODENDRON (Cape Chestnut)—One of the most attractive and useful evergreen flowering trees from 20 to 30 ft. high. Can be recommended where a distinct specimen is required. Throughout the year its luxuriant foliage is much admired. In Spring has large panicles of flowers.

capensis—White, with pink markings. Flowering in panicles from 2 6

CALYCANTHUS (Allspice).

D.S. Floridus—Brown, sweet-scented flowers; 8 ft. Hardy, deciduous shrub, flowering in the middle of Winter 2 6

D.S. praecox, (*Chimonanthus fragrans*), yellow and brown flowers, fragrant; 6 ft. 2 6

***CAMELLIA**—A large collection in all colors; from 2 6

CAMPHORA—(Camphor Laurel)

E.T. Officinalis—A handsome evergreen tree. Will do well in hot districts. Furnishes the camphor of commerce 2 0

CANTUA.

E.S. dependens—Rosy carmine; 4 ft. . . 2 0
Lovely flowering shrubs, Dependens being especially handsome, having drooping clusters of Begonia-like flowers.

CAROB TREE—(See Ceratonia).

CARYOPTERIS (Blue Spirea).—A Dwarf deciduous shrub of 2 to 3 ft., with silvery green foliage; covered throughout the Summer and Autumn with neat spikes of Spirea-like flowers. Prune hard back in Winter.

D.S. mastacanthus—Bright blue 1 6

***CARPINUS.**

D.T. cetalis (*Horn Bean*).—A very beautiful, hardy deciduous tree 2 6

CASSIA (Senna Bush).—Evergreen shrubs, 5 to 6 ft., with attractive branches of flowers that open in Winter. Cut back after flowering.

E.S. didymobotrya—A very handsome large-flowered variety. Yellow and black 2 0

E.S. floribunda—Yellow, very free 2 0

***CASTANEA.**

D.T. vesca—Spanish Chestnut; 30 ft. . . . 2 6

CASUARINA (Native Sheaoak).

E.S. glauca—Swamp oak; 30 ft. 1 6

CATALPA (Tree Begonia)—A hardy, deciduous tree of 15 to 20 ft., with large foliage and panicles of attractive flowers in summer.

D.T. speciosa—Creamy white, spotted lilac and yellow 2 6

CEANOTHUS—Hardy evergreen, quick-growing shrubs of 8 to 10 ft., with deep green box-like foliage and attractive spikes in summer. Amongst flowering shrubs they have few equals.

E.S. divaricatus—Bright Blue 2 0

E.S. Edwardsii.—Compact bushy growth, with small shiny foliage and bright blue flowers in Spring 2 0

E.S. Veitchiana—Dark blue, of dwarf habit 2 6

CEDRELA.

D.S. Australis (*Aus. Red Cedar*).—Quick growing tree, suitable for street planting; 30 ft., from 2 0

***CERASUS.**

E.S. laurocerasus (*Common Laurel*).—12 ft. 1 6

E.S. lustanica (*Portugal Laurel*).—White, 12 ft. 2 6

D.T. Double-flowering Cherry—Several varieties; 18 ft. The double flowering Cherries give a beautiful effect when flowering in early Spring . . 3 6

CERATOPETALUM.

E.S. gummiferum (*N.S.W. Xmas Bush*); 20 ft. 2 6

CERATOSTIGMA.

E.S. Griffithi.—Very pretty dwarf Shrub, with deep blue flowers throughout summer; 3 ft. 2 0

E.S. Wilmottiae.—A beautiful shrub, bearing clusters of sky-blue flowers. Very pretty; 3 or 4 ft. 2 0

CERATONIA.

E.T. siliqua (*Carob Tree, or St. John's Bean*), 30 ft., from 2 0

CERCIS—The Judas Tree, or Red Bud.

D.T. siliquastrum—Rosy purple; 8 ft. . . 2 6

CESTRUM—Hardy evergreen shrub.

E.S. aurantiacum—Deep orange, in large terminal bunches; 6 ft. 2 0

CHAMAELAUCIUM.

E.S. uncinatum (*Geraldton Wax Flower*)—A hardy, free-flowering shrub which can be had in various shades of pink, pearl, pale pink 2 6
Red 3 0

CHERRIES.

D.S. Double-flowering. See *Prunus Serulata*.

CHOISYA.

E.S. ternata—White; 4 ft. One of the hardiest, most lovely little shrubs, with deep, glossy green foliage and pure white flowers, similar to orange blossom, sweetly scented; always neat in appearance 2 0

CHORIZEMA (Flame Pea Bush)—Dwarf evergreen shrubs of 2 to 3 ft., with attractive pea-shaped flowers in early Spring.

E.S. cordata—Flowers orange and yellow; heart-shaped leaves 1 6

- E.S. *grandiflora*—Red and yellow 2 0
 E.S. *illicifolia*—Red and yellow, with holly-like foliage 2 0
- CISTUS.**
 E.S. *Formosa*—Yellow and black 1 6
 E.S. *ladaniferus*—A beautiful white flower, each marked near the base with a dark blood-colored spot; 4 ft. 1 6
 E.S. *Sunset*—Pink, 3 ft. 1 6
- CITHAREXYLUM.**
 E.S. *subserratum*—Quick-growing, with sweetly-scented white flower and handsome foliage; 10 ft. 2 0
- CITRUS.**
 E.S. *cumquat*—Small growing ornamental Orange. Suitable for growing in tubs 5 0
- CLERODENDRON (Glory Tree).**
 E.S. *ugandense*—Blue, 5 ft. 3 6
- *CLETHRA ((Lily of the Valley Tree)).**
 E.T. *arborea variegata*.—White; 8 ft. 5 0
 E.T. *arborea*—White; 8 ft. 2 6
- CLIANTHUS.**
 E.S. *puniceus* (New Zealand Glory Pea) Bright scarlet; a very showy, fast-growing shrub; 5 ft. 2 0
 E.S. *puniceus alba*, white; 5 ft. 2 0
- COLLUTEA.**
 D.S. *aborescens* (Bladder Senna).—Yellow flowers; 10 ft. 2 6
- COPROSMA.**
 E.S. *Baueriana picturata*—Green, blotched yellow 2 6
 E.S. *Baueriana variegata*—Margined White 2 6
 E.S. *lucida*—Shiny green foliage. (See Hedge Plants for quantities) 1 0
- CORDYLINE (Club Palm).**
 E.T. *Australis stricta*. 10 ft., from 1 6
- *CORNUS (Dogwood).**
 E.T. *capitata* (syn. *Benthamia fragifera*)—Large creamy-white flowers, followed by red fruits 2 6
 D.S. *sanguinea*—White, 8 ft. 2 6
- CORREA (Native Fuchsia).**
 E.S. *speciosa*—Scarlet; 2 ft. 2 0
 E.S. *splendens*—Crimson, tipped green; 4 ft. 2 0
- *CORYLUS.**
 D.S. *purpurea* (Purple-leaved Hazel)—10 ft. A very ornamental shrub for mixed borders; purple foliage. Forms a pleasing contrast to other foliage. 3 6
- COTONEASTER**—Dwarf evergreen shrubs, with boxlike foliage. Inconspicuous flowers, followed by red berries, which remain attractive through the winter.
 E.S. *Franchetii*.—A vigorous shrub, with wiry arching branches, covered with bright leaves, downy underneath, and orange-red berries; 6 ft. 2 0
- E.S. *horizontalis*—Small pinky white flowers, followed by scarlet berries 2 0
 E.S. *macrophylla*—Glossy green foliage, and large coral red berries 2 0
 E.S. *Pannosa*—White; 6 ft. 1 6
 E.S. *Serotina*.—Large silver grey foliage, white flowers, followed by sealing-wax red berries; 8 ft. 2 0
- CRATAEGUS (The Hawthorn)**—Hardy deciduous and evergreen shrubs, growing from 8 to 12 ft. In early Spring they are completely covered with their various colored flowers, which are succeeded by bright berries, which hold till winter.
 E.S. *Carrieri*—White, large ornamental fruits; 15 ft. 2 6
 E.S. *crenulata*—White flowers, followed by small scarlet berries, which completely cover the plant. Very effective. Makes a fine hedge 1 6
 D.T. *cordata*—White; beautiful autumn foliage; 20 ft. 2 6
 D.T. *Korolkow*—White, large yellow fruits; 10 ft. 2 6
 D.T. *Mexicana*—Large yellowish berries; 12 ft. 3 6
 E.S. *pyracantha Angustifolia*.—A striking variety, with long narrow leaves; covered in autumn with orange-scarlet berries. 6 to 8 ft. 2 0
 E.S. *pyracantha Yunnanensis*—Horizontal type of evergreen Hawthorn, covered with crimson berries in the autumn; 4 ft. 2 0
 E.S. *pyracantha Rogersiana flava*.—A bushy variety of evergreen Hawthorn, covered in autumn with golden yellow berries; 5 ft. 2 0
 E.S. *pyracantha*—Flowers white, followed by yellow berries 1 6
 E.S. *pyracantha Lelandi*—The most beautiful of all the evergreen Hawthorns. Bright orange scarlet berries. The plant berries are quite small, and require to be seen to be appreciated 2 0
 D.T. *odoratissima*—Sweet scented, white; 12 ft. 3 6
 D.T. *oxyacantha* (Whitehorn or May) 1 0
 D.T. *oxyacantha*—Double White; 12 ft. 2 6
 D.T. *oxyacantha*—Double pink; 12 ft. 2 6
 D.T. *oxyacantha*—Double crimson; 12 ft. 2 6
- CYDONIA (Pyrus)—Japanese Flowering Quince.**
 D.S. *Japonica carnea*—Flesh color; 6 ft. 2 0
 D.S. *Japonica Moerloosii*.—Rosy-white and carmine, 4 ft. 2 6
 D.S. *Japonica nivalis*—Pure white; 6 ft. 2 0
 D.S. *Maulii*—Copper red; 6 ft. 2 6
 D.S. *Winter Cheer*.—A very attractive variety. Bright orange-scarlet, 4 ft. Handsome deciduous shrubs, blooming freely in Spring. 2 6

CYTISUS.		
DT. Laburnum (Common Laburnum);		
15 ft.	2	0
D.T. Laburnum Adami.—Soft Lavender		
flowers; 12 ft. from	3	6
D.T. Laburnum Vossi.—Immense trusses		
of soft rich yellow flowers; the finest		
variety. 12 ft. from	3	6
DAPHNE.		
E.S. Indica rubra.—Red and white; beau-		
tiful shrub, bearing fragrant flowers;		
5 ft. From	2	0
E.S. Indica rubra marginata.—Leaves		
marginated with gold.	2	6
DEERINGA.		
E.S. Amhersti variegata — A beautiful		
shrub, with leaves variegated	2	0
DEUTZIA.		
D.S. crenata—Single white; 5 ft.	2	0
D.S. gracilis—Single small white flowers;		
2 ft.	2	0
D.S. gracilis rosea—Small rosy pink; 2 ft.	2	0
D.S. Pride of Rochester.—Double white;		
4 ft.	2	0
DIERVILLA.		
D.S. lutea—Yellow; 5 ft.	2	6
For others, see Weigelia.		
DIMORPHOTHECA.		
E.S. Ecklonis—White, blue centre; 3 ft.		
A beautiful little shrub, flowering		
freely. Similar to the Marguerite		
Daisy	1	6
DIOSMA.		
E.S. alba—White. A neat-growing little		
shrub. Erica-like, and sweetly-		
scented foliage; 4 ft., from	1	6
E.S. pulchrum (The Pink Diosma).—		
Covered in late winter and spring		
with small bright mauve-pink flowers.		
3 ft.	2	0
DIPLACUS.		
E.S. Engelerstii—Light bronze; pretty		
free-flowering shrub, with Mimulus		
shaped flowers; 3 ft.	1	6
E.S. glutinosus puniceus—Red; 3 ft.	1	6
DOMBEYA.		
E.S. Natalensis—White; 9 ft.	2	0
Very handsome, hardy, free-flowering		
shrubs, with white flowers. Natalen-		
sis, when in flower, is like a sheet		
of snow.		
DRACAENA.		
E. Australis (Stricta)—Very ornamental,		
with graceful foliage giving a tropical		
effect in the landscape; 15 ft., from . .	1	6
Large specimen plants in pots for		
decorating verandahs. From	3	6
DURANTA.		
E.S. Ellisi—Lavender; 6 ft.	1	6
E.S. Plumerei—Lavender; 12 ft.	1	6
(See also Hedge Plants.)		
ELOEAGNUS. —Fine hardy shrubs, grow-		
ing freely in any ordinary soil.		
E.S. Japonica—6 ft.	2	0
E.S. argentea variegata—6 ft.	2	0
ERIOSTEMON (Native Waxflower).—		
Dwarf evergreen shrubs of 3 to 4 ft.,		
covered in early spring with star-		
shaped flowers. Foliage scented.		
One of the best of hardy shrubs.		
Cut back while in flower.		
E.S. nerifolius, syn. myoporoides.—Palest		
pink	2	6
ERICA (The Heath).		
Autumnalis.—Deep rose. Very hardy;		
will do well on the plains if given shel-		
ter. Very suitable for a shady rockery	2	0
Bowieana.—White; a fine variety	2	0
Cavendishi.—Yellow; 3 ft.	3	6
Cerinthoides coronata.—Orange scarlet . .	2	0
Charlsleyana.—White, changing with age		
to a delicate blush; long spikes similar		
to Bowieana. Fine	2	0
Ciliaris.—Purple	2	0
Cruenta.—Crimson	2	0
Eweriana superba.—Red, tipped yellow . .	2	0
Hentyana.—A delicate shade of pink, fine		
long spikes. A great favorite	2	0
Hybrida.—Fine spikes of scarlet	2	0
Jubilee.—Deep rose; large spikes	2	0
Mackinnoniana.—Purplish rose	1	6
Mammosa.—Rose purple	2	0
Melanthera.—Purple flowers; very profuse		
bloomer. Grows well on the plains if in		
sheltered position. Ideal for sheltered		
rock gardens	2	0
Multiflora.—Dainty pink flowers; 3 ft. . .	2	0
Stricta.—Pink	2	0
Peria.—Deep rose	2	0
Persoluta alba.—White; 1 ft.	2	0
Ventricosa.—Flesh-colored; 2 ft.	2	0
Wilmoreaana.—Pink and white; 2 ft. . . .	2	0
ERYTHRINA (Coral Tree).		
D.S. Blakei.—Scarlet; 6 ft.	3	6
D.T. corallodendron—Deep scarlet; 30 ft.	2	0
D.S. cristagalli.—Scarlet. Deciduous shrub,		
producing large spikes of brilliantly		
colored flowers in summer. Should		
be pruned back hard in Spring; 8 ft.	1	6
D.T. indica.—The well-known Indian		
Coral Tree. Flowers in winter	2	6
ESCALLONIA. —Fine evergreen shrubs, of		
4 to 6 ft., with glossy foliage, and		
attractive bell-shaped wax-like		
flowers in terminal racemes. Very		
hardy. Cut back in winter.		
E.S. C. F. Ball.—Compact bushy habit;		
bright glossy foliage and rosy crim-		
son flowers. 4 ft.	2	0
E.S. Donard Seedling.—Very decorative		
variety; of spreading habit; with		
large sprays of flesh pink flowers.		
4 ft.	2	0
E.S. Fretheyii.—Pale pink flowers pro-		
duced in summer and autumn; 6 ft.	2	0
D.S. Langleyensis.—Rich red, upright		
flowers; growth pendulous	2	0
E.S. macrantha.—Coral red, large flowers	2	0
D.S. Montevidensis.—White, shaded with		
pink	2	0
EUGENIA.		
E.S. cyanocarpa.—Bluish fruits; 30 ft. . .	2	0
E.S. Kingi.—Very ornamental shrub, with		
large bunches of mauve berries	2	0

- E.S. *myrtifolia*—A fine evergreen shrub, with white flowers and handsome crimson berries; 15 ft. 1 6
- E.S. *pendula* (syn. *ventenatii*).—Weeping habit and white berries; 30 ft. 2 0
- EULALIA**—Handsome bamboo-like grasses, with ornamental flowering heads, which, when cut young and dried, can be used for ornamental purposes.
- Japonica albo lineata*—Foliage striped white; 3 ft. 2 0
- Zebrina*—Foliage barred yellow; 3 ft. 2 0
- EUCALYPTUS (Gum Tree).**
- E.T. *botryoides*—80 ft. 1 0
- E.S. *caesia*.—A beautiful pink flowering variety of dwarf growth, 10 ft. 2 0
- E.T. *calophylla*.—White. A very beautiful tree; 30 ft. 1 6
- E.T. *calophylla rosea*.—A magnificent tree, with handsome rosy-pink flowers; 30 ft. 1 6
- E.T. *citriodora* (Lemon scented Gum)—40 ft. 1 6
- E.T. *corynocalyx nana* (Dwarf Sugar Gum). A bushy dwarf-growing variety of the well-known Sugar Gum; 6 ft. 1 6
- E.T. *corynocalyx* (Sugar Gum)—80 ft. 1 0
- One of the most handsome of all the Eucalypti. Nice plants in pots, Per 100 60 0
- E.T. *Cornuta* (Yate Gum)—White; 50 ft. 1 0
- E.S. *crucis*.—Bright yellow flowers, small silvery leaves; 15 ft. 1 6
- E.T. *ficifolia*—Scarlet flowering gum. One of the most handsome trees in cultivation. Gorgeous when in flower; 15 ft. 1 6
- E.T. *globulus* (Tasmanian Blue Gum)—This variety is the best for cutting 1 0
- E.T. *gomphocephala* (Tooart Gum)—100 ft. A very handsome tree, quicker growing in some soils than the Sugar Gum, and is being planted extensively. Per 100, 60/-. Each 1 0
- E.T. *Nutans*—Flowers vary, sometimes crimson, sometimes purple; 6 ft. 2 0
- E.S. *Precissiana*.—Dwarf shrubby variety with yellow flowers; 6 ft. 1 6
- E.T. *Stricklandi*—Yellow, rare; 35 ft. 1 6
- E.S. *supulcralis*—Distinct weeping habit with yellow flowers; 15 ft. 1 6
- E.S. *Tetraptera*—Very handsome, large red flowers, 15 ft. 1 6
- E.S. *Torquata*—Salmon pink; rare. A beautiful flowering gum growing to a moderate size. The flowers are a lovely salmon pink, borne on slender growth, and excellent for cutting, 15 ft. 1 6
- EUONYMUS**—These are some of the best hardy variegated shrubs.
- D.S. *alatus*—Winged stalked 2 6
- E.S. *Japonica latifolius elegans*—Silvery variegation; 6 ft. 2 0
- E.S. *Japonica aurea variegata*—Yellow and green variegated foliage; 6 ft. 2 0
- E.S. *Japonica picturatus albus*—6 ft. 2 0
- E.S. *ovatus aureus*—Golden variegation; 6 ft. 2 0
- E.S. *radicans*—2 ft. 2 0
- E.S. *radicans variegata*—2 ft. 2 0
- EUPATORIUM**—Ornamental and especially valuable shrubs, flowering in Winter.
- E.S. *atrorubens* (syn. *hebecelinium*). Heads of soft mauve ageratum-like flowers. Heart-shaped leaves veined red; 3 ft. 2 0
- E.S. *Weinmannianum*—White; 6 ft. 1 6
- EUTAXIA.**
- E.S. *Diffusa*—A very pretty Spring flowering shrub, with orange colored flowers; 4 ft. 2 0
- EXOCHORDA.**
- D.S. *Alberti* (Syn. *Spirea Grandiflora*)—A most beautiful shrubs, bearing racemes of large white flowers in early Spring 2 0
- FABIANA.**
- E.S. *imbricata*—White. A very hardy shrub; flowers resembling white Erica; 6 ft. 2 0
- *FAGUS (Beech).**
- D.T. *sylvatica* (Common Beech)—50 feet. From 2 6
- D.T. *sylvatica purpurea* (Purple Beech)—A grand foliage tree; 50 ft. From 5 0
- FEIJOA.**
- E.S. *Sellowiana*—A most desirable fruit-bearing shrub; very handsome. Leaves are dark green, with silvery reverse. Inside of flowers crimson, silvery underneath. Edible fruit, with fragrance similar to pineapple. May be used for salads. Should be in every garden, 10 ft. 2 0
- FELICIA.**
- E.S. *angustifolia*—Lilac; 3 ft. 1 6
- E.S. *echinata*—Lilac Blue; 3 ft. 1 6
- FICUS.**
- E.T. *Australis*—Small-leaved Ficus, 40 ft. 1 6
- E.T. *Australis variegata*—Very handsome with golden variegated foliage, from 2 6
- E.T. *elastica variegata*.—Very handsome, with golden variegated foliage 5 0
- E.T. *Hilli*.—Extra good variety for street planting; 40 ft. 2 6
- E.T. *Macrophylla* (Moreton Bay Fig)—Handsome, hardy, shady tree, with glossy green leaves; 70 ft. 1 6
- FRAXINUS.**
- D.T. *Americanus* (American Ash); 30 ft. From 2 0
- D.T. *excelsior* (Common English Ash); 60 ft. From 2 0
- D.T. *velutina*.—Large yellowish-green foliage. Recommended for saline soils; 30 ft. From 3 6
- D.T. *Ornus* (Flowering Ash) 5 0
- D.T. *excelsior Raywoodi*.—A very attractive variety of ornamental Ash, with claret-colored foliage, from 2 6
- D.T. *sambucifolia* (Black Ash)—30 ft. From 3 6
- D.T. *sambucifolia variegata*—30 ft., from 5 0

FUGOSIA (Lagunaria).

E.T. Patersoni—Pink. Very handsome hardy tree of pyramidal habit. Extensively used for planting in streets and parks. Does well near sea coast; 20 ft. 1 6

GARDENIA.

E.S. floridus.—Double white, not at all hardy 3 6

E.S. Thunbergii—White. A beautiful shrub, with handsome foliage and large, highly perfumed single white flowers. Graceful in appearance; 6 ft. 2 6

GARRYA elliptica—Greenish white, tassel-like flowers 2 6

GENISTA.

E.S. Aetnensis—Mount Etna Broom. A strong growing variety, with pendulous branches and yellow flowers 2 0

E.S. Andreana—Crimson and yellow; very handsome; 5 ft. 2 0

E.S. Cornish Cream.—Cream standards, pure yellow keel; very attractive. A good grower, sweetly scented and a really splendid variety 2 6

E.S. C. F. Pearson—Pink shaded, crimson and orange 3 6

E.S. Dorothy Walpole.—Pink shaded orange and yellow 3 6

E.S. Donard Seedling.—Pink wings, shaded carmine and orange 3 6

E.S. fragrans—Yellow 1 6

E.S. Lilac Time.—Lilac pink, paling to clear pink 2 0

E.S. Lord Lambourne.—Scarlet crimson and pale cream. Very striking 3 6

E.S. monosperma pendula (White Weeping Broom) 2 0

E.S. multiflora alba—White; 8 ft. 1 6
All are handsome flowering shrubs, blooming from August to October.

GERALDTON WAX PLANT (See *Chamaelaucium*), Pink, 2/6; Red 3 0

***GORDONIA**—Hardy, camellia-like shrub of 6 to 8 ft., with attractive single flowers, opening during the dull winter months. Requires very little pruning.

anomala.—Creamy white, with yellow anthers 3 6

GOLDFUSSIA.

E.S. anisophylla.—Ornamental foliage and lavender flowers 1 6

GREVILLEA.

E.S. alpina.—Red, tipped yellow; very pretty; 3 ft. 2 6

E.S. alpina Dallachiana.—Taller growing than alpina; with full red flowers. 4 ft. 2 6

E.S. lavandulacea.—Lavender-like foliage and red flowers; 3 ft. 2 0

E.S. lonigera.—Fine foliage and red flowers; 3 ft. 2 0

E.S. rosmarinifolia—Red; 6 ft. A beautiful evergreen shrub, suitable where a large specimen is required 2 0

E.S. robusta (Silky Oak). Orange. A very ornamental tree; 50 ft. From 1 6

E.S. Thelmanniana.—Dense shrubby variety, with attractive deep red and yellow flowers. 5 ft. 2 0

GUAVA.

E.S. Purple. Edible fruit; 8 ft. 2 0

D.S. Yellow. Edible fruit; 8 ft. 2 0

GUELDER ROSE (Snowball Tree).

D.S. 8 ft. One of the most handsome deciduous shrubs, bearing numerous bunches of snow-white flowers in large round balls 2 0

GYNERIUM (Pampas Grass).

argenteum plumosa—The largest white Pampas Grass 2 0

roseum—Rose-colored Pampas Grass 2 6

HABROTHAMNUS.

E.S. elegans—Red; 6 ft. 2 0

HAKEA.

E.S. eucalyptoides—Red; 12 ft. 1 6

E.S. grammatophylla—A rare and beautiful variety of this well-known native shrub, with pink flowers 3 6

HARDENBERGIA (Native Lilac).

E.S. ovata—Purple; 4 ft. 1 6

E.S. ovata alba—White; 4 ft. 1 6

HELIOTROPIUM.

E.S. Giant Valencia.—Largest heliotrope, 2 ft. 1 6

E.S. Nigrescens—Dark Blue; 2 ft. 1 6
Small sweetly-scented flowering shrubs.

HIBISCUS.

E. Agnes Galt.—Very large flowers of cerise shading to old rose, which shades off to salmon pink as flower ages. Strong growing. 4 ft. 2 6

E.S. Apricot—Single flower; apricot shade 1 6

E.S. Aureole—New. Golden apricot, suffused pink, rosy carmine eye. Madeline; very free flowering 1 6

E.S. Braziliensis grandiflora—Golden yellow, with blackish crimson eye; 3 ft. 1 6

E.S. Champion—New. Rich apricot, with deep strawberry red eye; with rose zone at base; very large 1 6

E.S. Conqueror—A beautiful variety, quite hardy; unique in color, apricot or salmon, with crimson eye 1 6

E.S. General Courtgis—Very large, open flowers; the best crimson; 6 ft. 1 6

E.S. Gloria—New Orange, suffused and veined madder-like 1 6

E.S. Harwoodii—Beautiful variety of same growth and habit as *Splendens*; large, single pink flowers, with dark centres, 6 ft. 1 6

E.S. Huegeli.—Lavender blue; 6 ft. 1 6

E.S. Indica—Light carmine, overlaid with salmon, deep crimson throat 1 6

E.S. Island Empress—Double rosy cerise 2 0

E.S. Lambertiana—Double scarlet; 3 ft. 2 6

- E.S. Peachblow—Double salmon rose; 4 ft. A magnificent variety, free flowering, blooms very large. One of the most handsome Summer-flowering shrubs in existence; 4 ft. 2 0
- E.S. Rose Scott—Fine large flower, rosy cerise, veined salmon red, deep crimson throat; each petal marked creamy buff. Very beautiful, 6 ft. 1 6
- E.S. Rosy Morn—New. Old rose, deeper veins, reverse of petals shaded salmon 1 6
- E.S. splendens—Scarlet; 6 ft. 1 6
- E.S. Tango Queen—Large single tango flowers 1 6
- E.S. Thorban's Wonder—A remarkable variety, with pendulous flowers, and reflexed serrated petals. Color, rosy red. Good grower. Does well on Adelaide Plains 1 6
- HYDRANGEA**—(See separate list).
- HOVEA.**
- E.S. elliptica—Dark blue; 8 ft. 2 6
- E.S. trisperma—Blue, 4 ft. 2 6
- These rank among the most beautiful Australian natives, producing their lovely blue pea-shaped flowers in profusion during the Spring.
- HYPERICUM (St. John's Wort).**
- E.S. moserianum—Yellow, 3 ft. 2 0
- E.S. repens—Yellow. Suitable for rock and bank work; 1 ft. 2 0
- IBOZA.**
- E.S. riparia—A beautiful dwarf ever-green shrub, which in Winter is covered with a fluffy mass of delicate lavender-tinted flowers, 3 ft. 1 6
- *ILEX (Holly).**
- E.S. aquifolium—15 ft. From 2 6
- E.S. japonica—Large leaves. Hardest variety for the plains; 10 ft. 2 6
- E.S. Golden Variegated—In variety; 10ft. 3 6
- E.S. Silver variegated—In variety, 10 ft. 3 6
- IMPATIENS.**
- E.S. Oliveri—Hardy winter flowering shrub with pale soft pink flowers; 3 ft. 1 6
- IOCHROMA.**
- E.S. coccinea—Scarlet; 8 ft. 2 6
- E.S. toneliana—Purple; 8 ft. 2 0
- Hardy, quick-growing shrubs.
- JACARANDA.**
- D.S. mimosaeifolia—30 ft. From 1 6
- A magnificent tree with fern-like foliage; flowers of a beautiful lavender blue, produced in large bunches.
- JASMINUM.**
- E.S. grandiflora—Large white flowers; 6 ft. 2 0
- E.S. primulinum—Large pure yellow, sometimes semi-double; flowers in early Spring. Very hardy; 5 ft. 1 6
- JUSTICIA.**
- E.S. adhatoda—White; 8 ft. 2 0
- E.S. carnea—Rose color; 3 ft. 2 0
- KERRIA.**
- D.S. Japonica, fl. pl—Yellow, double; 6 ft. 2 0
- KOELREUTERIA.**
- D.S. paniculata—A graceful deciduous tree with pretty foliage. Large panicles of yellow flowers; 15 ft. 2 0
- LAGERSTRÆMIA (Crape Plant).**
- D.S. Eavesii—Beautiful pale mauve; 6 ft. 3 6
- D.S. indica rubra—Soft red flowers; 10 ft. 3 6
- D.S. Indica—Bright pink; 10 ft. 3 6
- Beautiful flowering shrubs, quite hardy. Unique and magnificent in appearance.
- LAGUNARIA.**
- E.T. Patersoni—Pink; 25 ft. 1 0
- A very handsome, hardy flowering tree of pyramidal habit. Does well near the sea coast.
- LABURNUM**—(See Cytisus).
- LANTANA.**
- E.S. Alba—White 1 0
- E.S. Chelsea Gem—Rich crimson and amber; 2 ft. One of the brightest, free-flowering, and most beautiful little shrubs 1 0
- E.S. Diadem—Pale yellow and rose color. One of the best; 2 ft. 1 0
- E.S. Drap d'Or—Orange yellow; 2 ft. 1 0
- E.S. Golconde—Saffron, changing to orange and pink; 4 ft. 1 0
- E.S. Gol Gol—Old gold; 2 ft. 1 0
- E.S. Imperatrice Eugenie—Rose and cream, 4 ft. 1 0
- E.S. La Neige—Large pure white flower. A gem; 2 ft. 1 0
- E.S. Magenta Queen—Red and yellow, changing to magenta; 2 ft. 1 0
- E.S. Princess Louise—Crimson, orange centre; 3 ft. 1 0
- E.S. Sanguinea—Red and orange; 4 ft. 1 0
- E.S. Sellowiana—Mauve; a beautiful little shrub, always in flower; 2 ft. 1 0
- E.S. Triomphe du Commerce—Orange and purple; 2 ft. 1 0
- *LASIANDRA**—Hardy evergreen shrubs of 4 to 6 ft., with large, showy flowers, which open throughout most of the year. Prune after frosts are over.
- E.S. grandiflora—Dwarf growing variety, requiring slight shelter. Huge flowers, deepest violet purple 2 6

LAURUSTINUS—(See Viburnum).

E.S. White 1 6

***LAUREL** (English)—E.S.; 12 ft. 1 6

LAURUS.

E.T. nobilis (Sweet Bay)—20 ft. 2 0

A fine evergreen, with sweet-scented leaves. It does well in our climate. The leaves are useful for flavoring.

LAVANDULA.

E.S. dentata—Dark purple; 2 ft. 1 6

E.S. spica (English Lavender)—2 ft. 1 6

E.S. Vera—We have an especially fine variety of this true scent Lavender 1 6

LEMON-SCENTED VERBENA.

See Aloysia Citriodora.

LEONOTIS (Lion's Ear).

E.S. leonorus — Orange-scarlet flowers, produced in whorls up the stems. Very striking; 6 ft. 1 6

LEPTOSPERMUM.

E.S. Nicholii—A very pretty variety of red flowering ti-tree; 6 ft. 2 6

E.S. laevigatum—Silvery grey foliage, white flowers (Victorian Ti-tree) 2 0

E.S. roseum fl. pl.—One of the prettiest shrubs, covered in summer with double rose-pink flowers; 5 ft. 2 6

E.S. Scoparium Grandiflorum.—One of the most lovely flowering native plants we have seen, rivalling the Geraldton Wax Plant in beauty. A compact shrub 8 to 10 ft. high, and producing freely its dainty sprays of flowers of a pure rosy pink color 2 0

***LESCHENAULTIA.**

E.S. biloba—Bright blue. One of the finest blue-flowering shrubs in cultivation 2 6

LEUCADENDRON.

E.T. Argenteum (Silver Tree)—15 ft. 3 6

E.T. Discolor.—Silvery foliage with large red bracts; 8 ft. 7 6

E.T. grandiflorum.—8 ft. 7 6

LIGUSTRUM.

E.S. Japonicum (Japanese Privet) 1 6

E.S. ludicum variegata 3 6

E.S. ovalifolium aureum elegantissimum (New Golden Variegated Privet)—Makes a pretty shrub in the garden, and is now being used extensively for small hedges; 15/- doz. strong plants in pots, each 1 6
(See also Hedge Plants).

E.S. sinensis—Handsome shrub, bearing large panicles of white flowers 1 6

LINUM.

E.S. trigynum—A lovely winter-flowering shrub, bearing quantities of yellow flowers; 2 ft. 2 0

LIQUIDAMBAR.

D.T. styraciflua—40 ft. A beautiful tree; leaves dying off purple, crimson, and yellow in Autumn 2 6

***LIRIODENDRON** (Tulip Tree)—Hardy

deciduous tree, of 30 to 40 ft., with attractive large foliage, which turns brilliant gold in Autumn. Large tulip-like flowers, sweetly scented.

Tulipifera—Flowers yellowish green 3 6

LONICERA (Honeysuckle).

E.S. caprifolium—Red and white; 8 ft. 2 0

D.S. ciliata—White; 6 ft. 2 0

E.S. tartarica—Scarlet. Very handsome, 6 ft. 2 0

E.S. gigantea—Pale yellow. Very handsome; 6 ft. 2 0

E.S. nitida—Small box-like foliage, borne on dense twiggy growth. Creamy, fragrant flowers in Summer. This plant will make an ideal hedge; from 3 to 4 ft. 1 6

LOPHOSTEMON.

E.T. Australis—50 ft. A very fine ornamental tree, with white, myrtle-like flowers 2 0

LUCULIA.

E.S. gratissima — Flowers, rose-pink; sweetly scented. A gorgeous shrub. Requires a cool, protected position sheltered from severe frosts, 4 ft. 3 6

***MAGNOLIA.**

E.S. fuscata (Port Wine Magnolia).—Heavily perfumed brownish purple flowers. Upright growth; 8 ft. 3 6

E.T. grandiflora—White; 20 ft. From 3 6

D.S. obovata—Flowers white inside; purple outside; 6 ft. 5 0

D.S. Purpurea—Purple; 10 ft. 5 0

D.S. stellata.—White starry flowers; very sweet; 10 ft. 5 0

MAHONIA.

E.S. aquifolia (New Zealand Holly).—Yellow flowers, succeeded by handsome berries; 3 ft. 2 0

MARGUERITE DAISIES.

E.S. Large white—Single; 3 ft. 1 0

E.S. Large primrose—Single; 3 ft. 1 0

E.S. Pink Enchantress — A beautiful winter-flowering, pink with brown and yellow centre 1 0

E.S. The Queen—The best double white Marguerite for Winter flowering; 3 ft. 1 0

MELALEUCA (Tea Tree).

E.T. genistifolia—40 ft. 2 0

E.S. hypericifolia—Scarlet; 10 ft. Very hardy, graceful, native shrub 2 0

E.S. styphelioides—White; 10 ft. 2 0

MELIA.

D.T. azedarach (White Cedar)—Lilac, 30 ft. Good shade tree, rapid grower. Useful for street planting. From 1 6

METROSIDEROS.

E.S. tomentosa.—A lovely scarlet flowering shrub; native of New Zealand, where it is known as the Rata 2 0

MYOPORUM.

E.S. insulare (Native Myrtle)—White .. 1 6
A quick-growing, glossy-leaved shrub that does well near the sea beach. Makes a good hedge for seaside places. (See Hedge Plants).

E.S. punctatum—Very handsome semi-transparent foliage .. 1 6

MYRTUS.

E.S. communis grandiflora, fl. pl. (Eng.-Myrtle)—White; 8 ft. .. 1 6

NANDINA.

E.S. domestica — White. A beautiful shrub, with very ornamental foliage, bronzy tinted. Suitable for arranging with cut flowers; 5 ft. .. 2 6

NERIUM (Oleander).

E.S. Cousine Marie—White, semi-double 1 6

E.S. Delphine—Deep rich crimson, single, 5 ft. .. 1 6

E.S. Felix Bourquet—Pale saffron inside, buds rosy; single, very good .. 1 6

E.S. General Lamoniere—Very pale salmon pink; semi-double .. 1 6

E.S. Grandiflora plenum (Splendens)—Double pink; 10 ft. .. 1 6

E.S. Henry Wares—Semi-double, bright rosy pink .. 1 6

E.S. Jean Galen—Very large deep pink semi-double; fine, bold, free-flowering variety .. 1 6

E.S. lutea grandiflora—Single, clear yellow. Good. 6 ft. .. 1 6

E.S. Mdle. Celestine—Single white; very free .. 1 6

E.S. Mdme. Felix Sabut — Semi-double, large, clear pink. 8 ft. .. 1 6

E.S. Mdme. Leon Brun—A double variety, with very deep pink flowers. Good 1 6

E.S. Madonna grandiflora—The best pure white; semi-double .. 1 6

E.S. Mrs. Roeding—The blooms are semi-double, of a beautiful buff shade, distinctly edged and flushed salmon pink. 5 ft. .. 1 6

E.S. Notaire Cavallier—Single crimson; very free-flowering .. 1 6

E.S. Souvenir de Cazalis Allut—Rich dark crimson; single. 6 ft. .. 1 6

E.S. splendens variegata—Golden variegated. 6 ft. .. 2 6

The Oleander should be much more generally grown, as it thrives in any position, and under the most adverse circumstances. It is especially valuable for planting near the sea coast, also in the driest parts of the North.

NIEREMBERGIA.

E.S. Azureus—Deep blue; 2 ft. .. 1 6

OCHNA.

E.S. multiflora—Yellow; 3 ft. The flowers are produced in profusion, and are succeeded by ornamental berries .. 2 6

OLEANDER—(See Nerium).**OSMANTHUS (Japanese Holly).**

E.S. ilicifolius variegatus—4 ft. .. 2 6
Pretty Holly-like shrubs, very hardy.

***PAEONIA.**

D.S. moutan (Tree Paeony)—In variety; 4 ft., from .. 5 0

PALMS—See Page 36.**PAMPAS GRASS** (See Gynierium).**PAULOWNIA.**

D.T. Imperialis.—A quick-growing tree with large foliage and pale violet flowers in panicles; 30 ft. From .. 2 6

PAVONIA.

E.S. coccinea—Scarlet flowers, like a miniature Hibiscus; 6 ft. Large bright green leaves. A good shrub 2 0

PERESKIA (Climbing Cactus).

E.S. godseffiana — Beautiful variegated foliage .. 2 6

PENTSTEMON.

See Page 49.

PEPPER TREE. See Schinus Molle. .. 1 0

PHILADELPHUS (Mock Orange) .. 1 0

D.S. coronarius primulaeflorus. Cream; 5 ft. .. 2 0

D.S. Grandiflorus—Single, white; 6 ft. .. 2 0
These are very beautiful deciduous shrubs, flowering in early spring, and sweetly scented.

PHILLYREA.

E.S. Vilmoreana—10 ft. .. 2 0

PHOTINIA.

E.S. glabra rubens.—Brilliant red young foliage and creamy white flowers; 5 ft. .. 3 6

E.S. serrulata—White; 15 ft. One of the best and most effective large shrubs 2 6

PHORMIUM.

tenax (New Zealand Flax) .. 2 0

tenax variegata .. 7 6

PIMELEA.

E.S. decussata—Rose; 2 ft. A very pretty small-growing native shrub .. 1 6

PINUS.

E.T. canariensis—Quick growing and ornamental; 50 ft. .. 1 6

E.T. halepensis (Aleppo Pine)—100 ft. Hardest and best for general planting .. 1 0

E.T. insignis (Remarkable Pine)—100 ft. 1 0

E.T. maritima (Pineaster)—50 ft. A beautiful tree that does well near the sea. Special prices for quantities .. 1 0

E.T. Pinea—Stone Pine .. 1 0

Tested Novelties and Specialties for 1941

It is with pride that we call your special attention to the number of very worthy tested introductions offered in these pages

THE PHOTOGRAPH ABOVE IS OF OUR

Improved Scotch Exhibition Pansy

This strain was exhibited at all the principal shows last season by one of our customers who was successful in gaining 90 per cent. of the first prize awards.

To the exhibitor we say there is no Pansy that can equal it, being quite distinct and vastly superior to other strains.

Our seed, which is imported direct from the overseas grower, is both fresh and clean.

Special features of this improved Exhibition Pansy is the high percentage with exhibition markings. The large range of colors, the size and texture of the blooms. **Price, 2/6 per packet.**

New Cabbage, "Spring Gem"

A truly wonderful cabbage in every respect. The illustration above gives some idea of its robust habit. The plant was grown under normal conditions, without any special care, in the garden of a customer. The flavor is really delicious, the hearts, which average 10 to 12 lbs. in weight, are particularly tender and very solid. For the home garden or for market purposes, we have yet to find its equal. We have received many glowing testimonials from clients who have grown Spring Gem. Price, 6d. per pkt.

New Iceland Poppy, "Darlington Tints"

This is a particularly fine introduction. During recent years the Iceland Poppy has been greatly improved, in colors, size of bloom, and length of stem. This new strain, besides having all these features, excels in the matter of new and varied shades of color. In addition, it is very floriferous. Price, 1/- per packet.

New Mammoth Lettuce, "Excelsior"

A truly wonderful lettuce from America, which we grew in our trial grounds last season. A quick grower of exceptional size, solid, tender and crisp, of excellent flavor and excellent for the home garden or market. 6d. per packet.

"AFTERGLOW"

This novelty is truly a monster in size, in fact we make bold to say that **AFTERGLOW** yields bigger flowers than any other Sweet Pea in cultivation. The name of this glorious Sweet Pea was suggested to us as being very appropriate by a visitor to our garden, who was particularly impressed with its magnificence and unusual coloring, similar to that seen above the horizon as the sun is setting after a very hot day. The rich, rosy, violet hue of this artistic novelty, which is extraordinarily waved and frilled, besides being perfectly arranged on good stems, also bears four sprayed blooms in profusion. Price, 1/- per packet.

"Afterglow"

NEW GIANT SWEET PEA FOR 1941

INDIAN SPRING.

Annual Hollyhock Indian Spring

A variety of exceptional merit. Indian Spring produces flowers of varying attractive bright rose and rosy carmine shades, of a size similar to the Single Perennial Hollyhock. The habit is infinitely tidier than the ordinary Annual Strains. Seed sown March-April will bloom October to December.

Indian Spring throws a central stem from the base of the plant, which finally attains to six feet or more in height. Flowering branches are produced freely from about a foot from the soil. Both stem and branches produce a continuous display of flowers.

The fig leaved foliage is light and attractive. All Hollyhocks are beautiful, but many criticise them because of their untidy habit. Indian Spring, however, produces a compact pyramidal plant, with a wealth of flowers set attractively in the axils of the leaf stems. 9d. per packet.

LINARIA MAROCCANA, "FAIRY ROSE"

A new and quite distinct color of this fine annual for Winter and Spring flowering; clear rosy-pink, tinted delicate lilac. A real gem. 6d. packet.

NEW PRIMULA MALACOIDES, "BRILLIANCY"

This new introduction is of special merit and quite a break in color to the older varieties, being a rich bright red. 1/- packet.

PHLOX DRUMMONDI GRANDIFLORA, "GIGANTEA ART SHADES"

This NEW strain bears enormous flowers, in a fine range of ART SHADES. There is a complete absence of all harsh shades. 9d. per packet.

AGERATUM, "FAIRY PINK" (NEW)

A novel shade in Ageratums, the color is a Salmon Rose, and the bushes are dwarf and compact. 1/- per packet.

SCHIZANTHUS WISETONENSIS

"MONARCH STRAIN RE-SELECTED"

THIS Re-Selected Strain is a superlative mixture, and a great advance on anything hitherto available. Brightest Rose shades, Apple-Blossom Pinks, Salmons, Rosy-Crimsons, deep Violet-Purples and many indescribable variations make a riot of color almost unbelievable.

The flowers have immense petals and the majority are beautified by a gold veining so exceptionally heavy that it makes MONARCH RE-SELECTED distinct from all other mixtures, 2/- Packet.

ALYSSUM MARITIMUM NANUM, "VIOLET QUEEN"

From the original white form some colored varieties have been developed, but none of a very decided shade. The flowers of this new variety, however, have a character peculiarly their own, being of a very pretty violet tint, and we have no doubt that "Violet Queen" will be found of much value as a pleasant alternative to the old favorite white-flowering varieties. 1/- packet.

BUDDED WALNUTS

Two Prolific, Early, and Blight Resistant Varieties

“Wilson’s Wonder” Walnut

Although seedling Walnut trees sometimes reproduce fairly true to the parent tree in several characteristics, a worked tree is part of its parent, and an exact replica of all its characteristics. We are now in a position to supply BUDDED TREES of the largest Walnut ever introduced, in WILSON’S WONDER. The shell of this outstanding variety is easily opened with the fingers and in spite of its size the proportion of kernel to shell is very high.

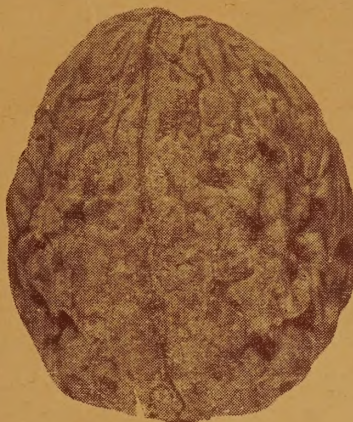

WILSON’S WONDER is not only the largest Walnut grown, but is also the most prolific bearer, is not subject to heavy attacks of Bacterial Blight, and in the dryer districts under irrigation it is practically immune.

A WILSON’S WONDER Walnut in the suburban garden will undoubtedly prove a source of pride and pleasure for all time, and will certainly repay for any care and attention bestowed on it. **Good Trees, 7/6 each.**

Wilson’s Wonder Walnut

Photo of young budded nursery tree three months from the starting of the bud, showing its remarkable early bearing characteristics. The rule shows the bunch to be five inches across.

Natural Size of “Wilson’s Wonder” Nut.

—:0:—

“Freshford Gem” Walnut

Very fine, thin shelled nut. Kernel exceptionally white and full, and of splendid quality, a strong grower, prolific, and of early bearing habit. Although the parent tree is only twelve years old, it has already carried good crops, all of which have been practically free from Blight. Its full white kernel of exceptionally high sugar content, strong growing, yet heavy bearing habit, will make this variety the most popular Walnut in Australia. **Price, 7/6 each.**

Freshford Gem Nuts, natural size, showing full, white kernel and fine, thin shell.

←→ HARRIS, SCARFE, LIMITED. ←→

100% PURE CULTURE

MUSHROOM SPAWN

JUST A HAPPY FAMILY AFFAIR. IN THE BACKYARD EXPOSED TO THE SUN AND RAIN. NOW YOU SEE! BY USING "MAS" SPAWN, MUSHROOMS NEED NOT BE GROWN IN THE DARK!

"MAS" PURE CULTURE Spawn differs from any other similar product. The chemical and mineral contents of the material used for breeding this Spawn are only known to R. MAS. The process we adopt enables the Spawn to live and grow with greater freedom, thus producing a healthy growth of fungus, which when planted in the mushroom beds, has the capacity to crop quicker and more abundantly. It has taken Mr. Mas years of observation to ascertain to a reasonable degree of accuracy as to what age the Spawn is at the prime of its life—a very vital point necessary to increase security and production. Such can only be achieved when the subject is practically understood.

No other brands of spawns available in the Southern Hemisphere can rightly claim to have accomplished what "MAS PURE CULTURE SPAWN" has done.

It is universally accepted by the leading growers as the Spawn of the Highest Quality, Dependability and Productiveness of the Choicest Quality Mushrooms.

Cultural instructions are included with every carton.

PRICE: 3/6 per Carton, which is sufficient to plant 10 Square Feet.
HARRIS, SCARFE'S are the S.A. Agents for "MAS" Mushroom Spawn.

PITTOSPORUM.

E.S. eugenoides—10 ft.	1 6
E.S. eugenoides argentea variegata—8 ft.	2 6
E.S. undulatum—A handsome shrub when planted in single specimens; 15 ft.	1 6
See Hedge Plants for quantities.	

PLATANUS.

D.T. occidentalis (Western Plane)—70ft. From	2 6
D.T. orientalis (Oriental Plane)—50 ft. From	2 6

PLECTRANTHUS.

Ecklonii—Blue; 3 ft.	1 6
------------------------------	-----

PLUMBAGO.

E.S. capensis—Blue; 4 ft.	1 6
E.S. capensis alba—White; 4 ft.	1 6
E.S. larpentae—Dark blue; 1 ft.	1 6
Hardy, free-flowering shrubs, worthy of a place in every garden. Capensis is also used where a flowering hedge is required.	

PODALYRIA.

E.S. calyptata, var. grandiflora—The flowers are a lovely shade of pink, brighter towards the centre; 6 ft.	2 6
E.S. sericea—Pink flowers, silvery foliage; 4 ft.	2 0

POINCIANA (Bird of Paradise Shrub).

D.S. Gilliesi—Crimson and yellow; 4 ft. An exceedingly pretty shrub, with Acacia-like leaves	2 0
--	-----

POINSETTIA.

D.S. pulcherrima—Scarlet bracts; 6 ft. A magnificent shrub, requiring a warm position. Should be pruned back hard in early Spring	1 6
---	-----

POLYGALA.

E.S. grandis—Purple; 6 ft. A beautiful shrub, with pea-shaped flowers. Very hardy, flowering throughout the Winter	2 6
--	-----

POPULUS (Poplars).

D.T. alba—Silver Poplar; 50 ft.	2 0
D.T. Canadensis aurea, var. Van Geerti.—Yellow leaves; 50 ft. From	2 6
D.T. Dilitata—Upright Poplar—50 ft.	2 0
D.T. eucalyptus—60 ft.	3 0
D.T. macrophylla (Ontario Poplar)—40 ft.	2 6
D.T. monolifera (Spreading Poplar)—50 ft.	2 0
D.T. pyramidalis aurea.—Golden upright Poplar; 60 ft. From	2 6
D.T. tremula pendula — A magnificent weeping tree, Standards from	10 0

PROSTANTHERA.

E.S. ovalifolia — A handsome variety, covered with rich purple flowers in Spring; 8 ft.	2 6
E.S. rotundifolia—Violet; 5 ft. A distinct and pretty shrub	2 6

***PROTEA (Cape Honeysuckle).**

E.S. mellifera—Pink and yellow; 8 ft. A handsome flowering shrub	2 6
E.S. cynaroides—Silvery pink	7 6
E.S. Susannae.—Red flowers in great profusion. 6 ft.	7 6

PRUNUS.

D.T. Blireiana, fl. pl.—Flowers, double bright rose; light bronze green foliage	2 0
D.T. Moseri—Double, pale pink flowers, with light bronze foliage	2 0
D.T. mume, fl. pl.—White; 6 ft.; green foliage	2 0
D.T. mume, fl. pl.—Red; 6 ft.	2 0
D.T. mume, fl. pl.—Pink; 6 ft.	2 0
D.T. Pissardii—Very ornamental. Foliage deep coppery crimson, with highly colored fruit	2 0
D.S. sinensis alba, fl. pl.—Double White 3 ft.	2 0
D.S. sinensis rosea, fl. pl.—Double rose; 3 ft.	2 0
These are beautiful small-growing shrubs, that produce quantities of double flowers in Spring.	
D.T. Mrs. Lyle—Large single pink	2 0
D.T. Vesuvius—An improved variety of Pissardii, but with large leaves	2 0

PRUNUS SERRULTA (Double Flower-Cherries).

D.T. Double Rose Pink—10 ft.	3 6
D.T. Double Red—10 ft.	3 6
D.T. Double White—10 ft.	3 6

PSORALIA.

pinnata (Blue Broom). Blue	2 0
--------------------------------------	-----

PSIDIUM (Guava).

D.S. aromaticum (Yellow Guava)—10 ft.	2 0
E.S. cattleyanum (Purple Guava)—3 ft.	2 0
Both varieties are edible, but P. Cattleyanum is the better.	

PUNICA.

D.T. granatum (Pomegranate)—12 ft.	1 6
D.S. granatum, fl. pl.—Double scarlet Pomegranate; 8 ft.	2 6
D.S. granatum nanum, fl. pl.—Double scarlet, dwarf; 2 ft.	2 6
D.S. granatum nanum.—A dwarf form of edible pomegranate. Scarlet flowers followed by small crimson fruit. Excellent for tubs; 2 ft.	2 0

PUSSY WILLOW.

D.T. salix rubra—20 ft. From	1 6
--	-----

PYRUS-MALUS (Flowering Crab Apple).

D.T. Aldenhamensis—Large semi-double wine-red flowers, purple fruit, and coppery foliage; 12 ft.	2 6
D.T. Eleyii—Foliage, bright reddish purple. Flowers rich veinous red, borne in clusters. Very good; 12 ft.	2 6
D.T. Hopa.—Red foliage and flowers followed by crimson fruits; 12 ft.	2 6
D.T. Madgenbergensis.—Deep bronze foliage, red flower and fruits; 12 ft.	2 6
D.T. floribunda purpurea—Purple flowers	2 6
D.T. Scheideckerii—Semi-double flowering Apple; very beautiful	2 6
D.T. spectabilis rosea, fl. pl.—Double rose	2 6

PYRUS.

D.T. aucuparia (Mountain Ash).—Red berries, 30 ft.	2 6
D.T. aucuparia Sambucifolia. — Orange berries, 30 ft.	3 6
D.S. japonica—(See Cydonia).	

QUERCUS (The Oak).

- D.T. *coccinea* (Scarlet Oak)—50 ft. From 2 6
 E.T. *ilex* (Evergreen Oak)—50 ft. From 2 6
 E.T. *lusitanicus*—Evergreen; 40 ft. From 2 6
 D.T. *palustris*.—Foliage turns bright red in autumn; 30 ft. From 2 6
 D.T. *robur* (The English Oak)—50 ft. From 2 6
 D.T. *rubra*—Champion or red oak; 40 ft. From 3 6

RAPHIOLEPSIS (Indian Hawthorn).

- E.S. *ovata*—White; 4 ft. 1 6

RHAGODIA (Salt Bush).

- E.S. *hastata*—Silvery foliage; 2 ft. Useful also as a hedge plant 1 6

RHODODENDRON.

- E.S. *hybridum*—Named varieties from 5 0
 E.S. *ponticum*—Lilac. From 3 6

RHUS—Valuable deciduous shrub, with attractive foliage, which assumes brilliant tints in Autumn. *Succedanea* is the finest for Autumn tints, and has the advantage of being non-suckering.

- D.S. *cotinus* ("Wig Tree").—Glaucous round leaves, turning crimson and yellow in Autumn; 6 ft. 2 6
 D.S. *cotinus atropurpurea*—Crimson; 6 ft. 2 6
 D.T. *Succedanea* (Japanese Wax Tree)—Foliage turning bright scarlet in Autumn. 10 ft. From 2 0
 D.T. *typhina laciniata*—Handsome plant. Young shoots deep red with long leaves and finely cut pendant leaflets, looking somewhat like ferns. Very pretty red foliage in Autumn; flowers greenish yellow, followed by dark purple fruit. 20 ft. 5 0

RIBES (Flowering Currants)—Beautiful deciduous free-flowering shrubs with attractive pendulous trusses of flowers in earliest Spring. They thrive in almost any soil or situation.

- D.S. *speciosum* (Fuchsia-flowered Gooseberry)—Very pretty shrub, with deep red flowers; 4 ft. 2 6
 D.S. *sanguineum* (Red Flowering Currant)—5 ft. 2 0

ROBINIA.

- D.S. *hispida rosea*.—Rose color; 6 ft. 2 6
 D.T. *Kelseyi*.—Rose pink; 10 ft. 2 6
 D.T. *pseudo acacia*—A very handsome tree, with long racemes of drooping white flowers; 40 ft. 2 6
 D.T. *pseudo acacia Decaisneana*.—Flesh-colored flowers; 40 ft. Available in winter months only 2 6

RUSSELIA.

- E.S. *juncea*—Scarlet; 4 ft. A beautiful little shrub with rush-like foliage. Very free-flowering and good for cutting. One of the best small shrubs 1 6

ROMNEYA.

- E. *Trichacalyx* (Californian Poppy).—A great improvement on *Coulteri*. Bushy habit; flowers very much larger, blooms six inches across; very much hardier, and highly recommended 3 0

SALIX (The Willow).

- D.T. *Babylonica*—Narrow-leaved Weeping Willow; 50 ft. From 1 6
 D.T. *rubra* (The Pussy Willow or Ossier)—The catkin-like flowers are produced before the leaves. If cut and dried they last for a long time; 12 ft. 1 6
 D.T. *tricolor*—Leaves variegated green, gold, red; 20 ft. 3 6
 D.T. *vitellina* (The Golden Willow)—Rich golden yellow wood; 15 ft. 2 0

SALVIA.

- E.S. *Africana*—Violet; 3 ft. 1 6
 D.S. *azureum*—A beautiful clear sky blue; 3 ft. 1 6
 E.S. *coccinea*—Red; 3 ft. 1 6
 E.S. *Grahami*—Purple; 2 ft. 1 6
 E.S. *involucrata*—Rosy red; 4 ft. 1 6
 E.S. *rutilans*—Magenta; 4 ft. 1 6
 A beautiful class of free-flowering small shrubs.

SAMBUCUS (Elderberry).

- D.S. *nigra*—12 ft. 1 6
 D.S. *nigra argentea variegata*—Variegated Elderberry; a fine shrub; 10 ft. 2 0

SCHINUS (Pepper Tree).

- E.T. *molle*—20 ft. A distinct and beautiful tree. Will thrive in the hottest and driest districts. Grows quickly and is at home in any soil 1 0

SESBANIA.

- D.S. *tripetii* (Brazilian Glory Pea)—Graceful racemes of orange, scarlet, or tango-colored flowers; freely produced. Acacia-like foliage; 8 ft. 2 6

SOLANUM.

- E.S. *azureum*—Bright blue; a fine, free-flowering, hardy shrub; 4 ft. 2 0
 E.S. *capsicastrum*—Orange-red berries in Winter; 3 ft. 1 6

SOPHORA.

- D.T. *Japonica*.—White, 20 ft. 2 0

***SORBUS.**

- D.T. *Aucuparia*, Syn. *Pyrus Aucuparia* Mountain Ash—Rowan Tree. Handsome bunches of scarlet berries and pretty foliage; 30 ft. From 2 6

SNOWBALL TREE.

D.T. See *Viburnum opulus*—3 ft. . . . 1 6

SPARMANNIA.

E.S. *Africana*, fl. pl.—Double white; 8 ft. A very handsome, rapid-growing, winter-flowering shrub 2 0

SPARTIUM.

E.S. *junceum* (Spanish Broom)—Yellow; 10 ft. 1 6
E.S. *multiflorum album*—White; 28 ft. . . 1 6

SPHAERALCEA.

E.S. *umbellata*—Crimson; 6 ft. A fine winter-flowering shrub with large leaves 2 0

SPIREA—Very hardy and beautiful Spring-flowering shrubs.

D.S. *Aitchisonii*—White flowers in very large clusters. Very graceful shrub, with ferny foliage; 5 ft. 2 0
D.S. *Anthony Waterer*—Rich crimson; 3 ft. 1 6
D.S. *corymbosa*—Single white (May); 5 ft. 1 6
D.S. *grandiflora* (*Exochordia*)—Large single flower. Very beautiful; 8 ft. . 1 6
D.S. *Reevesiana*, fl. pl.—The well-known double white, 3 ft. 1 6
D.T. *thunbergii* (syn. *gracilis*).—Dwarf variety, with grass-like foliage, which turns brilliant colors in autumn. Pure white flowers in early spring; 3 ft. 1 6

STATICE (Sea Lavender)—Everlasting Flowers.

D.S. *Caspia*—Long feathery spikes of pale mauve flowers 1 6
E.S. *Dicksonii*—Pink, fine for cutting; 2 ft. 2 0
E.S. *macrophylla*—Blue and white; 2 ft. . 2 0
E.S. *perezii multiflora*.—Blue, 2 ft. . . . 2 0
E.S. *spathulata*—Pale mauve; fine compact growing border plant. Useful for edging beds 1 6

STENOCARPUS.

Hardy evergreen small trees of 15 ft., with bright green foliage, and attractive flowers in Spring. *Cunninghami* is the famous Queensland Fire-wheel tree. Grows very well in hot, dry districts.

E.T. *Cunninghami*, syn. *sinuatus*—Bright scarlet flowers, formed as the spokes of a wheel. From 2 6

STERCULIA.

E.T. *acerifolia* (Flame Tree)—Scarlet; 40 ft. 1 6
E.T. *heterophylla* (*Kurrajong*)—40 ft. . . 1 6
E.T. *hybrida*—Flowers rosy pink; 40 ft. . 3 6
E.T. *lurida*—Deep crimson; a wonderfully handsome flowering tree; 30 ft. 3 6
Heterophylla is one of the best ornamental trees.

STILLINGIA.

D.T. *sebifera* (Tallow Berry)—A handsome, quick-growing small tree, especially valuable for its Autumn foliage, which is richly colored. Colors well on the plains 2 0

STRELITZIA.

E.S. *Reginae*—Orange and blue; 3 ft. From 3/6 to 10/6

SUGAR GUM—(See *Eucalyptus*).

Special quotations for quantities.

SUTERA.

E.S. *grandiflora*.—Very pretty dwarf winter-flowering shrub, with clear lavender blue flowers, 3 ft. 2 6

SWAINSONA.

E.S. *alba*—White; 3 ft. 1 6
E.S. *carmineus*—Carmine; 3 ft. 1 6
E.S. *lavender*—3 ft. 1 6
E.S. *Pink*—3 ft. 1 6
Very hardy shrubs, free-flowering, with pea-shaped flowers; in bloom all the Summer.

SYMPHORICARPUS (Snowberry).

D.S. *racemosus*—White berries; 4 ft. . . 1 6
D.S. *vulgaris*—Pink; 4 ft. 1 6
D.S. *orbiculatus variegatus*.—Pink berries; 4 ft. 1 6

SYRINGA (Lilac).

D.S. *Persica*—Persian Lilac. Blue; 5 ft. . 2 0
D.S. *vulgaris*—English Lilac; 5 ft. . . . 1 6
D.S. *vulgaris alba*—White; 5 ft. 2 6
D.S. *vulgaris Abel Carriere*—Double Cobalt, blue to white 2 6
D.S. *vulgaris Chas. Joly*—Almost purple . 2 6
D.S. *vulgaris Conderet*—Double, Pale blue 2 6
D.S. *vulgaris Delphine*—Single, Very dark 2 6
D.S. *vulgaris Marechal Bassompierre*.—Double carmine red 2 6
D.S. *vulgaris Mdm. Abel Chatenay*.—Milk white; double 2 6
D.S. *vulgaris Mdm. F. Morel*—Single, Very large; pale blue 2 6
D.S. *vulgaris Mdm. Lemoine*—Very large; double white 2 6
D.S. *vulgaris President Grevy*.—Double blue, large truss 2 6
D.S. *vulgaris Sou de L'Spaeth*—Semi-double, red-purple, almost crimson . 2 6
D.S. *vulgaris Vulcan*.—Deep red; single . 2 6

TAMARIX.

D.S. *gallica*—Pink (Flowering Cypress) 8 ft. From 1 6
D.S. *Japonica*—Pink flowers before foliage; 8 ft. From 1 6
Very hardy shrubs, especially suitable for planting in dry places and near the sea.
D.S. *odessana rubra*—Bright pink flowers in Summer. Very pretty 2 0

TECOMA.

E.S. *capensis*—Orange-scarlet; 8 ft. . . . 1 6
E.S. *Smithi*—Orange; 10 ft. 2 0
E.S. *velutina*—Golden yellow; 8 ft. . . . 2 0

TEMPLETONIA (Coral Bush).

E.S. *retusa*—Terra-cotta crimson. A handsome Winter-flowering shrub; 4 ft. 2 6

TELOPEA (The Waratah).

E.T. *speciosissima*—Scarlet Crimson, from 3 6

THRYPTOMENE.

- E.S. *Mitcheli*—Small-growing Erica-like plant. Very pretty 2 6
 E.S. *Australis*—3 ft., white 2 6

TOXICOPHLEA.

- E.S. *spectabilis*—White; 5 ft. A pretty, white-flowering shrub; sweetly scented. Very hardy 2 6

TRISTANIA (Lophostemon).

- E.T. *conferta*—White; 30 ft. 2 0
 A very quick-growing evergreen tree, broad foliage. Useful for shelter.

ULMUS (The Elm).

- D.T. *campestris* (English Elm)—80 ft. 2 6
 D.T. *campestris* *Louis van Houtte*.—Yellow leaves; 80 ft. From 3 6
 E.T. *chinesis* (syn. *parviflora*).—The Chinese Elm. An evergreen small tree with spreading branches; 15 ft 3 6
 D.T. *Montana pendula* (Weeping Elm)—Standards from 10 6
 D.T. *purpurea* 3 6
 D.T. *suberosa* (Cork Bark Elm)—From 2 6

VERONICA.

- E.S. *Andersoni*—Blue; 3 ft. 1 6
 E.S. *Andersoni variegata*—Blue; 2 ft. 1 6
 E.S. *Bolloniensis*.—Pure white; 4 ft. 1 6
 E.S. *Colensi glauca*—White; 1 ft. 1 6
 E.S. *cupressoides*—Very distinct; 3 ft. 1 6
 E.S. *Diosmaefolia*.—Pale lilac; 2 ft. 1 6
 E.S. *Hulkeana*—Lavender blue; 3 ft. 1 6
 E.S. *Lobelioides*—Blue; 2 ft. 1 6
 E.S. *speciosa imperialis*—Crimson; 3 ft. 1 6
 E.S. *variabilis*—Rose; 3 ft. 1 6
 E.S. *versicolor*.—Variegated pink, green, and white foliage; 3 ft. 1 6
 E.S. *Vulcan*.—Deep crimson; 4 ft. 1 6

VIBURNUM.

- E.S. *Burkwoodi*.—Rosy white; sweetly scented 3 6
 E.S. *Carlesi*.—Beautifully rosy-white Bouvardia-like flowers; very lightly perfumed. 6 ft. 3 6
 D.S. *opulus*—Guelder Rose or Snowball Tree. 8 ft. 2 0
 E.S. *suspensum*—White, sweetly scented; 6 ft. 1 6
 E.S. *tinus* (*Laurustinus*)—White; 6 ft. 1 6
 (See also Hedge Plants).
 E.S. *tinus lucidum*—Pure white, shining green foliage; 6 ft. 1 6
 Splendid hardy shrubs.

VICTORIA TEA TREE (Leptospermum laevigatum).

- E.S. A very hardy evergreen shrub. especially suitable for the seaside. Also makes an excellent hedge. White 2 0

VIRGILIA.

- E.S. *capensis*.—A hardy, quick-growing shrub with rosy lilac flowers and graceful foliage; 15 ft. 2 6

VITEX.

- E.S. *trifolia variegata*—Very hardy, with pretty variegated foliage 2 0

WIGANDIA.

- E.S. *caracassana*.—Lilac; 8 ft. Very large-leaved, tropical looking plant, with handsome flowers 2 0

WEIGELA (Diervilla).

- D.S. *Candida*—White; 4 ft. 2 0
 D.S. *purpurata*—Deep red; 4 ft. 2 0
 D.S. *rosea*—Rose; 4 ft. 2 0

YELLOW BROOM.

- See *Spartium junceum* 1 6

XANTHOCERAS.

- D.S. *sorbifolia*—12 ft. A very handsome white flowering shrub 2 6

PALMS

- Cocos plumosa*—Very elegant, tall growing palm. From 3 6
Chamaerops Excelsa—One of the hardiest fan palms, with dark green foliage; 15 ft. From 2 6
Chamaerops humilis—Fan-shaped leaves, dwarf habit, compact. Makes nice specimen on a lawn; 6 ft. From 5 0
Corypha Australis—A very graceful palm; Hardy. From 3 6
Diplothemium maritimum—Similar to Date Palm, but more graceful; rapid grower. From 2 6
Phoenix canariensis—Very graceful dark green feathery foliage. From 2 6
Phoenix Roebelini—One of the most beautiful Palms in cultivation for table and indoor decoration. From 3 6
Washingtonia robusta (Cotton Palm). From 2 6

Hardy Climbing and Trailing Plants

E.—Evergreen. D.—Deciduous.

AMPELOPSIS.

- D. *Engelmanni*—Foliage similar to *Hederacea*. Very brilliant in Autumn; self-climbing 2 0
- D. *Hederacea* (Virginian Creeper)—Brilliant foliage in Autumn 2 0
- D. *Henryana*—The leaves are beautifully variegated with silver and rose, quite distinct from any existing variety. Its leaves turn color in the Autumn, as in other varieties 2 0
- D. *Veitchi* (Small-leaved Virginia Creeper)—A beautiful climbing plant, and a general favorite. Unequalled where a self-clinging climber is required. A fine effect is illustrated on the south side of the Exhibition Building, North Terrace 1 6
- D. *Veitchi purpurea* 2 0

ANTIGONON (Mexican Mountain Rose).

- D. *Leptopus*—Pink; a very beautiful climber, worthy of more general cultivation 2 6

ARISTOLOCHIA.

- D. *elegans*—Large flowers, blackish purple, with yellow veins; peculiar shape. Very handsome and attractive 2 0

*ASPARAGUS.

- E. *plumosa*—The best climbing variety for verandah or covering stumps; foliage indispensable for decoration 1 6
- E. *Sprengeri*—A handsome drooping variety with dark green leaves, white flowers, succeeded by scarlet berries in Winter. A handsome pot or basket plant, which also does well on rockeries 1 6

BIGNONIA.

- E. *Australis*—Whitish; a rapid-growing climber, with good foliage 2 0
- E. *capreolata*—Orange and red 2 0
- E. *Chirere*—A magnificent climber, with orange-red flowers and handsome foliage. The best evergreen Bignonia 2 6
- E. *gracilis*—Yellow evergreen; a beautiful climber, with small foliage and large golden-yellow flowers 2 0
- D. *grandiflora*—Orange-bronze 2 6
- E. *jasminoides*—White, with purple throat; evergreen 2 0
- E. *Lindleyana*—Lilac; a beautiful evergreen climber 2 0

- E. *Mackeni*—A splendid climber; large trusses of pale pink flowers, with deeper veinings 2 0

- D. *Madame Galen*—Similar to *Grandiflora* in habit, but with wine-red flowers 2 6

- D. *Manglesi*—Chestnut-red and orange bronze. One of the best deciduous climbers 2 6

- E. *Monsieur Petit*—Cream and purple flowers, sometimes called *Pink Tecoma Australis* 2 0

- E. *venusta*—Orange; a grand Winter-flowering climber. Does well in warm districts 2 0

BOUGAINVILLEA.

- E. *glabra Sanderiana* 2 0

Rich shining violet-red bract, with which even the smallest plants are covered. Flowers all through Spring, Summer and Autumn. The best variety for covering old trees or training as a shrub.

- E. *Lateritia*—Terra-cotta 3 6

- E. *magnifica traili*—Bright purple; one of the handsomest Summer-flowering 2 0

- E. *Mrs. Butt*—One of the most beautiful varieties. The plant is of free climbing habit, and produces in the greatest profusion its beautiful crimson flowers 3 6

- E. *Rosa Catalina*—New. Rosy terra-cotta red, almost pink; very beautiful. Award of Merit, R.H.S., England 3 6

- E. *splendens* (syn. *speriosa*)—Deep magenta. A grand climbing plant; very free flowering if planted against a wall or fence facing north 2 0

- E. *Thomasi*—New beautiful deep pink. By far the best pink Bougainvillea 3 6

CANAVALIA.

- E. *Bonariensis*—Purple rose. A pretty evergreen climber with shining green leaves and drooping racemes of flowers 2 6

- CAPE IVY (*Senecio*)—Bright yellow 1 6

CLEMATIS.

- D. Hybrids**—Large flowered, in variety 5 0
- D. Montana Buchani**—White flowers, very early in Spring. Greatly admired .. 2 0
- D. Montana rubra**—Rosy pink flowers, otherwise same as Montana .. 3 6
- E. tangutica**—Very handsome, with bright yellow flowers, and later in summer large heads of feathery fruits 2 0

COBOEA.

- E. scandens**—Purple bell-shaped flowers. A rapid-growing climber .. 2 0

DOLICHOS.

- E. lignosis**—Rose .. 2 0
- E. lignosus alba**—White .. 2 0
- These are rapid growers, and especially useful for covering unsightly fences.

FICUS.

- E. minima**—Neat and pretty .. 2 0
- E. stipulata**—Adheres to the wall like Ivy. Very hardy .. 2 0

FUCHSIA.

- E. procumbens**—A good plant for hanging baskets in sheltered situations. Has pretty yellowish flowers, reflexed blue, and large magenta crimson berries .. 1 6

GOLDEN GLORY CREEPER.

(See *Thunbergia Gibsonia*).

HARDENBERGIA (Native Lilac).

- E. ovata**—Blue .. 1 6
- E. ovata alba**—White .. 1 6
- E. ovata rosea**—Rose .. 1 6

HEDERA (The Ivy).

- E. dentata variegata**—The finest variegated Ivy. Very large leaves .. 2 6
- E. Helix (The English Ivy)** .. 2 0
- E. Helix aborea** .. 2 0
- E. Helix Algeriensis variegata** .. 2 6
- E. Helix Maderensis variegata**—Very fine .. 2 6

HOYA.

- E. carnosa (Wax Plant)**—Pale flesh. A pretty climber. Suitable for growing under verandahs .. 2 6

IPOMOEA (Perennial Convolvulus).

- E. Learii**—Blue. Very rapid grower .. 2 0

IVY—(See *Hedera*).

JASMINUM.

- E. Stephenense**—A hardy vigorous variety; attractive foliage and clusters of fragrant soft pink flowers in Spring 2 6
- E. grandiflora**—The largest white .. 2 0
- E. primulinum**—Large bright yellow flowers, sometimes semi-double. A splendid variety .. 2 0
- Sweet-scented climbing plants.

KENNEDYA.

- E. Comptoniana**—Violet .. 2 0
- E. nigricans**—Black and yellow. Very quick-growing and hardy .. 2 0
- E. pentaphylla**—Violet .. 2 0
- E. rubicunda**—Red; fast growing .. 2 0
- Fine, quick-growing, effective climbers.

LAPAGERIA.

- E. rosea** .. From 5/- to 10 0
- One of the most beautiful climbers in cultivation, but only suitable for cool districts.

LATHYRUS (Everlasting Pea).

- E. pubescens**—A climber of great merit. Free-flowering, bearing ten to fifteen blooms on each spike. Color, blue, shaded lavender. Especially beautiful in Spring .. 2 0

LONICERA (Honeysuckle).

- E. aurea reticulata**—White and yellow. Handsome variegated foliage .. 2 0
- E. brachypoda**—White and pink .. 2 0
- E. Caprifolium (Woodbine)**—Pink .. 2 0
- E. confusa**—Pale yellow; fine .. 2 0
- E. gigantea**—Cream and yellow .. 2 0
- E. tartarica**—Rosy scarlet .. 2 0
- The Honeysuckles are very suitable for verandah posts or covering fences.

LOTUS.

- E. peliorhyncus**—Scarlet pea-shaped flowers, similar to Sturt Pea, with fine glaucous foliage. Suitable for rockeries .. 1 6

MANDEVILLA.

- D. suaveolens**—White; sweetly scented. One of the best hardy white flowering climbers. Easily cultivated .. 1 6

MAURANDIA.

- E. Barclayana**—Blue .. 2 0

PASSIFLORA (Passion Flower).

- E. edulis**—Edible Passion Fruit. Should be generally grown. Easily cultivated. Very suitable for covering fences, and profitable .. 1 0

PERESKIA (Climbing Cactus).

- E. Godseffiana** — Beautifully variegated foliage, yellow marked fiery red on upper surface, rosy crimson underneath .. 2 6

PHASEOLUS (Snail Flower).

- D. caracalla**—Lilac and white. A beautiful creeper, with curiously curled and twisted flowers. Very sweetly scented .. 2 0

RHYNCOSPERMUM.

- E. jasminoides alba.** — White, sweetly scented .. 2 0
E. jasminoides alba variegated—White. A good, quick climber; Clusters of small Jasmine-like flowers, and very sweetly scented .. 2 0

SOLANUM.

- E. jasminoides**—White .. 2 0
D. Seaforthianum—Blue .. 2 6
D. Wendlandi—Large trusses of pale blue flowers. One of the most beautiful climbers in cultivation. Requires a warm position .. 2 6

STEPHANOTIS.

- E. floribunda** — Pure white; sweetly scented. Wax-like flowers borne in bunches. Requires a warm, well-drained position .. 2 6

STIGMAPHYLLUM.

- E. ciliatum (Golden Vine)**—Yellow; good foliage. A handsome climber .. 2 6

TACSONIA.

- E. mollissima** — Magenta. Sometimes grown for its fruit, which resembles Passion fruit, but yellow in color .. 1 6
E. Taylorii (Banana Passion Fruit)—Pale pink flowers, with an edible banana-shaped fruit, similar to Mollissima, but more free in bearing .. 1 6

TECOMA (See Bignonia).

THUNBERGIA.

- E. Gibsoni (Golden Glory Creeper)** .. 2 0

VITIS.

- Alicante Bouchet (Crimson Glory Vine)**.....
 —Scarlet crimson. Autumn foliage 1 6

WISTARIA.

- D. multijuga rosea**—Pale Pink .. 2 0
D. sinensis—Lavender .. 2 0
D. sinensis fl. pl.—Double lavender .. 2 6
D. sinensis alba—Double White .. 2 6

PERENNIAL ASTERS

(MICHAELMAS DAISIES)

The varieties offered below are a big advance in these plants as the flowers are very much larger, and in addition are carried right down to the bottom of the spike and not just at the top as in the older varieties.

Price 1/- each. 10/- dozen. —————Plants available from August to September.

BLUE GOWN.—Beautiful large blue flowers often two inches across.

BLUE EYES.—Large blue flowers with very small centres.

BLUE JACKET.—Bright blue; very good.

CHARLES WILSON.—A new shade of bright cerise pink.

EMPRESS OF COLWALL.—Light blue, splendid spike.

JOSEPHINE WELLS.—Bright pinkish-red, long spike.

MAMMOTH.—Very large deep blue.

MOTHER OF PEARL.—Name aptly describes the unusual shadings of white and pink.

MOUNT EVEREST.—Beautiful large white.

MRS. GEORGE MUNROE.—Enormous white flowers.

O. WELLS.—This blue flowered variety is very floriferous and distinctive.

QUEEN MARY.—Exceptionally large delicate blue.

SILVER SPRAY.—Beautiful silvery white.

STRAWBERRIES AND CREAM.—Unusual combination of reddish pink to white.

SPIRE.—Quite distinct reddish purple flowers, on long stems.

SUNSET GLOW.—Very large, reddish pink.

TABLOW'S SPIRE.—White, distinct red flush, on long stems.

DWARF PERENNIAL ASTERS

This new type of Dwarf Michaelmas Daisies only grow a few inches high, and when in bloom are literally covered with flowers, and ideal for Rockery and Herbaceous beds.

BLUE BABY.—Beautiful pale blue flowers. Height, 10 inches.

LADY HENRY MADDOCKS.—Beautiful shade of pale pink. Height, 12 inches.

NANCY.—Flesh pink flowers. Height, 12 inches.

REMEMBRANCE. — Beautiful pinkish-blue. Height, 14 inches.

SNOWSPRITE.—Not quite as dwarf as other varieties, being 15 inches. Pure white, semi-double.

VICTOR.—Clear pale lavender-blue. Distinct.

CONIFERAE

This noble order of plants stands unrivalled by any other. The endurance of heat renders the majority of them peculiarly adapted to our climate. Some of the Pines, Cedars, and Abies form magnificent avenues and for single specimens on lawns they are all that can be desired.

ABIES (The Spruce Firs).

- Douglasii* (Douglas' Silver Fir)—100 ft. From 2 6
Kosteriana glauca (Koster's Blue Spruce)
 —The most glaucous of all the Abies;
 rare from 7 6
Nordmanniana—Very handsome; 8 ft., from 2 6
Pinsapo—One of the grandest trees in this
 section; 50 ft. from 2 6

ARAUCARIA.

- Bidwilli* (The Bunya-Bunya) 3 6
excelsa (Norfolk Island Pine)—Very
 hardy and ornamental tree. Also
 suitable for planting at seaside; from 1 6

BIOTA (Chinese Arbor Vitae).

- aurea* (Golden Arbor Vitae)—3 ft., from 2 6

CEDRUS.

- Atlantica* (Silver Cedar)—15 ft. from 3 6
Atlantica glauca (True)—A truly magni-
 ficent variety; rare from 5 0
Deodara (Indian Cedar)—80 ft. from 2 6
Deodara aurea—A golden-tipped variety
 forming a magnificent spectacle
 when planted as a single specimen
 from 5 0

CRYPTOMERIA.

- elegans*—Red-brown foliage in Winter;
 40 ft. from 2 6
elegans gracilis—Red-brown foliage in
 Winter; 40 ft. from 2 6
Japonica (Japanese Cedar)—60 ft., from 2 6

CHAMAECYPARIS.

- Spaeroides variegata*; 12 ft. from 2 6

CUPRESSUS.

- Arizona*; 30 ft. from 2 0
Nootkatensis (syn. *Thujopsis*); 30 ft. . . 2 6
Brunniana aurea (The Golden Macro-
 carpa)—20 ft. from 3 6
Lambertiana (Macrocarpa)—30 ft., from 1 0
Lambertiana horizontalis (from cuttings)
 A beautiful break-wind tree; also
 the best Pine for forming hedges
 (see Hedge Plants) from 2 6
Lambertiana horizontalis aurea (The
 Golden Pine)—Fine golden foliage,
 from 3 6
Lawsoniana—40 ft. from 2 6
Lawsoniana erecta viridis—20 ft., from 3 6
sempervirens from 2 6
sempervirens stricta (Upright Cypress)
 30 ft. from 2 6
Lawsoniana aurea—10 ft. from 3 6
Lawsoniana elegantissima—10 ft., from 3 6
Lawsoniana Fletcherii nana.—A miniature
 variety of *Fletcherii*; very attractive
 for rock-gardens; 2 ft., from 3 6

- Torulosa*—A handsome shelter tree; also
 a valuable hedge plant; 70 ft., from 2 6

DACRYDIUM.

- Franklinii* (Huon Pine)—Only suitable for
 cooler districts; 40 ft. from 2 6

JUNIPERUS (Juniper).

- Africanus*; 15 ft. 3 6
Bermudiana (The Bermuda Cedar). A
 dense small tree of pyramidal habit;
 15 ft. from 2 6
communis aurea—15 ft. from 2 6
erecta—15 ft. from 2 6
Japonica aureus—10 ft. from 2 3
partium aureum—10 ft. from 2 6
Sabina—5 ft. from 2 6
sinensis aurea variegata—6 ft. from 2 6
Virginiana—Very ornamental silvery foli-
 age. All very hardy, and form fine
 specimens from 2 6

LARIX (The Larch).

- Europea*—30 ft. from 2 6

LIBOCEDRUS.

- decurrens*—Fine evergreen trees; 80 ft.,
 from 2 6

PICEA (Silver Fir).

- alba* (White Spruce)—4 ft. from 2 6
excelsa (Norway Spruce)—70 ft. from 2 6
Engelmanii—70 ft. from 2 6
Menziesii (Syn. *Sitchensis*)—70 ft., from 2 6
Orientalis—30 ft. from 2 6
pungens (Blue Spruce)—80 ft. from 2 6
pungens glauca—80 ft. from 2 6

Noble and majestic trees when they
 attain age, but only suitable for
 cooler districts.

PINUS (The True Pine).

- Canariensis*—40 ft. from 1 0
halepensis (Aleppo Pine)—The hardiest of
 all; 40 ft. from 1 0
insignis (Remarkable Pine)—60 ft., from 1 0
maritima—50 ft. from 1 0
Pinea—Stone Pine)—40 ft. from 1 0

Special quotations for quantities.

PODOCARPUS.

- spinulosus*—20 ft. from 2 6
Totara—50 ft. from 2 6

RETINOSPORA.

- Ericoides* (Heath-like Cypress)—40 ft.
 from 2 6
plumosa (Plum-like Cypress)—10 ft., from 2 6
Squarrosa Sewelli from 3 6
 Compact, close-growing shrubs, with
 handsome foliage. *Squarrosa* is
 proving quite hardy on Adelaide
 Plains.
Squarrosa sulphurea.—Attractive form of
Squarrosa, with distinct pale sulphur
 yellow foliage in spring; 4 ft., from 3 6

SALISBURIA (Ginko).
Adiantifolia (Maidenhair Tree)—70 ft.
 from 2 0

SEQUOIA.
sempervirens—Large-growing tree; very
 ornamental from 2 6

TAXODIUM.
distichum (Deciduous Cypress)—20 ft.,
 from 2 6

TAXUS.
baccata (English Yew)—10 ft. . . . from 2 0
baccata aurea (Golden Yew)—10 ft., from 2 6
Hibernica (Irish Yew).—15 ft. . . . from 2 6
Hibernica Aurea.—12 ft. from 2 6

THUJA.
gigantea—50 ft. from 2 6
Lobbi—50 ft. from 2 6
Lobbi variegata—50 ft. from 2 6
 Handsome trees, with fine foliage;
 beautifully colored during Winter.

THUJOPSIS (Japan Arbor Vitae).
borealis lutea—30 ft. from 2 6
dolobrata—40 ft. from 2 6
dolobrata variegata from 2 6

WELLINGTONIA (Sequoia).
gigantea (Mammoth Tree of California)
 400 ft. from 2 6

Succulents

Suitable for Rock Gardens and Dry Positions.

AGAVE.
Americana Variegata—Very handsome
 variegated plant, with long dark-
 green leaves, broadly margined with
 rich yellow from 1 6

ALOE.
Cooperi.—Probably the prettiest of the
 Dwarf Aloes. Leaves dark green,
 speckled white; very compact 3 6
flava—Yellow flower 1 6
fulgens—Free flowering, small growing
 Aloe, with scarlet flowers 1 6
humilis—Dwarf growing, prickly 1 6
Milleri—Light golden green, slightly
 prickly, medium tall; handsome
 red flowers 1 6

Transvaaliensis—Small growing, prickly.
 Inner leaves light green, heavily
 spotted white, outer leaves bronze.
 Handsome branching spikes of
 orange scarlet flowers 2 0

CACTI—Many suitable varieties . . . from 1 6

CEREUS.
serpentinus—Spiny cactus-like plant . . 2 6
flagelliformis 2 6

COTYLEDON.
arboreus—Silvery grey foliage, edged with
 reddish brown 1 6
canariensis—Bold light green leaves, dis-
 tinctly edged with crimson 1 6

orbiculata—Silvery grey, flushed pink at
 edges and speckled green 1 6
Paraguayensis.—Pearl grey foliage with
 a metallic sheen on the leaves; very
 good 1 6

CRASSULA.
coccinea—Red 1 6
lactea—White 1 6
Lycopodioides—Dwarf growing, peculiar
 shaped plant 1 6
multicava—Pink 1 6
perfoliata—Very large trusses of tiny sal-
 mon red flowers, striking 3 6
rubicunda—Reddish 1 6
Salmonia 1 6

DYCKIA (Remotiora)—Growth like pine-
 apple. Long spike of bright orange
 flowers 2 6

ECHEVERIA.
metallica—Color varies with the season,
 sometimes deep coppery pink and
 sometimes a light coppery shade.
 Very handsome 3 6
retusa—Dwarf growing, with handsome
 pink flowers 1 6
secunda—Common cabbage plant 1 0
 Special quotations for quantities.
speciosa humilis—Glaucus foliage, Small
 growing, with short pointed petals;
 flowers salmon pink 1 6

ECHINOCACTUS.
Albus.—White and very spiny 2 6
Mauve 2 6

FEROCACTUS.
Latispinus.—Round cactus, reddish spines 2 6

GASTERIA.
longifolia 1 6
vervica 1 6
spiralis 1 6

HAWORTHIA.
margaritifera—Good and rare 2 6
rugosa—Small growing; dark green . . . 1 6

KALANCHOE.
Globifera var. *coccinea*—Large bracts,
 brilliant scarlet flowers. One of the
 most showy rock plants 2 6
grandiflora—Handsome foliage, glaucous
 green overlaid with pinkish mauve;
 very striking. Flowers creamy
 yellow 1 6
marmorata—Flower white, leaves large,
 light green, heavily blotched brown.
 Very handsome 2 6
Somaliensis—Large light-green leaves,
 with reddish blotches. Flowers white
 Several other varieties can be sup-
 plied in limited quantities.

KLEINA.

- glauc*—Fleshy pointed leaves, almost blue. Very effective. 1 6

MESEMBRYANTHEMUM.

- Cordifolium variegatum*.—Variegated foliage; mauve-pink flowers 1 6

Molies—Very large and ornamental foliage 1 6

AGAPANTHUS (African Lily).

umbellatus—Blue 1 0

umbellatus alba—White 1 0

Hardy, handsome flowering plants, with large umbels of flowers.

AGERATUM.

Mexicana 1 0

AGROSTEMMA (Rose Campian)—Hardy herbaceous perennial.

Purple 1 0

White 1 0

*AJUGA.

metallica—A very pretty trailing plant with bronze-metallic foliage and blue flowers 1 6

repens—Similar to Metallica, except foliage is light green 1 6

*ALPINE STRAWBERRY—Very pretty; suitable for rockeries 1 6

ANCHUSA.

Italica Dropmore.—Dark green foliage. Plants smothered with the very purest gentian blue flowers; 4 ft. 1 0

ANEMONES.

Japonica—Rose 1 6

Japonica (Whirlwind)—Semi-double pure white. Very fine 1 6

ANIGOZANTHUS (Kangaroo Paw).

Manglesi—Green and red 2 6

pulcherrima—Yellow and white 3 6

*ARABIS (Rock Cress).

alpinus—Double pure white flowers, like small stocks. Splendid for borders 1 6

*ARENARIA.

balearica—A mossy creeping plant with small white flowers. Excellent for covering damp rocks, etc. 1 6

densa—A dense low-growing trailing plant with white star-shaped flowers 1 6

Biebersteinii—White; silvery foliage 1 6

ARCTOTIS.

grandiflora—Orange 1 6

scrapigera—Hybrid. Beautiful red and tango shades of flowers, like a Gerbera. 1 6

*ARMERIA (Thrift).

mauritanica (Minute Thrift)—A dwarf moss-like plant forming tufts of light green foliage, with pale pink flowers on short stems 1 6

splendens—Deep pink 1 6

ASTERS, Perennial (Michaelmas Daisy)—See separate list.

*ASTER ALPINUS.

Goliath—Pretty blue flowers; yellow centre 1 6

*AUBRIETIA.

Large Flowered Hybrids. — Beautiful dwarf-growing plants; flowers various shades of pink and blue 1 6

BEGONIAS.

Bedding—Various colors. Can be supplied in quantity in Spring. Prices on application.

BILBERGIA Nutans (Parrot Flower).—

Red, yellow, and blue 2 0

BOLTONIA.

Asteroides.—Pink and semi-double; beautiful as a garden plant and for cut flowers 1 0

glastifolia.—A most elegant plant, growing 4 ft. high, with long sprays of white daisy-like flowers 1 0

CALCEOLARIA.

Shrubby—Yellow 2 0

Shrubby.—Bronze 2 0

*CAMPANULA.

carpatia—Blue, also white 1 6

Very useful for rock gardens.

garganica—Purplish flowers. Fine for rock work 1 6

isophylla alba—Pure white. Fine for baskets 1 6

isophylla Mayii—Light blue. Very beautiful 1 6

persicifolia alba—White 1 6

persicifolia Telham Beauty—Very large flowers of china blue, silvery shading. New 1 6

persicifolia Ladham's Giant—Fine large flowers; colors from blue to white 1 6

Pusilla Miss Willmott.—Cambridge blue, dwarf-growing variety; 4 in. 1 6

pyramidalis—Blue 1 6

CANNA.

In varieties. See separate list, page 48.

*CAT-MINT (See Nepeta).

*CAT-THYME (See Teucrium marum).

*CERASTIUM (Jerusalem Star) 1 6

***CENTAUREA.**

candidissima—Silvery white foliage, lilac blue flower. Splendid for edging .. 1 6

CHRYSANTHEMUM (Maximum)—See Shasta Daisy.

***CREEPING MINT.** See *Mentha requienni* 1 6

- WINZER'S COLOSSAL**—The largest flowering Canna of all, often 8 in. across; clear bright scarlet; green foliage.
- WYOMING**—Old Gold and Vermilion, dark foliage.

Hydrangeas

***D.S. MADAME MOULLIERE**—Enormous panicles of pure white flowers. The best Hydrangea. From ... 1 6

D.S. OTAKSA—This is the hardy pink variety that will grow anywhere. From 1 6
Hydrangeas are beautiful flowering shrubs that should be more extensively planted. Their beauty is greatly enhanced when given a slightly sheltered position.

NEWER VARIETIES.

The following Hydrangeas are the newest productions, and were introduced a few years ago. They have proved a great advance in every way over the older varieties, both as to color and freedom of flowering. Hydrangeas do not flower blue naturally, except in soils containing a more than usual amount of acid and iron. The blue color can be obtained in soils deficient of these by watering with a blueing mixture.

BLUE GOLIATH—A tall grower with strong wood and large flower heads of a peculiar shade of lilac blue. Very effective and distinct when treated with blueing powder, 2/6

PINK, ROSE, AND RED VARIETIES.

BARDS—Deep pink. A vigorous dwarf variety of compact habit. Good strong, solid flower ... 2/6

DEUTSCHLAND—The best Hydrangea yet raised, with enormous very deep pink flowers, very strong grower, does well outside ... 2/-

DOMOTOI—An excellent variety, producing large heads of double deep pink flowers. Flowers turn blue if treated ... 2/-

ELMAR—A very fine variety of dwarf, bushy habit. Color quite a distinct shade of carmine. Very large truss. Flowers finely fimbriated. 2/-

***F. MATHES**—A good strong grower with large compact salmon rose flowers ... 2/-

HELGE.—Dark rose; splendid color. Large trusses on very strong stems 2/-

LA MARNE.—Lilac-pink. Enormous trusses with large fringed petals. Strong grower, with thick wood. Late variety 2/-

L. J. ENTZ.—A very pretty new variety with deep salmon pink flowers 2/-

NIEDERSACHSEN.—A fine novelty, good truss. A beautiful rose pink 2/-

PARSIVAL.—This variety is most remarkable for the shape of the flower, which is much like a Primula. The truss is large and solid, and carried on a stout stem. The foliage is dark raised, with enormous very deep pink flowers, green, flowers deep red; very free flowering. 2/-

PEER GYNT.—A very strong variety, with heavy wood and fine, broad foliage. The flowers and flower heads are very large and substantial. Color, a beautiful deep, rosy red. Very late flowering 2/-

***PINK GOLIATH.**—A beautiful shade of pink. Very effective 2/-

RHINEGOLD.—Strong grower, with good bushy habit. Large trusses of pale apple-blossom pink flowers 2/6

PERENNIAL PHLOX

Mixed Colors, 6/- per doz. Separate Colors, 1/- each; 10/- per dozen.

A. MERCER.—Violet blue with white eye.

CRIMSON KING.—Crimson.

DR. KONIGSHOFER.—Deep pink.

ETNA.—Coral red with maroon eye.

EVANGELINE.—Pink with white centre.

EVELYN.—Salmon-rose.

EVENMENT.—Pink.

G. BRODERSON.—Pink.

GRUPPENHONIGEN.—Satin-pink with dark eye, tall.

HOMELAND.—Pale mauve.

LUMINEUSE.—Pink.

MRS. NOORDERWIER.—Rosy-salmon with white eye.

RHEINLANDER.—Salmon pink with cherry red eye.

WILLIAM VEITCH.—White with flesh pink centre.

PENSTEMONS

These hardy plants should be in every garden, being constantly in bloom, and requiring scarcely any attention. They are exceptionally good, both for exhibition and garden. Some of them are especially fine for massing. Rosette gives the most beautiful mass of pure salmon pink imaginable.

Price, 1/- each; 10/- per dozen.

AURORA.—Clear bright scarlet; throat veined slightly darker.

CARMEN.—Vivid scarlet, darker on lip, white striped crimson; makes a vivid mass of color.

CUNARD.—Deep rose, throat blotched and marked scarlet.

CYNTHIA.—Light rose, pure white throat.

DOREEN.—Pure white, edged pale blue; distinct and good.

ETHEL.—White throat, edged clear magenta, large and good.

ETNA.—Rich crimson scarlet, white throat, veined deep red.

JEAN.—Pure white throat, with broad margin rosy lilac.

KATHLEEN.—Rosy maroon; throat blotched chocolate and white.

MALCOLM.—Magenta crimson; throat deep chocolate, with small amount of white.

NERISSA.—Good truss of violet purple bells; white throat, marked brown.

NORA.—White throat, clearly pencilled chocolate, maroon; outer color rosy carmine.

OLIVIA.—Rosy red; white throat, with crimson blotch on lip.

ROSETTE.—Pure salmon rose; clear white throat. One of the most beautiful plants ever sent out for massing and decorative purposes.

SYLVIA.—Pure white throat, broad margin in rosy salmon pink.

ZENOBI.—Deep maroon, shaded violet, blotched chocolate.

IRIS GERMANICA

We have a wonderful collection of the world's best, and easily the largest and most up-to-date in Australia, upwards of 1,000 varieties being available. Send for our special Iris catalogue. Posted Free.

Acclimatized Flowering Bulbs and Tubers

Always plant Bulbs in well-prepared soil. Sand round the Bulb when planting is very beneficial.

AGAPANTHUS (African Lily).

Umbellatus. Blue. 1/- each.

Umbellatus. Double Blue. 1/6 each.

Umbellatus albus. White. 1/- each.

ALSTROEMERIA (Peruvian Lily). Very easily grown. Of attractive flowers which last well when cut.

Aurantiaca.—Bright orange. 1/- each.

Psittacina (The Parrot Flower). Crimson, splashed and pencilled chocolate and green. 9d. each.

AMARYLLIS.

Belladonna (Belladonna Lily). Delicate silvery rose. 6d. each.

ANEMONE ST. BRIGID.—Very large flowers, in all the most brilliant shades and colors. From 6d. dozen; 3/6 100.

ANEMONE CORONIA.—This is a selected strain of great vigor and many colors. Having long, strong stems. From 6d. dozen; 3/6 100.

 Dec. 14—Triumph.
 Dec. 26—Wiggins.
 Jan. 1—Hale's Early.
 Jan. 5—Louis Grognet.
 Jan. 14—Mountain Rose.
 Jan. 18—Royal George.
 Jan. 20—Peregrine.
 Jan. 23—Early Crawford.
 Jan. 25—J. H. Hale.
 Jan. 30—Elberta.
 Jan. 30—Elberta (Willow-leaved).
 Feb. 16—Sea Eagle.
 Feb. 16—Finlayson's Seedling.
 Feb. 20—Lady Palmerston.
 Mar. 18—Salway.
 Mar. 25—Sea Eagle Improved.
 Mar. 30—Red Italian.

By reference to this list customers will be able to order and plant varieties to give fruit over a lengthy period.

PEACHES.

1/9 each. 18/- dozen.

ABBREVIATIONS:

W., White Flesh; Y., Yellow Flesh; C., Clingstone Canning Peaches.

BRIGG'S RED MAY—Fruit large when well grown; skin whitish green in the shade, deep red in the sun; flesh tender, juicy, and rich; one of the very best early varieties. Very early. W.

EARLY CRAWFORD—Very large, oblong; skin rich golden-yellow with deep red cheek; flesh yellow, very rich and sugary; excellent for market or canning, also one of the best for drying. Middle January. Y.

ELBERTA—Fruit very large, skin a fine yellow, highly colored with rich red; flesh firm, very fine grained, with an abundance of rich juice; undoubtedly one of the best and most profitable in cultivation for market purposes. End January. Y.

FINLAYSON'S SEEDLING—Fruit large, almost round, well colored, and of first quality. Ripens with "Sea Eagle," and is one of the best late Peaches. End of February. W.

GOLDEN QUEEN—One of the best canning peaches; heavy cropper, medium size; flesh bright yellow clear to pit. Ripens middle to end of March. Y. C.

HALE'S EARLY—Fruit large; round; skin greenish white. W.

HIGH'S EARLY CANADA—A very early Peach of greatest excellence, ripening same time as Briggs' Red May, but a better bearer.

J. H. HALE ("The Million Dollar Peach")—Larger than "Elberta," round, uniform shape, golden yellow, overlaid with carmine; flesh solid, delicious flavor; ripens a week ahead of "Elberta." Y.

LADY PALMERSTONE—Medium to large, globular; skin greenish, marbled and flushed with deep red; flesh yellow, tender, and juicy; it never fails to bear a crop, and is one of the best for market, canning, or drying. Y.

LOUIS GROGNET—Fruit large, beautiful, fine, sugary; freestone. Ripens after Hale's Early. W.

MOUNTAIN ROSE—Medium size, hardy Peach of good quality. W.

PEREGRINE—A distinct mid-season variety of good constitution and productiveness, fruit large and handsome, with brilliant crimson skin. Fresh, rich, highly flavored, and parting readily from the stone. W.

PRIZETAKER—A good medium late Peach. Outside of fruit highly colored, hanging well on the tree. Highly recommended. W.

PULLAR'S CLING—A very large, brilliantly colored clingstone peach of great merit. The tree is robust and vigorous and a consistent heavy cropper. The fruit is somewhat irregular in shape and carries color at the pit, but in spite of this its wonderful flavor and canning texture have made it the most heavily produced canning variety in Australia. Ripens middle to end of March. Y. C.

ROYAL GEORGE—A well-known variety; one of the best medium Peaches. W.

SALWAY IMPROVED—A seedling from the well-known "Salway"; it resembles its parent in size and color, but is slightly rounder, rather better quality, and from a week to a fortnight later. Y.

SEA EAGLE—Fruit large to very large; skin pale yellow, with a bright red cheek where exposed; a very heavy bearer and good market variety. Middle to end of February. W.

TRIUMPH—Large, almost covered with deep red, the earliest yellow flesh; strong healthy grower and good cropper. Y.

WIGGINS—An early freestone of large size, and most highly colored; ripens just after Briggs' Red May. Tree very prolific; flesh very rich and juicy. W.

WRIGHT'S EARLY—One of the best early Peaches; highly recommended. W.

PEARS.

1/9 each. 18/- dozen.

CLAPP'S FAVOURITE—An American Pear of highest quality; ripens just before Williams' Bon. Chretien. Early.

DUCHESS—(See Williams' Bon. Chretien).

GLOU MORCEAU—Large, skin yellow; flesh buttery, melting, and very juicy. Of the best dessert quality.

JOSEPHINE DES MALINES—A most delicious Pear; also one of the longest keeping varieties. Late.

PACKHAM'S TRIUMPH—Beautiful shape; large, and of the most perfect flavor; good grower. Early and prolific bearer; ripe in April.

WILLIAMS' BON CHRETIEN (Duchess)—Large, buttery, and belting; one of the finest summer Pears grown. Early.

PLUMS.

1/9 each. 18/- dozen.

ANGELINA BURDETT—Juicy, rich, and highly flavored; purple. Early.

COE'S GOLDEN DROP—A splendid variety; large; yellow. Medium.

DIAMOND—Very large, dark purple; splendid for preserving and a heavy cropper. Medium.

EARLY NEW ORLEANS—Medium size, roundish oval, skin dark red, purple in the sun; good dessert or preserving; a first-class market variety. Early.

EGG PLUM—Large, oval fruit; good cooking or preserving; constant and heavy bearer. Late.

GRAND DUKE—Very large, purple, richly flavored, very prolific. One of the best late Plums.

GREENGAGE—A well-known delicious Plum. Medium.

JEFFERSON—Large, golden yellow, juicy and highly flavored. One of the best. Medium.

KIRK'S—Large, black; a very fine variety. Medium.

PRESIDENT—Very large oval; deep purple Plum. Sweet and rich. An abundant bearer. One of the best late Plums.

PRINCE ENGELBERT—A fine, large, purple Plum; good for dessert or cooking. Medium.

PRUNE D'ARGEN (French Prune)—The standard variety for drying; sweet, rich, and sugary; very productive.

PRUNE SPLENDOUR—Good grower, very productive; a first-class drying market and table variety; perfect freestone. Ripens two weeks earlier than the French Prune.

PRUNE ROBE DE SERGEANT—Resembles D'Argen, but larger, and ripens two weeks earlier.

PRUNE TRAGEDY—Fruit large, dark purple, very rich and sweet. Early.

JAPANESE PLUMS.

1/9 each. 18/- dozen.

BURBANK—Large, early globular in shape; color clear cherry red; very sweet, with a peculiar and agreeable flavor; good bearer.

CLIMAX—Large, heart-shaped; highly colored; juicy, and fine perfume.

OCTOBER PURPLE—This is a very large, purple heart-shaped plum, without splashes of bright color; flesh amber yellow, red beneath the skin; very juicy and sweet. Clingstone.

SANTA ROSA—Very large, purplish crimson, of first quality for dessert. This is by far the best blood Plum ever introduced. Strong grower, good habit, and regular bearer.

SATSUMA (or Blood Plum)—Large, dark red, with violet bloom; flesh the color of beet; rich, spicy flavor.

WICKSON—One of the best; carmine, with white bloom, fine texture, firm, sugary, and delicious.

WRIGHT'S EARLY—Fruit similar to Burbank; the very best early Japanese Plum.

QUINCES.

1/9 each. 18/- dozen.

CHAMPION—Fruit very large, smooth, and handsome; very productive. Early.

MISSOURI MAMMOTH—Fruit grows to an enormous size; mild, pleasant flavor; unsurpassed for cooking. Good, free bearer.

PINEAPPLE—Medium size; clear golden yellow; makes superior jelly, and is said to cook as tender in five minutes as the best cooking Apple; exquisite and delicious flavor.

SMYRNA—Fruit very large, of lovely lemon yellow color. When cooked, very tender, having a delicious flavor.

ORANGE TREES.

From 4/- each.

COMPUDA—Large, oval fruit, of first-class quality; a regular and consistent bearer.

GOLDEN NUGGET NAVEL—Large, deep golden, very solid, and thin-skinned, rather oblong; deliciously sweet.

PARRAMATTA—A well-known variety. Very large and prolific.

RUBY BLOOD—Medium size, nearly round; skin thin and tough; pulp melting and rich; blood coloring very high; vigorous grower.

ST. MICHAEL—Large, thin skinned; fine flavor. A great favorite.

THOMPSON'S IMPROVED NAVEL—Medium size; rind very smooth and thin; pulp juicy, sweet, and firm; said to be an improvement on Washington Navel.

VALENCIA LATE—Medium size, round; skin smooth and thin; does not ripen till late in Spring, and is especially valuable on that account.

VALENCIA LATE IMPROVED (NEW).—This very fine variety is also known as LORD HOWE and is a vast improvement on the old variety "Valencia Late." The fruit is very fine, having a thin skin and very few pips. The flavor is of excellent quality. The skin does not revert to the green stage like the old variety nor become puffy through hanging on the tree, being marketable as late as March in good condition. The value of this new orange is greatly increased by the fact of its ripening period. Price, 4/- each.

WASHINGTON NAVEL—Fruit large to very large; seedless; pulp melting, juicy, and well flavored; strong, healthy grower and good bearer. Requires good soil and must not be allowed to get dry at the roots during November and December.

MANDARIN ORANGE.

From 4/- each.

BEAUTY OF GLEN RETREAT—Fruit large; very high color, heavy and solid; delicious flavor. Ripens late.

DANCY'S—Medium size flat, almost scarlet; excellent quality, prolific bearer.

EMPEROR—Fruit large, of good flavor; one of the best market types.

JAPANESE SEEDLESS—Very early; fruits large and nicely flavored; tree small-growing.

NOBILIS—The best Mandarin for home garden; fruits large, solid, and of the finest flavor; skin thin.

LIME.

5/- each.

WEST INDIAN—Small fruits; very productive.

LEMONS.

From 4/- each.

LISBON—Fruit large, very juicy, thin skinned; very productive and the best.

LISBON SEEDLESS—A seedless variety of the ordinary Lemon. Good. 4/-.

CITRON.

5/- each.

BENGAL—Fruit very large, round; useful for preserving.

POMOLO OR GRAPE FRUIT.

4/- each.

MARSH'S SEEDLESS—Fruit medium size, pulp juicy and of superior flavor.

POORMAN.

POORMAN ORANGE (for Marmalade) — 4/- each.

CUMQUAT.

5/- each.

Useful for preserving; small fruits; Oval and Round varieties.

GRAPE VINES

Extra Strong Plants of Table Sorts

9d. each; 7/6 per dozen.

Price per 100 and per 1,000 on application.

BLACK HAMBURG—One of the best, juicy and rich; thin skin.

BLACK MAMMOTH—Large, black, roundish oval.

CRYSTAL—White, fine, large, transparent; one of the best. Early.

DORADILLA—White, large bunches; good for packing; hangs well.

FRONTIGNAC, Black—Early; rather small, with vinous flavor.

GRAND TURK—Large, black; fine, handsome bunches.

GREENACHE—A wine grape.

GROS COLMAN—Very large black berries. Late.

LADY'S FINGER—A well-known favorite; handsome bunches.

MALAGA, Black—Bunch large, berries oval; black.

MALAGA, Red—Bunch large; berries large, oval; skin red or reddish purple when ripe.

MUSCAT GORDO BLANCO (Muscatel)—Large, oval; berries greenish yellow; flesh firm, sweet, fine Muscat flavor; the best Muscat.

MUSCAT HAMBURG—Large bunches of black berries, large and oval, juicy, rich; a delicious Grape with fine Muscat flavor.

MADRESFIELD COURT BLACK MUSCAT—Berries very large, oval; Muscat flavor; rich; juicy. Late.

RED MUSCAT (Wood's)—Sport from Gordo Blanco, but berries are a beautiful red color; first-class.

RED PRINCE—Large bunches, fine handsome berries, very large, fleshy; fine flavor.

SHEPHERD'S EARLY—White; very early.

SHIRAZ—A wine grape.

SULTANA—One of the best for drying; seedless.

SWEETWATER—Very early, good, and juicy; white and sweet.

WALTHAM CROSS—Very large, oval, pale amber; sweet, firm, and solid. First-class.

WORTLEY HALL—Large, black, late. Good for preserving.

ZANTE CURRANT—The best Currant Grape; black, juicy, sweet, compact bunches.

LOQUATS

3/6 each.

CHATSWORTH VICTORY—Fruit very large; thick flesh and superior flavor.

ENORMITY—Fruit very large, but flavor not so good as other varieties. 3/6 to 5/- each.

HERD'S MAMMOTH—Fruit large, early, and of excellent flavor.

BLACKBERRIES

ENGLISH—Useful both for fruit and hedges. 1/-.

CURRANTS

1/- each; 9/- dozen.

BLACK NAPLES—Berries large, fine flavor; a good bearer.

BLACK CHAMPION—Fruit very large, borne in great profusion.

FAY'S PROLIFIC—Large, prolific, and early. Red.

LA VERSAILLAISE—The best red for market purposes; large bunches and berries; very free bearer.

WHITE IMPERIAL—Fruits large, transparent, and of the richest flavor; bunches very large.

GOOSEBERRIES

1/- each. 9/- dozen.

BILLY DEAN—Red.
CROWN BOB.—Red.
ROARING LION—Red.
GREEN OAK—Green
PLOUGHBOY—Red.
YELLOW LION—Yellow.

RASPBERRIES

LLOYD GEORGE—A new very heavy cropping Raspberry of exceptional merit. 9d. each; 6/- dozen.
Other Varieties—6d. each; 4/- dozen.

ASPARAGUS.—Obtainable May to September.
Conovers' Colossal. Strong plants. 12/6 per 100. 2/6 dozen.

BANANA—3/6 each.

CAPE GOOSEBERRY—6d. each; 4/- dozen.
Seedlings in Spring, 1/- per dozen.

CHESTNUT (Spanish)—2/6 each.

GUAVA, Purple—2/- each.

GUAVA, Yellow—2/- each.

HERBS.—Sage, Thyme, Marjoram, 3d. per packet.
Plants, 6d. per clump.

LOGANBERRY—Fruit the shape of a Blackberry and the color of a dark red Raspberry; flavor a combination of both; borne in great profusion in early December. Hardy and does well on the plains. Can be trained on fences. 1/- each.

MULBERRY (Black English)—3/6 each.

PASSION FRUIT (*Passiflora edulis*)—The best. 1/- each.

PASSION FRUIT (Banana)—1/6 each.

PERSIMMON—In variety. From 3/- each.

PINEAPPLE—3/6 each.

POMEGRANATE—2/- each.

RHUBARB ROOTS.

Giant Victoria.—Large stalks, good color, fine flavor. 9d. each; 7/6 per dozen.

Mold's Crimson.—A splendid variety; good stalks, fine color. Does not run to seed. Good in winter months as well as summer. 1/- each; 9/- dozen.

Topp's Winter.—A valuable variety that furnishes a large quantity of stalks during the winter, when the summer varieties are at rest. 9d. each; 7/6 dozen.

WALNUT—From 2/6 to 7/6 each.

STRAWBERRY PLANTS.—Plant from May to September.

Melba.—The best variety for the plains; fruit large, brilliant red and best flavor, bearing throughout the summer. 9d. per dozen; 5/- per 100.

Gandy.—A large highly colored berry of good quality; robust grower; and one of the first to ripen. 9d. dozen; 5/- per 100.

Etterburg.—A splendid variety, large, highly colored and beautiful flavored variety. 9d. dozen; 5/- per 100.

FLOWER SEEDLINGS AT 2/6 PER 100

ROSES

Hints on Planting Roses

FOR THE BEGINNER.

The most suitable time to plant Roses is from the end of May until August, but they may be planted until the end of September with good results. If planted earlier, shorten growth slightly and strip off leaves, as if cut back too hard the young growth will start. They can then be shortened back further at the end of June. No manure at all when planting is preferable to too much, but a handful of bonedust worked well into the bottom of the hole does good. A mulch of stable manure on the surface is always beneficial. Most of the Roses lost during the first season are due either to too much manure or sodden ground. Of course, they should be given a good watering in when planted, but in an ordinary season do not require any more until starting growth in Spring.

Dwarf-budded Roses should have the point of union of bud and stock put about one inch above the surface of the soil. They may be planted at any distance from two feet apart for very moderate growing varieties, to three or four feet for stronger growers.

Half-Standards and Standards should be planted from six to nine inches from base of stem to surface of soil, and not nearer than two feet six inches apart.

Soil preparation should be carried out some time before planting. Between the first digging and the planting the soil should be frequently turned over to sweeten the action of the air and sunlight. The more the soil is turned over the better. Frequent turning, at intervals of a week or ten days, is very necessary. With each turning the top soil should be left as rough as possible.

In planting, take care that the manure does not come into direct contact with the roots. Make the planting firm; tread the soil around the plants before filling in the top spit. Give a thorough watering, and when the soil is workable keep it loose on the surface by shallow cultivation with a fork or hoe.

DWARF ROSES.

We would point out the superiority of the Dwarf worked on Bush Roses. Stronger plants, finer blooms, and greater satisfaction will follow their planting, particularly when they are grown in beds or borders for a massed effect.

24 Best Roses

For the convenience of customers we have selected the following list which we consider the 24 Best Varieties for the Garden.

ROSES

GENERAL LIST OF SELECTED VARIETIES

This up-to-date list contains the names of varieties that are well worth growing. Varieties that have proved unsatisfactory have been discarded. The best of the newer Roses have been added.

Our Roses, grown under perfect conditions, will be found wonderfully vigorous and clean, and customers can rely upon satisfactory results following their planting.

For the convenience of customers, we have made a separate list of the Climbing and Polyantha Roses, so that they can be seen at a glance, instead of having to hunt through and pick them out.

ABBREVIATIONS.

T.—Tea Scented and Noisette.
 H.T.—Hybrid Tea, Pernetiana, etc., continuous blooming.
 H.P.—Hybrid Perpetual, Spring blooming.
 C.—China (Monthly Roses).

GENERAL LIST OF DWARF ROSES

- H.T. **AMERICA**.—Bright Pink. G.E. Vig.
- H.T. **AMPERE**.—Shapely buds opening to large double, fragrant, bi-colored flowers of capucine red, paler towards edges, on the inside, with orange colored carmine reverse.
- H.T. **ANGELS MATEU**.—Deep old-rose, flushed orange, shaded chrome yellow. Shiny foliage. Gold Medal, N.R.S., 1934. G. Vig.
- H.T. **ANGELE PERNET**.—Wonderful reddish orange, shaded chrome yellow. Shiny bronze foliage. G.E. Vig.
- H.T. **ANNA NEAGLE**.—Medium sized, full blooms of bright currant red with a sun-flower-yellow base, on long, stiff stems.
- H.T. **AROMA**.—Semi-double bright red flowers with a rich, sweet fragrance. Good average grower, and free blooming.
- H.T. **AUTUMN**.—Burnt orange, streaked with red. S.G.M.
- H.T. **BARON JACQUES RISTON**.—Large, full fragrant flowers of salmon pink and apricot. G.E. Vig.
- H.T. **BEATRICE** **McGREGOR**.—Well-formed dark red rose, fragrant.
- H.T. **BELLE SIEBRECHT**.—Deep rosy pink. Flowers large and well formed. G.E.M.
- H.T. **BETTY U. PRITCHARD**.—Inside of petals salmon pink to carmine; reverse glowing carmine. G. Vig.
- H.T. **BETTER TIMES**.—Large, double, delicately fragrant, brilliant cerise blooms, keeping color well. Leathery, dark green foliage, and free flowering.
- H.T. **BRASIER**.—Long bud, red with dark flames, flower opening to glowing red. G.E. Vig.
- H.T. **CALEDONIA**.—Pure white; splendid form. Exhibition flower. G.E. Vig.
- H.T. **CARILLON**.—Long, pointed buds of orange scarlet opening to deep coral overcast with orange. Inner petals irregularly arranged. Branching habit and glossy green foliage.
- H.T. **CARRIE JACOBS BOND**.—Large, double, fragrant blooms of rose pink flushed crimson at centre. Vigorous growth. Exhibition and garden variety.
- Per **CATALONIA**.—Large full flowers of cardinal red lighted with yellow at base of petals. S.G. Vig.
- H.T. **CATHERINE KORDES**.—Long pointed buds, opening to Exhibition flowers of rich scarlet shaded crimson. T.E. Vig.
- H.T. **CHAPLAIN'S TRIUMPH**.—Strongly scented blooms of rich deep crimson with a dark velvety sheen. Dark green foliage.
- H.T. **CHARLES P. KILHAM**.—Brilliant orange and orient red, suffused scarlet. Free flowering and mildew-proof foliage. S.G. Vig.
- H.T. **CHATEAU DE CLOS VOUGEOT**.—Velvety scarlet, changing to dark crimson. G.M.
- H.T. **CHRISTOPHER STONE**.—Bright, velvety scarlet, flowers up to Exhibition standard when well grown.
- H.T. **COLUMBIA**.—Rose pink. G. Vig.
- H.T. **COMTESSE DE CASTILLEJA**.—Orange vermillion, passing to golden coral. Novel coloring. S.G.E. Vig.
- H.T. **COMTESSE VANDAL**.—Coppery salmon, semi-double blooms. G. Vig.
- Pern. **CONTESSA DE SASTAGO**.—Golden yellow buds, opening to bi-colored flowers, with red inside and golden yellow outside. Fragrant. G. Vig.
- H.T. **CRIMSON GLORY**.—Large buds opening to full, fragrant blooms of deep vivid crimson shaded ox-blood red. Vigorous growth. E.G. Vig.
- H.T. **CUBA**.—Inside of petals carmine crimson; reverse orange scarlet and Lincoln red. Very showy. S.G. Vig.
- H.T. **DAINTY BESS**.—Single flowers of salmon pink with red centre. Very pretty. G. Vig.
- H.T. **DAILY MAIL SCENTED**.—Rich deep crimson. One of the best red roses introduced. S.G.E. Vig.
- H.T. **DAME EDITH HELEN**.—Glowing pink; good shape and form. One of the best roses. S.G.E. Vig.
- H.T. **DESMOND JOHNSTON**.—Brilliant scarlet flushed orange. Distinct coloring; very good. G.E. Vig.
- H.T. **DICKSON'S BOUQUET**.—Sweetly-scented medium sized full flowers of rich reddish salmon on outer petals. Ophelia type. Good growth. 2/6 each.
- H.T. **DICKSON'S CENTENNIAL**.—Large, fragrant flowers of various shades of red. G. Vig.
- H.T. **DICKSON'S DELIGHT**.—Pleasantly scented vivid orange shaded scarlet-orange buds, Bronze-green foliage and erect growth.
- H.T. **DICKSON'S PERFECTION**.—Shrimp pink, overlaid madder orange, merging into orange yellow base, with edges of petals shaded rosy salmon. G. Vig.
- H.T. **DON BRADMAN**.—Long, shapely, coppery claret flowers, fading to silvery pink.
- H.T. **DORIS OSBORNE**.—Very rich carmine pink with long buds.
- H.T. **DUCHESS OF ATHOL**.—Vivid orange; free growth. G. Vig.
- H.T. **DUCHESS OF YORK**.—Deep golden yellow, deepening to orange as the flower opens. G.E. Vig.
- H.T. **ECLIPSE**.—Large, pointed, deep gold buds, opening to semi-double cadmium yellow blooms. Vigorous, branching and free blooming.
- H.T. **E. G. HILL**.—Dazzling scarlet, deepening to crimson as flower opens. Large, well shaped flowers. S.G.E. Vig.
- H.T. **ELITE**.—Blooms of glowing rose with orange shading richer than Pres. Hoover.
- H.T. **EMMA WRIGHT**.—Pure orange without shading. Very free flowering. G. Vig.

- H.T. **ETHEL SOMERSET**.—Shrimp pink, edge of petals coral pink. Well formed exhibition flowers. G.E. Vig.
- H.T. **ETOILE DE HOLLAND**.—Bright dark red. One of the best red roses. G. Vig.
- H.T. **EDITOR McFARLAND**.—Large blooms of a deep even shade of pink. G. Vig.
- H.T. **EMILE CRAMON**.—Long coppery red bud opening to coppery carmine shaded chrome yellow flowers. Vigorous growth and dark green foliage.
- H.T. **FAIENCE**.—A mixture of peach and apricot with yellow. Strong, healthy foliage. G. Vig.
- H.T. **FEDERICO CASAS**.—Long pointed red bud, opening to red and yellow flower. S.G. Vig.
- H.T. **FELICITY**.—Pink shading to cerise. S.G.E. Vig.
- H.T. **FEU PERNET DUCHER**.—Exhibition blooms of deep yellow with the outer petals often showing light carmine markings. G.E. Vig.
- H.T. **FLORENCE L. IZZARD**.—Well-formed flowers of buttercup yellow. S.G.E. Vig.
- H.T. **FONTANELLE**.—Clear yellow. Well-formed flowers. One of the best yellow roses. G.E. Vig.
- H.P. **FRAU KARL DRUSCHKI** (Snow Queen).—Pure white, strong grower. G.E. Vig.
- H.P. **FRED WALKER**.—Coral-red buds opening to glowing pink flowers, which fade to old-rose flushed gold. Blooms long and pointed on stiff, dark red stems. E.G. Vig.
- H.T. **FRIENDSHIP**.—Bright, fragrant flowers of strawberry red with a brilliant scarlet undertone. Ideal growth of the bushy, bedding type.
- H.T. **GENERAL STEFANIK**.—Large, full flowers of violet blue. Hardy vigorous growth.
- H.T. **GEORGE DICKSON**.—Velvety black crimson; back of petals crimson maroon. S.G.E. Vig.
- Pert. **GEORGES CHESNEL**.—Deep orange blooms fading to deep yellow, most intense color of its kind. Moderate growth and foliage.
- H.P. **GIRONA**.—Long buds opening to fragrant rose pink, yellow and red blooms somewhat resembling "Talisman." G. Vig.
- C. **GLOIRE DE ROSOMANES** (Ragged Robin).—Carmine; semi-double. A good hedge rose. G. Vig.
- H.T. **GOLDEN DAWN**.—Rich sunflower yellow, flushed old rose. Very large. G.E. Vig.
- H.T. **GOLDEN EMBLEM**.—Deep rich golden yellow; buds tipped with red. G.E. Vig.
- H.T. **GOLDEN GLEAM**.—Clear yellow; buds flushed with scarlet. G. Vig.
- H.T. **GOLDEN OPHELIA**.—Golden yellow, paling as the flower opens. G. Vig.
- H.T. **GOLDEN QUEEN**.—Bud deep yellow slightly shaded carmine, opening to rich pure chrome yellow, which keeps the color well. Vigorous branching growth with few thorns.
- H.T. **GOLDEN STATE**.—Large, fragrant flowers of golden yellow veined carmine on the exterior. Deeper carmine shade on the bud. Bronze green foliage with few thorns.
- H.T. **GORGEOUS**.—Orange yellow, veined coppery red. G.E. Vig.
- H.T. **GRANAT**.—Velvety, black-red bud, opening to well-formed blooms of blackish red, with rich fragrance. Good foliage, vigorous growth and profuse bloomer.
- H.T. **HADLEY**.—One of the best dark red roses. Very free flowering. G.E. Vig.
- H.T. **HALMARK CRIMSON**.—Deep crimson single bedding rose. Very pretty. G. Vig.
- H.T. **HEINRICH WENDLAND**.—Deep golden yellow with nasturtium-red shadings on the inside of the petals. G. Vig.
- H.T. **HOME SWEET HOME**.—Flowers rich velvety pink with true old-rose perfume and brilliant under electric light. Large, dark green, glossy foliage.
- H.T. **HOOSIER BEAUTY**.—Glowing crimson. One of the best red roses. S.G.E. Vig.
- H.T. **IMPERIAL POTENTATE**.—Bright rose pink. Very free flowering. S.G.E. Vig.
- S. **IRISH FIREFLAME**.—Single. Buds orange splashed crimson. G. Vig.
- S. **ISOBEL**.—Single. Carmine red flushed orange, changing to pink as flower opens. G. Vig.
- H.T. **I. ZINGARIE**.—Orange scarlet. Very brilliant semi-double flowers, produced in clusters. G. Vig.
- H.T. **JNR. MR. G. SANDBERG**.—Pointed, medium size blooms of Indian yellow with chrome yellow. G. Vig.
- H.T. **JOANNA HILL**.—Clear yellow deepening at centre. Very free flowering. G.E. Vig.
- H.T. **JULIEN POTIN**.—Rich golden yellow, growing deeper as flower opens. S.G.E. Vig.
- H.T. **K. A. VICTORIA**.—Creamy white. G.E. Vig.
- H.T. **KARDINAL**.—Blackish-red buds turning to fiery scarlet as the flower opens, very free flowering. G. Vig.
- H.T. **KATHERINE PECHTOLD**.—Buds of old gold and orange, opening to coppery-orange flushed rose and gold. Very free blooming. G. Vig.
- H.T. **KIDWAY**.—Full, perfect blooms of sun-yellow, striped and shaded orange. G. Vig.
- H.T. **KING GEORGE'S MEMORIAL**.—Large, full, scented flowers, crimson with dark velvety purple shading. Exhibition quality. G.E. Vig.
- H.T. **KOROVO**.—Rich, clear, double, salmon pink blooms, with an occasional orange flush. Vigorous healthy growth.
- H.T. **LA PARISENNE**.—Buds of flaming coral, opening to golden coral and lasting well in water. G. Vig.
- H.T. **LADY ALICE STANLEY**.—Silvery pink, with rose pink reverse. Beautiful garden rose, retaining the color well as the flower opens. Very sweet scented. S.G.E. Vig.
- H.T. **LADY HELEN MAGLONA**.—Bright crimson, fused yellow. S.G.E. Vig.

- H.T. **LADY HILLINGDON**.—Golden yellow. G. Vig.
- H.T. **LADY HUNTINGFIELD**.—Rich, deep golden yellow, flowers freely produced on long stems. Healthy resistant foliage.
- H.T. **LADY INCHQUIN**.—Orange cerise. G.E. Vig.
- H.T. **LADY MARGARET STEWART**.—Buds deep yellow, suffused orange scarlet, changing to cadmium orange as the flower opens. G.E. Vig.
- H.T. **LADY MAUREEN STEWART**.—Well-formed flowers of deep red. G.E.M.
- H.T. **LAURENTE CARLE**.—Deep carmine. G. Vig.
- H.T. **LAWRENCE OF ARABIA**.—Large, full, pointed flowers with heavy petals of Indian yellow, flushed coppery rose. Strong bushy growth of good bedding type.
- H.T. **LEADING LADY**.—Beautifully shaped fragrant flowers of clear flesh-pink flushed peach-blossom rose. E.G. Vig.
- H.T. **LEMANIA**.—Shapely blooms of dark red, with darker centre, produced singly on long stems.
- H.T. **LILETTE MALLERIN**.—Long, pointed buds, opening to beautiful flowers of novel color combination, being crimson pink with reverse of petals soft creamy yellow. Healthy dark green foliage.
- H.T. **LLEIDA**.—An outstanding variety in the fancy bi-color type; outside of petals yellow at base flushed orange and red, with inner petals of bright orange red.
- H.T. **LORD CHARLEMONT**.—Clear crimson. One of the best red roses for all purposes. G.E. Vig.
- H.T. **LORRAINE LEE**.—Apricot pink, shaded salmon. One of the best bedding roses. G. Vig.
- H.T. **LOS ANGELES**.—Flame pink toned coral pink. G. Vig.
- H.T. **LYNDA HURST**.—Rich pink resembling "Madame Abel Chatenay," but fuller and better colored. G.E. Vig.
- H.T. **LYON ROSE**.—Coral red and salmon suffused yellow. S.G.T. Vig.
- H.T. **MABEL MORSE**.—Clear bright golden yellow. G.E. Vig.
- H.T. **MADAME ABEL CHATENAY**.—Rose pink, shaded salmon. One of the best roses for any purpose. G. Vig.
- H.T. **MADAME BUTTERFLY**.—Pink, apricot and yellow. G. Vig.
- H.T. **MADAME E. HERRIOT**.—Vivid terracotta passing to strawberry rose pink. G. Vig.
- H.T. **MADAME HENRI GUILLOT**.—High buds opening to camelia-like flowers of deep cochineal-carmine, with flesh pink reverse. Strong, healthy foliage.
- H.T. **MADAME EDOUARD ESTAINE**.—Sweetly scented flowers of Nankeen-yellow, shaded red in centre with flesh coloring on tips and reverse of petals. G. Vig.
- H.T. **MADAME JEAN GAUJARD**.—Good formed blooms of golden yellow with deep salmon pink reverse, which hold the color until quite old, but has many thorns. 2/6 each.
- P. **MADAME JOSEPH PERRAUD**.—Long slender buds of orange, changing to buff as flowers open; fragrant. E.G. Vig.
- H.T. **MADAME JULES BOUCHE**.—Porcelain white. G.E. Vig.
- H.T. **MADAME LOUIS LENS**.—Long, pointed buds, opening to good shaped pure white blooms of about 40 petals, but liable to ball in damp weather. Good exhibition and garden variety, with vigorous foliage.
- H.T. **MADAME RAYMOND GAUJARD** (Olympiad).—Beautiful coppery pink. G.M.
- H.T. **MADAME SEGOND WEBER**.—Salmon pink. G.E. Vig.
- H.T. **MADGE WHIP**.—Large glowing crimson and fiery scarlet blooms with velvety fragrant petals. Rich oliv. G.E. Vig.
- H.T. **MAJORCA**.—Perfect buds and blooms of intense geranium red, flushed orange. Brilliant bedding variety with bushy foliage. 2/6 each.
- P. **MAISON PERNET-DUCHER**.—Strong stemmed, perfectly formed flowers of orange shaded copper. Blooms last well. E.G. Vig.
- H.T. **MALAR ROS**.—Pointed egg-shaped buds, opening to large very double flowers of deep crimson. G.E. Vig.
- T. **MAMAN COCHET**.—Light pink, shaded carmine rose. G.E. Vig.
- H.T. **MARGARET DICKSON HAMMILL**.—Yellow petals edged and flushed delicate carmine. G.E. Vig.
- H.T. **MARGARET MCGREDY**.—Orange scarlet; faint scent. Very bright foliage. S.G.E. Vig.
- H.T. **MARION CRAN**.—Deep buttercup yellow, flushed cerise and rosy scarlet. Inside of petals scarlet flushed orange. G. Vig.
- H.T. **MARY HART**.—Maroon red buds, opening to well-formed, fragrant blooms of velvety red. G. Vig.
- H.T. **MATADOR**.—Highly perfumed full flowers of scarlet-crimson with maroon shade on inside of petals and a silky sheen on the reverse. G. Vig.
- H.T. **MAY WETTERN**.—Inner side of petals bright salmon; reverse deep rosy pink. S.G.E. Vig.
- H.T. **MAX KRAUSE**.—Deep reddish orange, changing to clear yellow blooms carrying about 60 petals.
- H.T. **MCGREDY'S CORAL**.—Large blooms of coral-pink overlaid salmon and shaded copper. G. Vig.
- H.T. **MCGREDY'S ORANGE**.—Tea-scented, medium size blooms, inside of petals deep Indian yellow without shading, and outside bright orange flushed salmon. G. Vig.
- H.T. **MCGREDY'S PEACH**.—Semi-double flowers of creamy yellow, washed salmon colors, resembling a ripe light colored peach. T.G. Vig.

- H.T. **McGREDDY'S PINK**.—Sweetly scented buds of bright rose pink, opening to flowers of a pearly cream and pink, with a saffron yellow base. E.G. Vig.
- H.T. **McGREDDY'S PRIDE**.—Long, pointed buds of orange and salmon pink flushed and veined saffron yellow. G. Vig.
- H.T. **McGREDDY'S SCARLET**.—Brilliant rich velvet scarlet, with orange at base of petals. G.E. Vig.
- H.T. **McGREDDY'S SUNSET**.—Outside of petals clear buttercup yellow, inside chrome yellow at base, shading off to bright scarlet. Medium sized, fragrant, full blooms; color at best when full open. Moderate grower.
- H.T. **McGREDDY'S TRIUMPH**.—Flowers geranium red, flushed orange. G. Vig.
- H.T. **McGREDDY'S WONDER**.—Fruity perfumed flowers of brilliant coppery orange, with a faint orange-red flush on the edge of petals. G. Vig.
- H.T. **McGREDDY'S YELLOW**.—Large bright buttercup yellow, sweetly-scented flowers. G.M.
- H.T. **MERVOUW G. A. VAN ROSSEM**.—Shaded flame and orange on a dark golden yellow ground. Very good. S.G.E. Vig.
- H.T. **MISS AUSTRALIA**.—Delicate shell pink, shaded salmon at base of petals. S.E. Vig.
- H.T. **MRS. A. R. BARRACLOUGH**.—Carmine pink with yellow base. Good formed blooms. G.E. Vig.
- H.T. **MRS. BRYCE ALLEN**.—Coppery carmine rose. S.G.E. Vig.
- H.T. **MRS. DAVID McKEE**.—Creamy white. G.E. Vig.
- H.T. **MRS. DUNLOP BEST**.—Reddish apricot, with coppery yellow base. One of the best garden roses. S.G. Vig.
- H.T. **MRS. GEORGE GEARY**.—Double blooms of rich, deep pink. Free flowering, vigorous and hardy. Garden and exhibition variety.
- H.T. **MRS. GEORGIA CHOBE**.—Long, pointed buds, opening to large, double blooms of a uniform light pink. Vigorous growth.
- H.T. **MRS. L. B. CODDINGTON**.—Deep rosy salmon blooms, with large petals, suitable for exhibition. Strong growth and good foliage.
- H.T. **MRS. HENRY MORSE**.—Bright rose pink. G.E. Vig.
- H.T. **MRS. HENRY WINNET**.—Beautiful red rose. One of the best for all purposes. S.G.E. Vig.
- H.T. **MRS. HERBERT STEVENS**.—The best white rose for all purposes. G.E. Vig.
- H.T. **MRS. H. R. DARLINGTON**.—Creamy yellow. G.E. Vig.
- H.T. **MRS. PIERRE S. PUPONT**.—Intense yellow, shaded ochre. S.G. Vig.
- H.T. **MRS. SAM McGREDY**.—Inside of petals coppery apricot, outside Lincoln red, changing to old gold and salmon. G. Vig.
- H.T. **MRS. W. E. LENON**.—Long pointed buds, opening to semi-double, fragrant, reddish carmine flowers. G. Vig.
- H.T. **MRS. WAKEFIELD CHRISTIE MILLER**.—Blush pink; outside of petals deep rose. G. Vig.
- H.T. **MRS. W. C. EGAN**.—Reverse of petals light pink; interior deep flesh pink. G.E. Vig.
- H.T. **NIGRETTE**.—Almost black to velvety black, without any shadings. Darkest rose in commerce. G. Vig.
- H.T. **NUMA FEY**.—Salmon orange shading to rosy salmon with paler edges. Vigorous growth. 2/6.
- H.T. **OLIVER MEE**.—Deep salmon pink, flushed fawn. S.G.E. Vig.
- H.T. **OPHELIA**.—Salmon flesh shaded rose. G.E. Vig.
- H.T. **ORANGE GLORY**.—Medium size, semi-double blooms of a good orange color, fading to coppery pink as flower ages. G. Vig.
- Poly. **ORANGE TRIUMPH**.—Large clusters, up to 100 blooms, with single ones about 1½ inches across, of salmon red with orange shadings. This variety will supersede the Orleans type as it sets a new standard of healthy foliage, growth and freedom of bloom.
- H.T. **PATIENCE**.—Bud scarlet carmine lake, opening to orange and carmine pink. G.E. Vig.
- H.T. **PICTURE**.—Medium sized blooms of clear rose pink, tea scented. An ideal bedding variety, aptly named.
- H.T. **PORTADOWN**.—Rich deep crimson. S.G.E. Vig.
- H.T. **PORTADOWN FRAGRANCE**.—Large flowers of orange salmon with orange scarlet flush. E.G. Vig.
- H.T. **PORTADOWN IVORY**.—Bud creamy yellow, fading to clear white as flower opens. S.G. Vig.
- H.T. **PRESIDENT HERBERT HOOVER**.—Beautifully formed flowers of cerise, bronze, and yellow. G. Vig.
- H.T. **PRINCESS AMEDEE DE BROGLIE**.—Full flowers of coppery cerise with dark green, glossy foliage.
- H.T. **PRESIDENT MACIA**.—Outside of petals deep pink, with pale flesh pink inside. Thirty petalled flowers sometimes up to show form.
- H.T. **PRINCESS MARINA**.—Long buds of copper stained crimson opening to perfectly shaped flowers of delicate apricot shaded and veined salmon. G. Vig.
- H.T. **QUEEN ASTRID**.—Buds Persian yellow opening to large, full, fragrant flowers of reddish apricot and bronze. Growth vigorous but not bushy.
- H.T. **QUEENSLAND BEAUTY**.—Various shades of rose pink with light tea perfume. G. Vig.
- H.T. **RADIANCE**.—Carmine shaded pink and salmon. S.G. Vig.
- H.T. **RED RADIANCE**.—Cerise red; sport of Radiance. S.G. Vig.
- H.T. **REV. F. PAGE ROBERTS**.—Yellow suffused buff. Buds shaded with red. Very good. G.E. Vig.

- H.T. **R.M.S. QUEEN MARY.**—Salmon orange flowers on stiff stems. This variety also known as Mrs. Verschuren.
- H.T. **ROCHEFORT.**—Large blooms of intense coral orange, suitable for garden and exhibition.
- H.T. **ROI ALEXANDER.**—Reddish copper buds opening to flowers of golden copper with a yellow base. Attractive reddish wood and bronze green foliage.
- H.T. **ROME GLORY.**—Best described as a red "Dame Edith Helen," with larger flowers and stronger growth. Has same habit and fragrance, but color is a good clear red, brighter in centre. 2/6.
- H.T. **ROSE BERKLEY.**—Rosy salmon pink suffused orange, with orange base. G.E. Vig.
- H.T. **ROSELANDIA.**—One of the best yellow roses. G.E. Vig.
- H.T. **ROSE MARIE.**—Rose pink. Very free flowering. G. Vig.
- Pernt. **ROTE G. A. VAN ROSSEM.**—Double blooms of Nasturtium red with yellow on reverse of petals. 2/6.
- H.T. **ROUGE MALLERIN.**—Brilliant red, opening to full exhibition flower. E.G. Vig.
- H.T. **SAM MCGREDY.**—Young flowers honey yellow, changing to dark cream with sunflower-yellow at base. G. Vig.
- H.T. **SAN DIEGO.**—Large, double strongly fragrant blooms deep orange yellow, shading to apricot and fading off to soft buff. Glossy foliage and vigorous bushy growth.
- H.T. **SENSATION.**—Rich crimson. S.G.E. Vig.
- H.T. **SHOT SILK.**—Bright cherry cerise suffused salmon and orange; flushed rose and yellow. Bright green foliage. A really beautiful rose. G. Vig.
- H.T. **SIGNORA.**—Brownish orange buds, opening to fragrant, double blooms of yellow and salmon. Vigorous growth.
- H.T. **SILVER JUBILEE.**—Full flowers of light golden yellow with chrome base and canary edge. G.E. Vig.
- H.T. **SIR HENRY SEGRAVE.**—Primrose yellow. E. Vig.
- H.T. **SOPHIE MACKINNON.**—Full red rose of good shape, with healthy vigorous growth.
- H.T. **SOU DE MADAME BOULLET.**—Long pointed buds opening to tea scented blooms of deep cadmium yellow, which keep their color well. G. Vig.
- H.T. **SOUVENIR DE LILETTE.**—Long white buds borne singly opening to large quality flowers. Compact growth.
- H.T. **SOUVENIR DE MARIE DE ZAYAS.**—Vivid carmine. S.G.E. Vig.
- H.T. **STERLING.**—Long pointed buds opening to semi-double fragrant flowers of brilliant Killarney pink, freely produced. Vigorous growth.
- H.T. **SUNBURST.**—Orange yellow, with a deeper centre. G.E. Vig.
- H.T. **SUNLIT.**—A delightful, free blooming salmon pink.
- H.T. **SUNNY SOUTH.**—Pink flushed carmine. Very strong grower. An ideal hedge rose. G. Vig.
- H.T. **SUNSTAR.**—Deep orange and yellow veined crimson. G. Vig.
- H.T. **SWEETNESS.**—Apricot on light buttercup ground, washed and shaded light rosy cerise with deep amber base. G.E. Vig.
- H.T. **TALISMAN.**—Shadings of scarlet, pink, copper, and gold. Blooms very variable in color. G. Vig.
- H.T. **TEXAS CENTENNIAL.**—Blooms of blood-red toning to cerise red in centre. G.
- H.T. **THE DOCTOR.**—Large, shapely flowers of exhibition size in a clear, rich, silvery pink, with a perfume that can be detected yards away. A sturdy grower. 2/6 each.
- H.T. **THE QUEEN ALEXANDRA.**—Vermilion, shaded old gold. G.M.
- H.T. **UNA WALLACE.**—Soft rose pink.—S.G.E. Vig.
- H.T. **VAINQUEUR.**—Large, full sweetly scented dark blood red flowers, but the color is inclined to fade. Strong growth.
- Pernt. **VAN ROSSEM'S JUBILEE.**—Flowers of bright carmine lake, flushed satiny pink, and glossy foliage. Good bedding variety.
- Pernt. **VILLE DE SAVERNE.**—Shapely blooms of vermilion red shaded velvety maroon and yellow.
- H.T. **VIKTORIA ADELHEID.**—Flowers of deep golden-yellow, with red reverse. Very large full blooms. E.G. Vig.
- H.T. **VILLE DE PARIS.**—Yellow, shaded orange. G. Vig.

- WHITE CECILE BRUNNER.**—A white variety of the well-known Cecile Brunner.

SWEET PEAS

UNPRECEDENTED SUCCESS

OF OUR REGISTERED

"Invincible" Strain

OF

Quality Winter Flowering Sweet Peas

IMPRESSIVE AND CONVINCING

FACTS

During the past three seasons (1938-9-40), out of 56 entries, we gained 52 First and 4 Second Awards.

In addition to this achievement, we also gained 6 of the 8 Championships awarded, all of which were varieties of our own raising.

At the Adelaide Sweet Pea Shows our seedlings have been awarded every Championship for the past six years.

This is unquestionably a triumph which establishes more firmly than ever the position of our "INVINCIBLE" Sweet Peas as the greatest strain.
